

Hello,

We are launching a credited entrepreneurship course E/SEC 102, bringing in 15 industry professionals to provide real world examples and advice to understand the startup ecosystem. Experts will cover a range of topics including incorporation, venture capital fundraising, and scaling a business. The course will be held this fall Tu/Th from 2:30-4:00 pm and can be taken for credit, for pass/fail, or simply audited to hear our guest speakers.

For undergrads, grads and postdocs who have a technology or company idea already, some of our guest lecturers will have office hours for 1-on-1 sessions with feedback.

If you are interested in this class, fall registration opens up again Monday Sept 23. If you want to audit, you can fill in this form

https://registrar.caltech.edu/documents/20107/Audit_Registration_Form.pdf and send it back to our office in advance or show up on our first day of class on Oct 1 at 2:30 PM in the new Resnick Sustainability Center (next to Braun) Classroom 275. Feel free to come to discuss your project, auditing, or taking the course for credit.

Our syllabus and overview of speakers, along with the course descriptor, are attached. If you have questions, please email course instructor Stephanie Yanchinski stephanie.yanchinski@caltech.edu and course TA Bryan Gerber bgerber@caltech.edu.

Regards,
Stephanie Yanchinski stephanie.yanchinski@caltech.edu
