

EMBARGOED FOR RELEASE:

Wednesday, September 4 at 5:00 a.m.

OVERVIEW

The study was conducted for CNN by SSRS with representative samples of registered voters in Arizona (n=682), Georgia (n=617), Michigan (n=708), Nevada (n=626), Pennsylvania (n=789), and Wisconsin (n=976). SSRS is an independent research company. Surveys were obtained online and by telephone from **August 23-August 29, 2024**. More information about SSRS can be obtained by visiting www.ssrs.com.

Unless otherwise noted, results are reported below for likely voters. Results for each state have the following margins of sampling error at the 95% confidence level and design effects:

| | Registered Voters | | Likely Voters | |
|--------------|-------------------|---------------|---------------|---------------|
| | Error Margin | Design Effect | Error Margin | Design Effect |
| Arizona | +/- 4.8% pts. | 1.61 | +/- 4.7% pts. | 1.59 |
| Georgia | +/- 4.7% pts. | 1.41 | +/- 4.7% pts. | 1.43 |
| Michigan | +/- 4.8% pts. | 1.73 | +/- 4.9% pts. | 1.75 |
| Nevada | +/- 4.9% pts. | 1.56 | +/- 4.9% pts. | 1.55 |
| Pennsylvania | +/- 4.7% pts. | 1.82 | +/- 4.7% pts. | 1.82 |
| Wisconsin | +/- 4.5% pts. | 2.10 | +/- 4.4% pts. | 1.99 |

NOTE ABOUT RESULTS

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of registered voters in each state. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

V9. How motivated, if at all, would you say you are to vote in this year’s election for president? **[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

| Registered voters | Extremely motivated | Very motivated | Somewhat motivated | Not too motivated | Not at all motivated | No opinion |
|-------------------|---------------------|----------------|--------------------|-------------------|----------------------|------------|
| Arizona | 67% | 15% | 12% | 3% | 2% | 0% |
| Georgia | 66% | 16% | 11% | 4% | 3% | 0% |
| Michigan | 65% | 18% | 9% | 5% | 5% | 0% |
| Nevada | 67% | 15% | 11% | 4% | 2% | 0% |
| Pennsylvania | 69% | 14% | 9% | 4% | 3% | 0% |
| Wisconsin | 73% | 16% | 6% | 4% | 1% | 0% |

P4. Suppose that the presidential election were being held today and you had to choose between Kamala Harris and Tim Walz as the Democratic Party's candidates, Donald Trump and JD Vance as the Republican Party's candidates, Robert F. Kennedy, Jr. and Nicole Shanahan, as independent candidates, Cornel West and Melina Abdullah, as independent candidates, Jill Stein and Butch Mare, the Green Party’s candidates and Chase Oliver and Mike ter Maat, the Libertarian candidates. Who would you be most likely to vote for?

P4a. If the presidential election were being held today and you had to choose between Kamala Harris and Tim Walz as the Democratic Party's candidates, Donald Trump and JD Vance as the Republican Party's candidates, Robert F. Kennedy, Jr. and Nicole Shanahan, as independent candidates, Cornel West and Melina Abdullah, as independent candidates, Jill Stein and Butch Ware, the Green Party’s candidates and Chase Oliver and Mike ter Maat, the Libertarian candidates, as of today, do you lean most toward: **[ITEMS ASKED IN RANDOM ORDER; CANDIDATES LISTED AS NA BELOW WERE NOT ASKED IN THE INDICATED STATE]**

P4/P4a COMBO TABLE: LIKELY VOTERS

| | Kamala Harris and Tim Walz | Donald Trump and JD Vance | Robert F. Kennedy, Jr. and Nicole Shanahan | Cornel West and Melina Abdullah | Jill Stein and Butch Ware | Chase Oliver and Mike ter Maat | Other | Do not plan to vote | None of these candidates | No opinion |
|--------------|----------------------------|---------------------------|--|---------------------------------|---------------------------|--------------------------------|-------|---------------------|--------------------------|------------|
| Arizona | 44% | 49% | NA | NA | 2% | 1% | 3% | 1% | NA | * |
| Georgia | 48% | 47% | NA | 1% | 1% | 1% | 2% | * | NA | * |
| Michigan | 48% | 43% | 4% | NA | * | 1% | 3% | 1% | NA | 0% |
| Nevada | 48% | 47% | NA | NA | 1% | 1% | 1% | * | 1% | 0% |

| Wisconsin | 44% | 54% | 1% | 1% |

MORE ON METHODOLOGY

A total of n=4,398 registered voters in Arizona, Georgia, Nevada, Michigan, Pennsylvania, and Wisconsin were surveyed online and by telephone from a registration-based sample purchased by SSRS from L2. The Arizona and Nevada samples included an oversample of voters modeled as likely Hispanic on the voter file. The Georgia, Michigan, and Pennsylvania samples included an oversample of voters modeled as likely African American on the voter file. All oversampled groups were weighted to their correct share of the registered voter population.

Sampled voters were invited to participate in the study through multiple contact methods, including a mailed postcard, SMS (text-message) invitation in collaboration with Survey160 to sample who had a cell phone number on file, email invitations to those with an email address on file, and multiple telephone call attempts to voters with a telephone number on file. Upon receipt of the postcard, sampled voters could complete the survey online (including by scanning a QR code on mobile devices) or by calling a toll-free number. All respondents were screened for age, voter registration status, and state of voter registration prior to administering the survey. Respondents who said they were under 18, not registered to vote, or not registered to vote in the state on file were excluded from the survey. Those who did not confirm they were the named person on the voter file were also excluded from analysis. Surveys were conducted in English and Spanish.

All respondents were asked questions concerning basic demographics. The entire sample was weighted to reflect Census figures for the state's registered voters for education and race/ethnicity. The sample was also weighed to parameters from the L2 voter file for gender, age, party registration (Arizona, Nevada, and Pennsylvania) or modeled party affiliation (Georgia, Michigan, Wisconsin), 2020 general election turnout by mode of voting, 2022 general election turnout, and National Election Pool (NEP) region. The Arizona and Nevada samples were also weighted to parameters from the L2 voter file for the cross of ethnicity (Hispanic, all others) by age, gender, and party. The Georgia, Michigan, and Pennsylvania samples were also weighted to parameters from the L2 voter file for the cross of race (African American, all others) by age, gender, and party. Finally, the samples for each state were weighted among validated 2020 voters for recalled 2020 vote within NEP regions. The benchmark for recalled 2020 vote was taken from county-level National Election Pool (NEP) presidential election results provided by CNN.

Results for likely voters include all registered voters interviewed for the poll weighted by their predicted probability of voting in the 2024 general election. This likely voter weight was created for each state by multiplying the registered voter weight by the modeled probability of voting in the 2024 general election. The probability of voting was calculated as 0.75 times a voter file score plus 0.25 times a self-report score. The voter file score was assigned using a model built on the L2 voter file that included past turnout history and demographic variables as predictors. The self-report score was assigned using a model built on prior CNN-SSRS polls that included the self-reported likelihood of voting and motivation to vote as predictors.

Surveys were conducted among a representative sample of the adult registered voters, age 18 or older, in Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

MORE ON METHODOLOGY (CONTINUED)***Arizona***

Results for the Arizona sample have a margin of sampling error of +/- **4.8** percentage points. Results for likely Arizona voters have a margin of sampling error of +/- **4.7** percentage points. Among the Arizona sample, **30%** described themselves as Democrats, **34%** described themselves as Republicans, and **37%** described themselves as independents or members of another party.

Georgia

Results for the Georgia sample have a margin of sampling error of +/- **4.7** percentage points. Results for likely Georgia voters have a margin of sampling error of +/- **4.7** percentage points. Among the Georgia sample, **36%** described themselves as Democrats, **28%** described themselves as Republicans, and **35%** described themselves as independents or members of another party.

Michigan

Results for the Michigan sample have a margin of sampling error of +/- **4.8** percentage points. Results for likely Michigan voters have a margin of sampling error of +/- **4.9** percentage points. Among the Michigan sample, **35%** described themselves as Democrats, **31%** described themselves as Republicans, and **35%** described themselves as independents or members of another party.

Nevada

Results for the Nevada sample have a margin of sampling error of +/- **4.9** percentage points. Results for likely Nevada voters have a margin of sampling error of +/- **4.9** percentage points. Among the Nevada sample, **29%** described themselves as Democrats, **31%** described themselves as Republicans, and **40%** described themselves as independents or members of another party.

Pennsylvania

Results for the Pennsylvania sample have a margin of sampling error of +/- **4.7** percentage points. Results for likely Pennsylvania voters have a margin of sampling error of +/- **4.7** percentage points. Among the Pennsylvania sample, **37%** described themselves as Democrats, **37%** described themselves as Republicans, and **26%** described themselves as independents or members of another party.

Wisconsin

Results for the Wisconsin sample have a margin of sampling error of +/- **4.5** percentage points. Results for likely Wisconsin voters have a margin of sampling error of +/- **4.4** percentage points. Among the Wisconsin sample, **34%** described themselves as Democrats, **32%** described themselves as Republicans, and **34%** described themselves as independents or members of another party.
