

**New Mexico WSC Sediment Lab
FY25 Price List**

Suspended Sediment Analyses

Concentration (<i>Filtration-low sediment/Evaporation-high sediment</i>).....	\$41.34
Sand Fine Break (<i>Filtration/Evaporation-includes concentration</i>).....	\$71.01

Sand Analyses (*includes concentration and sand fine break*)

Prices below include a base set-up fee of \$77.85

V.A. (Visual Accumulation Tube) or Wet Sieve Method (Grains Only).....	\$144.35
--	----------

Fine Material Analyses (*5pt. fine sizes-includes concentration and sand fine break*)

Prices below include a base set-up fee of \$77.85

One Point Pipet: 0.004mm.....	\$117.46
Two Point Pipet: 0.0625mm, 0.25mm	\$161.95
Three Point Pipet: 0.002mm, 0.004mm, 0.016m	\$201.54
Four Point Pipet: 0.002mm, 0.004mm, 0.008mm, 0.016mm.....	\$241.15
Full Size (<i>five-point pipet, concentration, and grain analysis</i>).....	\$280.66
Fines Only:	\$220.82

Bed Material and Bedload Analyses

Prices below include a base set-up fee of \$108.76

Sand Analyses (*includes sand fine break*)

Bed Material/Bed Load Dry Sieve (<i>grains only</i>).....	\$175.41
Bed Material/Bed Load Sand Fine Break.....	\$149.79

Fine Material Analyses

One Point Pipet: 0.004mm.....	\$149.79
Two Point Pipet: 0.0625mm, 0.25mm	\$190.68
Three Point Pipet: 0.002mm, 0.004mm, 0.016m	\$231.63
Four Point Pipet: 0.002mm, 0.004mm, 0.008mm, 0.016mm.....	\$272.51
Full Size (<i>Dry Sieve, five-point pipet, and grain analysis</i>)	\$313.40

Laser Diffraction Analyses

Prices below include a base set-up fee of \$108.76

Whole sample (*includes sand fine break*)

Suspended or Bed load/material	\$150.58
--------------------------------------	----------

Fine Material Analyses

Full Size (<i>Wet Sieve, five-point pipet, and grain analysis</i>)	\$221.60
Sand-Fine/Fines	\$183.58

Additional Charges and Analysis

Composite Bottles.....	\$16.71
Dissolved Solids (<i>add-on</i>)	\$39.19
Hydrogen Peroxide/Algae removal (<i>add-on per sample, for heavy organic/algae samples</i>).....	\$7.65
Loss on Ignition (<i>price per reporting level</i>).....	\$32.20
Non-Standard Containers (<i>each container</i>).....	\$34.13
Un-Tared Bottle.....	\$12.28
Metal Free Washing Fee (<i>each container</i>)	\$41.52
Bottle Wash Fee (<i>applied to bottles with extensive staining</i>).....	\$12.28
Suspended Heavy fine material (<i>per sample</i>).....	\$48.19
Bed Heavy fine material (<i>per sample</i>)	\$155.81
Bed Material or Bedload Samples (<i>requiring multiple splits to run, fee per additional hour</i>)	\$57.28
Bulk Density	\$68.18
Water Potential Set-Up Fee	\$76.71
Water Potential (<i>per sample</i>).....	\$17.91
Soil Moisture Set-Up Fee.....	\$38.55
Soil Moisture (<i>per sample</i>).....	\$17.91

Prices listed above are for standard analyses. Charges for samples requesting special handling or procedures, including rush samples, will be determined on a case by case with pre-approval of the lab chief. Shipping/handling of bottles and containers will be charged to the originating Cost Center's FedEx ground account.

*** Prices are effective October 1, 2024 through September 30, 2025 and are subject to change.
