The AIxIA Doctoral Consortium (DC) was offered as part of the Conference of the Italian Association for Artificial Intelligence (AIxIA) that took place in Rome, Italy on November 6-9, 2023. The DC provided an opportunity for PhD students to explore and develop their research interests in the Artificial Intelligence field, in the broader sense, under the guidance of a panel of distinguished researchers from both academia and industry. Attending students had the opportunity to present their work in a dedicated poster session during the conference.

We thank the mentors who agreed to read the papers and offered their time to discuss the projects presented by the DC participants:

- Danilo Avola
- Stefania Costantini
- Alfredo Milani
- Cataldo Musto
- Riccardo Rasconi
- Francesco Santini
- Marta Sanzari

DC Paper Award

Moreover, the DC Paper award was conferred on the authors of the Doctoral Consortium best papers who distinguished themselves in their poster presentation. Two students were selected (ex aequo) and received the award

- Tommaso Carraro
- Edoardo De Rose
