

Proceedings of the BPM 2007 Demonstration Program

at the

Fifth International Conference on Business Process Management (BPM'07)

Brisbane (Australia), 24-27 September 2007

Preface

This volume contains the proceedings of the BPM 2007 Conference Demonstration Program (BPM'07 Demo Program) as part of the Fifth International Conference on Business Process Management (BPM'07), held in Brisbane, Australia, on 24-27 September 2007, and organised by the Business Process Management Research Group, Faculty of Information Technology of the Queensland University of Technology.

The BPM Conference series provides one of the most prestigious forums for researchers and practitioners in all aspects of business process management, and has a record of attracting innovative research of the highest quality related to all aspects of business process management (theory, frameworks, methods, techniques, software architectures, empirical findings).

The Demonstration Program showcases innovative business process management related implementations, technologies and tools, and provides a valuable opportunity to show and discuss emerging technologies with key researchers and practitioners in the BPM domain.

Submissions were each evaluated by at least three members of the program committee, on the basis of their innovation, practical value, relevance and presentation. Of the twelve submissions, five papers of the highest quality were accepted for presentation. Topics include business process flexibility and schema evolution, the interactive simulation of service choreographies, the integration of object life cycle and business process modelling, the efficient verification of EPC business process models and a policy-based middleware for monitoring of service compositions and their dynamic adaptation.

We wish to thank the authors, the members of the program committee, the local BPM conference organisation team and the conference sponsors for their contributions to the success of the BPM'07 Demo Program.

Michael Adams and Shazia Sadiq
BPM'07 Demo Program Co-Chairs
Brisbane August 2007

Demonstration Program Committee

Michael Adams, QUT Brisbane, Australia (Co-Chair)

Alexander Dreiling, SAP Research Centre, Australia

Patrick Hung, University of Ontario, Canada

Matjaz Juric, University of Maribor, Slovenia

Rania Khalaf, IBM Research, United States

Agnes Koschmider, University of Karlsruhe (TH), Germany

Marek Lehmann, University of Vienna, Austria

Jan Mendling, WU Vienna, Austria

Frank Puhmann, HPI Potsdam, Germany

Jan Recker, QUT Brisbane, Australia

Stefanie Rinderle, University of Ulm, Germany

Florian Rosenberg, TU Vienna, Austria

Nick Russell, QUT Brisbane, Australia

Shazia Sadiq, The University of Queensland, Australia (Co-Chair)

Christian Stefansen, University of Copenhagen, Denmark

Oliver Thomas, University of Saarland, Germany

Eric Verbeek, TU Eindhoven, The Netherlands

Barbara Weber, University of Innsbruck, Austria

Petia Wohed, Stockholm University, Sweden

Andreas Wombacher, University of Twente, The Netherlands
