The IJCAI-ECAI 2018 Workshop

Linguistic and Cognitive
Approaches to Dialog Agents
(LaCATODA 2018)

July 13, 2018
Stockholm, Sweden

Preface

These are the proceedings of the third Linguistic and Cognitive Approaches to Dialog Agents (LaCATODA 2018), which was held on July 13, 2018 in Stockholm, Sweden. The workshop was a part of the 27th International Joint Conference on Artificial Intelligence (IJCAI 2018) colocated with ECAI 2018, the 23rd European Conference on Artificial Intelligence. Both conferences were held under the umbrella of Federated AI Meeting (FAIM 2018), the biggest AI joint conference so far. Fourteen papers were submitted to the workshop of which eight was accepted to be presented during the workshop. The submissions were reviewed by three (at least two) members of the program committee.

This workshop was the fourth edition of the LaCATODA series. The two first editions were organized as symposia of the AISB/IACAP conferences in United Kingdom: the first one in 2010 in Leicester, and the second one in Birmingham. The third edition was co-located with the prestigious IJCAI conference in Melbourne, 2017. We would like to thank all authors who submitted papers, and the program committee members for their efforts.

September 2018

Program Chairs / Organizers / Editors:

Rafal Rzepka - rzepka@ist.hokudai.ac.jp,
Language Media Laboratory
Graduate School of Information Science and Technology
Hokkaido University, Kita-ku Kita 14 Nishi 9, 060-0814 Sapporo, Japan

Jordi Vallverdú - jordi.vallverdu@uab.cat
Autonomous University of Barcelona, Spain

Andre Wlodarczyk - wlodarczyk.andre@gmail.com
Charles de Gaulle University, France

Program Committee

Kenji Araki (Hokkaido University, Japan)
Aladdin Ayesh (De Montfort University, UK)
Erik Cambria (Nanyang Technological University, Singapore)
Pawel Dybala (Jagiellonian University, Poland)
Haris Dindo (Yewno, USA)
Mark Ellison (Australian National University, Australia)
Jun'ichi Fukumoto (Ritsumeikan University, Japan)
Ben Groetzl (Novamente, USA)
Dai Hasegawa (Tokyo University of Technology, Japan)
Ryuichiro Higashinaka (NTT, Japan)
Yasutomo Kimura (Otaru University of Commerce, Japan)
Pawel Lubarski (ClinWork, Poznan University of Technology, Poland)
Fumito Masui (Kitami Institute of Technology, Japan)
Mikolaj Morzy (Poznan University of Technology, Poland)
Koji Murakami (Rakuten, USA)
Noriyuki Okumura (Otemae University, Japan)
Michal B. Paradowski (Warsaw University, Poland)
Michal Ptaszynski (Kitami Institute of Technology)
Tyson Roberts (Google)
Koichi Sayama (Otaru University of Commerce)
Marcin Skowron (Austrian Research Institute for Artificial Intelligence, Austria)
Masato Tokuhisa (Tottori University, Japan)
Yuzu Uchida (Hokkai-gakuen University, Japan)
Katarzyna Wegrzyn-Wolska (Efrei/Esigetel, France)
Adam Wierzbicki (Polish-Japanese Institute of Inf. Technology, Poland)
Zygmunt Vetulani (Adam Mickiewicz University, Poland)
Motoki Yatsu (Aoyama Gakuin University, Japan)

Table of Contents

Preface

Regular papers

<i>Improving Goal-Oriented Visual Dialog Agents via Advanced Recurrent Nets with Tempered Policy Gradient</i>	1
Rui Zhao and Volker Tresp	
<i>Detecting Location-Indicating Phrases in User Utterances for Chat-Oriented Dialogue Systems</i>	8
Hiromi Narimatsu, Hiroaki Sugiyama, Masahiro Mizukami	
<i>Efficient Purely Convolutional Text Encoding</i>	14
Szymon Malik, Adrian Lancucki, Jan Chorowski	
<i>Dialogue Modeling Via Hash Functions</i>	24
Sahil Garg, Guillermo Cecchi, Irina Rish, Shuyang Gao, Greg Ver Steeg, Sarik Ghazarian, Palash Goyal and Aram Galstyan	
<i>Towards a structured evaluation of improv-bots: Improvisational theatre as a non-goal-driven dialogue system</i>	37
Maria Skeppstedt and Magnus Ahltop	
<i>Refinement of utterance database and concatenation of utterances for enhancing system utterances in chat-oriented dialogue system</i>	44
Yuiko Tsunomori, Ryuichiro Higashinaka and Takeshi Yoshimura	
<i>Event Data Collection for Recent Personal Questions</i>	52
Masahiro Mizukami, Hiroaki Sugiyama and Hiromi Narimatsu	
<i>Conversational Control Interface to Facilitate Situational Understanding in a City Surveillance Setting</i>	59
Daniel Harborne, Dave Braines, Alun Preece and Rafal Rzepka
