

Preface

This volume contains the papers presented at CMDM 2016: The Workshop on Computer Modelling in Decision Making held on November 10–11, 2016 in Saratov. The CMDM 2016 workshop brings together researchers, postgraduate students and academics interested in computer and mathematical modelling in decision making in different areas. The CMDM 2016 workshop’s main topic is computer and mathematical modelling in decision making in finance, insurance, banking, economic forecasting, investment and financial analysis. The workshop takes place in Saratov State University (Saratov, Russia) on the 10th and 11th of November 2016 and is co-organized with the Central Bank of the Russian Federation and the Department of Statistics and Data Analysis of Higher School of Economics (Moscow, Russia).

The workshop is co-located with the V International Youth Research and Practice Conference on Mathematical and Computer Modelling in Economics, Insurance and Risk Management, Saratov, Russia, November 10–11, 2016.

Fifteen papers were submitted and ten papers were accepted for presentation at the workshop after a careful peer reviewing process with discussions among reviewers and members of the program committee. Each paper was reviewed by at least two reviewers or members of the program committee. We would like to thank all reviewers for their helpful efforts.

The CMDM 2016 workshop has been financially supported by the Russian Fund for Basic Research (grant 16-31-10296). The EasyChair system has been used to manage the submissions, reviewing, and proceedings production and we would like to express our gratitude to the staff of EasyChair system for support.
