Safe Harbor Statement

Certain statements in this presentation and the accompanying oral presentation, if any, relate to future results that are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. This presentation contains statements involving risks and uncertainties, including, but not limited to, statements relating to Limelight Networks' market opportunity, solutions, services, and feature functionalities, revenues, gross profit, earnings, adjusted EBITDA, capital expenditures, free cash flow, the anticipated impact on our business and our customers' businesses of the COVID-19 pandemic and future business prospects. Actual results may differ materially and reported results should not be considered as an indication of future performance. Factors that could cause actual results to differ are included in Limelight Networks' Annual Report on Form 10-K for the year ended December 31, 2020 and periodic reports on Form 10-Q.

In addition, the statements in this presentation represent Limelight Networks' expectations as of today. We anticipate that subsequent events and developments may cause these expectations and beliefs to change. However, while we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our expectations or beliefs as of any date subsequent to the date of this presentation.

In addition to Limelight Networks' GAAP financial information, this presentation includes certain non-GAAP financial measures. The non-GAAP measures have limitations as analytical tools and you should not consider them in isolation or as a substitute for the most directly comparable financial measures prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures versus their nearest GAAP equivalents. Other companies, including companies in our industry, may calculate non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison. We urge you to review the reconciliation of our non-GAAP financial measures to the most directly comparable GAAP financial measures set forth in Limelight Networks' most recent Annual Report on Form 10-K on file with the Securities and Exchange Commission (the "SEC") and our other filings with the SEC, and not to rely on any single financial measure to evaluate our business.

This presentation also contains estimates and other statistical data made by independent parties and by Limelight Networks relating to market size and growth and other industry data. These data involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. Limelight Networks has not independently verified the statistical and other industry data generated by independent parties and contained in this presentation and, accordingly, it cannot guarantee their accuracy or completeness. In addition, projections, assumptions and estimates of its future performance and the future performance of the markets in which it competes are necessarily subject to a high degree of uncertainty and risk due to a variety of factors. These and other factors could cause results or outcomes to differ materially from those expressed in the estimates made by the independent parties and by Limelight Networks.
