# Flock Safety Condor™

## PROBLEM

According to a report by Forbes, **property crime occurs every 4.4 seconds in the United States**, highlighting the high rate of such incidents. HOA board members, property managers, and community members often face issues like mail theft, vehicle theft, illegal dumping, and vandalism, and desire a comprehensive security system to deter and solve these crimes.

## SOLUTION

**Flock Safety Condor™ offers residential neighborhoods live and recorded video, while Flock Safety Sparrow® provides license plate recognition.** Together, they equip law enforcement with actionable evidence and situational awareness for quick, efficient crime response. According to the Department of Justice, **the certainty of being caught is a stronger deterrent than punishment, making these tools effective in reducing crime and making communities safer.**

1

### PROACTIVELY DETER CRIME WITH LIVE AND RECORDED VIDEO

**Pairing the Flock Safety Condor™ with the Flock Safety Sparrow® LPR camera enhances evidence collection, helping solve crimes faster.** The video provides officers with valuable situational awareness when responding to incidents. The LPR camera captures objective evidence and vehicle data to identify potential suspects. With an MOU or agreement in place, **officers receive alerts when known offenders enter your area.**

2

### HASSLE FREE AND AFFORDABLE SECURITY SOLUTION

Our technology runs on **solar power and LTE for easy installation almost anywhere on your property, with no additional utility bills or WiFi integration.** Combining Flock Safety Condor™ and Flock Safety Sparrow® is a **comprehensive security solution with a significantly lower investment** compared to hiring a security guard or installing a gate.

3

### RESPOND WITH CONFIDENCE

**Remotely view live on-scene video with PTZ controls and 25x optical zoom to increase situational awareness.** Or, review footage after an incident occurs to find evidence connected to a potential crime.
