

ASTRONOMICAL DATA ANALYSIS SOFTWARE & SYSTEMS

10-14 NOV
2024

VALLETTA
MALTA

The **Astronomical Data Analysis Software and Systems (ADASS)** conference will be **HYBRID**, hosted by the Institute of Space Sciences and Astronomy at the University of Malta.

ADASS provides a forum for scientists and programmers concerned with algorithms, software and software systems employed in the acquisition, reduction, analysis, and dissemination of astronomical data. An important element of the program is to foster communication between developers and users with a range of expertise in the production and use of software and systems. The program consists of invited talks, contributed oral and display papers, tutorials, user group meetings and special interest group meetings (collectively "Birds of a Feather" meetings).
