PROCEEDINGS AND DEBATES OF THE 118th CONGRESS, SECOND SESSION

Vol. 170

WASHINGTON, TUESDAY, MARCH 5, 2024

No. 39

House of Representatives

The House met at noon and was called to order by the Speaker pro tempore (Ms. TENNEY).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
March 5, 2024.

I hereby appoint the Honorable CLAUDIA TENNEY to act as Speaker pro tempore on this day.

MIKE JOHNSON,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 9, 2024, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 1:50 p.m.

RECOGNIZING THE 52ND ANNUAL THON

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise today to honor and thank, and express my sincere gratitude for, an incredible group of students at Penn State University.

This group of students has spent the last year dedicating countless hours to support a fantastic cause benefiting pediatric cancer patients.

THON is a yearlong fundraising effort that culminates in an annual 46-hour dance marathon to support, financially and emotionally, more than 4,500 families with children who are battling cancer.

On February 16, Penn State students, staff, families, friends, volunteers, and spectators filled the Bryce Jordan Center for the 52nd annual THON to raise money for the Four Diamonds foundation.

THON was founded in 1973 by Penn State fraternities and sororities. What began as a small fundraiser, bringing in \$2,000 in its inaugural year, flourished into a campus-wide effort with more than 16,000 student volunteers across the Commonwealth of Pennsylvania.

In 1977, THON partnered with the Four Diamonds foundation. Since then, not a single Four Diamonds family has received a medical bill, thanks to the tireless work and dedication of Penn State students.

The Four Diamonds foundation was founded by Charles and Irma Millard in 1972 after their son, Christopher, lost his battle with cancer at 11 years old.

Before Christopher passed away, he wrote a story about a great knight who sought four diamonds of courage, wisdom, honesty, and strength to be saved from an evil sorceress. His parents realized these four qualities were all necessary to overcome cancer. They created the Four Diamonds foundation in his memory.

Over the past 50 years, THON has grown into the largest student-run philanthropy in the world. Students stood from 6 p.m. on Friday, February 16, until 4 p.m. on Sunday, February 18. It was an impressive feat to behold.

What is even more incredible is the drive, fortitude, and flexibility these students showed in their commitment to this cause.

This year, Penn State students raised a record-breaking \$16,955,683.63. This surpasses THON's 2023 record-breaking

total by nearly \$2 million. To date, students have shattered records and raised more than \$200 million.

Of course, their dedication is to be applauded, but ask any Penn State student, and they will agree: THON isn't about them. It is about the children and families fighting cancer.

THON is for the kids, and it is for families to focus on celebrating more birthdays, piano recitals, science fairs, graduations, and every other milestone a child should celebrate without fear. THON exists so one day, parents don't have to hear the words: "Your child has cancer."

Madam Speaker, I am proud of these students, but more importantly, I am proud of the children and families who have the courage to fight back against pediatric cancer.

Once again, I congratulate everyone involved in this year's THON. We Are.

SAVING SOCIAL SECURITY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Connecticut (Mr. LARSON) for 5 minutes.

Mr. LARSON of Connecticut. Madam Speaker, I rise today to speak about the Nation's number one insurance program, Social Security.

It has been that way since Franklin Delano Roosevelt first introduced it. It continues to be the number one anti-poverty program for the elderly and, frankly, Madam Speaker, the number one antipoverty program for children.

Yet, Congress has been derelict in its duty. There has not been a vote to enhance Social Security since 1971. Richard Nixon was President of the United States.

As we speak today, there are close to 70 million Americans who rely on Social Security. Of those 70 million, it is important to understand that 10,000 baby boomers a day become eligible for Social Security.

This symbol represents the time of day during the House proceedings, e.g., 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

H783

More than 5 million of our fellow Americans have worked and paid into a system and get below poverty-level checks from their government, the wealthiest in the world, with the Nation's number one antipoverty program that this body has not acted on in more than 50 years.

It is long overdue that we take the initiative and have a vote in the United States Congress that will help the American people.

Social Security is bedrock. Whether you are a Democrat, Republican, or Independent, you understand this.

Now, our colleagues on the other side have put forward something they call a study commission. We don't need to study Social Security. We know what needs to be done.

To have a study that goes behind closed doors and has an up-or-down vote that is unamendable, with no input from this body, is absurd, anti-democratic, and anti-elderly and -children from the standpoint of the havoc that it would wreak on this system.

The idea that they are doing this to save Social Security is a fallacy. They are doing it so they can go behind closed doors and cut the very program that sustains so many Americans. For more than 40 percent of all Americans who are on Social Security, this is the only pension benefit that they will have.

Madam Speaker, you know as well as I that it is not only a pension benefit. It is a disability benefit, as well as taking care of spouses and children.

Imagine, for our viewers in the audience, Congress has not taken a vote in more than 50 years for the Nation's number one antipoverty program.

It is long overdue that we not study this but do what we are elected to do by the public and actually vote.

If you have a better idea, put it out there, but we believe this, as well. I commend President Biden for saying, look, the way that we are going to pay for this is to lift the cap, or what is called Scrap the Cap, on people making over \$400,000.

This past month marked when millionaires have already stopped paying into the Social Security program. Bill Gates stopped paying back in January.

That is wrong. It is not right. To lift that cap will allow us not only to extend the solvency of Social Security but increase benefits across the board for its members, to make sure that WEP and GPO, which have hurt teachers and municipal employees over the years, is finally scrapped; to have in there a tax cut for more than 23 million Americans who continue to pay taxes on their Social Security; and to make sure that everyone's benefits are enhanced.

Where does that money go, Madam Speaker? The money from Social Security goes right back into every single Congressional district, and it allows those individuals in that district to sustain themselves. Nobody's going out and buying stock options with Social Security 2100.

HONORING SECRETARY BILL NORTHEY

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Iowa (Mrs. MILLER-MEEKS) for 5 minutes.

Mrs. MILLER-MEEKS. Madam Speaker, today, I am proud to recognize the passing of Secretary of Agriculture Bill Northey.

Secretary Northey's tenure as Iowa's Secretary of Agriculture left a remarkable legacy and included countless contributions to Iowa's agricultural heritage and Iowa's agricultural landscape.

Under his leadership, Iowa saw significant advancements in conservation practices, soil health initiatives, and water quality improvement efforts.

Beyond his policy achievements, Secretary Northey was known for his genuine kindness, approachability, and dedication to serving the people of Iowa.

Secretary Northey's legacy will inspire future generations to continue to his work and uphold his vision for a vibrant and prosperous Iowa.

Bill's love for Iowa and Iowa agriculture was known to all, and his dedication to our farmers and the environment will be sorely missed.

RECOGNIZING 51ST RAGBRAI

Mrs. MILLER-MEEKS. Madam Speaker, today, I am thrilled to share exciting details about the upcoming 2024 Register's Annual Great Bicycle Ride Across Iowa, also known as RAGBRAI.

Earlier this year, it was announced that the route of the 51st edition of this renowned bicycle ride will cross southern Iowa towns for the first time in 5 years. The route will extend 424 miles from Glenwood to Burlington, Iowa. At the end of the ride, cyclists can take on the challenge and power their way up Snake Alley.

The ride will take place this summer from July 21 to July 27, and I look forward to cheering on everyone who will participate in this upcoming adventure.

CONGRATULATING ANDREW MARTINO

Mrs. MILLER-MEEKS. Madam Speaker, I wish my nephew, Andrew Martino, a blessed confirmation.

Congratulations, Andrew, on this milestone.

RECOGNIZING CAITLIN CLARK

Mrs. MILLER-MEEKS. Madam Speaker, I have introduced this resolution with the entire Iowa delegation. This resolution congratulates Iowa native Caitlin Clark on becoming the National Collegiate Athletic Association's Division 1 basketball leading scorer.

Whereas, on March 3, 2024, during a baseball game between the University of Iowa Hawkeyes and the Ohio State University Buckeyes, Caitlin Clark, referred to in this preamble as Clark, became the National Collegiate Athletic Association, referred to in this preamble as NCAA, Division 1 basketball all-time leading scorer;

Whereas, because of Clark and the University of Iowa Hawkeyes women's basketball team, referred to in this preamble as the Hawkeyes, women's sports are being covered and talked about at the national level in the United States with the same fervor as men's sports;

Whereas, the Hawkeyes have sold out games at home at the Carver-Hawkeye Arena and on the road in arenas across the United States;

Whereas, every sold-out game is full of young girls watching Clark and the Hawkeyes demonstrate the excitement, competition, and fun that is possible because of women's sports;

Whereas, women's sports serve as an important way for young girls to develop discipline, teamwork, confidence, and leadership skills, and the achievements of female athletes should be celebrated;

Whereas, Clark serves as a role model, demonstrating that dreams are achievable with hard work and dedication;

Whereas, Iowans are proud of Clark and thankful for the opportunity to watch Clark, one of the greatest athletes to ever play basketball, compete for the Hawkeyes;

Now, therefore, be it resolved that the House of Representatives congratulates Caitlin Clark on becoming the National Collegiate Athletic Association Division 1 basketball all-time leading scorer and respectfully requests that the Clerk of the House of Representatives transmit an enrolled copy of this resolution to Caitlin Clark; the athletic director of the University of Iowa, Beth Goetz; and the head coach of the University of Iowa Hawkeyes women's basketball team, Lisa Bluder.

Go Hawks.

HONORING MARIE RIDDER

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. BEYER) for 5 minutes.

Mr. BEYER. Madam Speaker, I rise this afternoon to honor the lifetime contributions of Marie Ridder to Virginia and to our Nation.

Marie, a distinguished journalist and one of the most passionate conservationists I have ever known, celebrated her 99th birthday just a few weeks ago. I believe her children have finally gotten her to agree to stop driving herself to every one of her many engagements.

Marie Ridder began her career as a journalist by covering the reconstruction of post-World War II Europe for the Philadelphia Bulletin. Over the years, she wrote for The Washington Post, The Boston Globe, and for Knight Ridder publications.

Not just a writer, Marie edited Vogue, Glamour, Mademoiselle, and also Conde Nast magazines.

I became close with Marie when she hosted my first political event more

than 36 years ago. When everyone else was skeptical, including my own family, she believed in me.

Marie is passionate about saving our landscapes and our environment. She has been the champion of the Piedmont Environmental Council for decades. She has served on the boards of the League of Conservation Voters and the Trust for Public Land.

She is also a master gardener. While working in her garden high above the Potomac River, she was bitten by a copperhead a few years ago and rushed to Sibley Memorial Hospital for the antivenom. When she was struck again by a copperhead a few years later, the emergency room doctor noted that he had only treated two snake bites in his life; both were Marie. It will come as no surprise that he was, yet again, the attending physician on her third snake bite. I do my best to avoid her garden.

Marie's public service history is both remarkable and intriguing. She was the deputy to the national director of Head Start where she also served as the direct liaison to First Lady Bird Johnson for 4 years.

Later, she led the Sasha Bruce House, a compassionate home for lost children in our Capital City, the abused, abandoned, neglected, and run-aways.

Marie has won many awards in her fight for democracy, and in 2019, I was privileged to award her the Clara Mortenson Beyer Women and Children First Award for outstanding accomplishments and contributions to empowering women.

On a recent visit to her McLean home, we were regaled with the most recent bow and arrow and deer story in her garden—that same cursed garden. It was in season, of course.

Megan and I are most fortunate to count Marie Ridder as our beloved friend. Our America is the long beneficiary of her creativity, her energy, and her tireless commitment to others.

When you earn her trust, Marie will even tell you about her date with John F. Kennedy.

ARE YOU BETTER OFF TODAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. ROSE) for 5 minutes.

Mr. ROSE. Madam Speaker, in the final week of the 1980 Presidential campaign, former President Ronald Reagan posed an important question to voters: "Are you better off today than you were 4 years ago?" We don't have to wait until November to answer that same question today. The answer lies right outside this building.

If you are not sure whether you are better off than you were 4 years ago, consider that last year, Washington, D.C., saw 274 homicides. That is the highest number in almost 30 years.

Homicides are up 23 percent from 2019 in Chicago. In New York City, homicides are up 23 percent from 2019. Felony assault is up 35 percent. Car thefts

have almost tripled. A record 5,363 NYPD officers were injured on the job last year. In major cities across this country, organized retail theft has claimed more than \$112 billion in property, up from just \$94 billion in 2021.

There are two reasons for this, Madam Speaker: bad policy and bad messaging.

House Republicans are committed to restoring law and order and opposing all efforts to defund the police and cracking down on rogue prosecutors who refuse to hold criminals accountable.

We passed into law a bill to stop the D.C. Council's dangerous plan to change the criminal code. It would have ended mandatory minimums for many offenses and reduced maximum penalties for burglary, carjacking, and robbery.

According to a recent article from The Washington Post, the D.C. Council is finally starting to reverse its position on these radical, progressive criminal reforms that it has been considering. It turns out that advocating for criminals isn't the best approach to stopping crime.

D.C. lawmakers are also starting to see the damage caused by catch and release. If things keep moving in this direction, we might even begin to see those accused of violent personal crimes remain behind bars while they await trial.

Last year, this city also experienced the worst officer shortage it has seen in 50 years. This is a direct result of the defund the police movement. It was more than a ridiculous slogan. It was a dangerous slogan that, unfortunately, garnered some traction around the country. It has become a cynical rallying cry, and I believe it is the reason law enforcement agencies across the country are having difficulty filling open positions.

Another reason is, frankly, it is a more dangerous job today than it was a few short years ago. Last year, 378 officers were shot. Madam Speaker, 46 of them lost their lives. That is up 20 percent from 2020.

So, no, we are not better off than we were 4 years ago, Madam Speaker. In fact, those who live and visit our Nation's Capital are not better off than they were just 2 years ago.

House Republicans are proud to stand with the men and women who keep our communities safe. We are also committed to taking on the extreme policies of the Biden administration, including bail reform and our wide-open southern border.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 2 p.m. today.

Accordingly (at 12 o'clock and 21 minutes p.m.), the House stood in recess.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. ZINKE) at 2 p.m.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Guard both our hearts and our mouths today, O God. Let no thought enter our hearts that may hinder our closeness with You, nor let any word come from our mouths that is not meant for Your hearing. But set a guard over our mouths; keep watch over the door of our lips.

Do not let any unwholesome talk leave our mouths, but only that which is helpful to the value of the institution and the benefit of the people we have been called to serve.

Show us how to speak in such a way that edifies the conversation. Despite our differences, may we vow to benefit those with whom we dialogue.

Inspire us to energize and not jeopardize discussion, to invigorate and not denigrate our interlocutors. May we cultivate dignity and demonstrate respect for all with whom we engage this day.

Encourage us to build one another up, according to their needs, that we may succeed in strengthening the body and repairing the divisions that weaken our purpose to do good works in our service to You and to this country.

O God, our guardian, guide, and stay, abide with us this day, and grant us the blessing of Your divine guidance.

In Your sovereign name we pray.
Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House the approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER pro tempore. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Pennsylvania (Mr.

THOMPSON) come forward and lead the House in the Pledge of Allegiance.

Mr. THOMPSON of Pennsylvania led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNIZING ROBERT DAVID LAUGHLIN

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to recognize Robert David Laughlin of Boalsburg in Centre County, Pennsylvania.

A lifelong central Pennsylvanian, Robert was born on March 9, 1924, in Altoona, and will be celebrating his 100th birthday this coming Saturday.

At 18, he enlisted in the United States Navy and was selected for officer training. He received his commission at the U.S. Naval Academy under an accelerated program for wartime midshipmen. At that time, he was one of the youngest commissioned officers in the fleet.

He served during World War II in the Pacific region as radar officer aboard the USS *Pittsburgh* and later aboard the USS *Pasadena*.

A Penn State graduate, Robert spent his career as a physicist studying electro-optical research for early airborne reconnaissance platforms and holds several U.S. patents. He later served as science adviser to the Governor of Pennsylvania under three administrations.

Most notably, he helped coordinate the initial State government response to the Three Mile Island accident in 1979.

Today, Robert is actively working on computer repairs, studying quantum physics, and spending time with his 8 grandkids and 10 great-grandchildren.

Mr. Speaker, I wish Robert a happy birthday.

WORLD STAGE WEAKNESS

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Mr. Speaker, before President Biden took office, there was no war in Ukraine, Israel had not suffered a brutal attack from Iran-backed Hamas terrorists, and America was respected on the world stage.

Now, 3 years into the Biden administration, a message has been sent far and wide to our enemies and adversaries around the world: America's leadership is weak. Whether it was the botched Afghanistan withdrawal, the appeasement of Iran, or the delay and downright refusal to stand up to Moscow, the world has been plunged into chaos.

Now, we must deal with the consequences. Military servicemembers'

lives are at risk, Mr. Speaker. Our enemies are emboldened more than ever. That is why House Republicans are pursuing policies that counter China, promote peace through strength, and support our troops and allies to deter increasing global threats.

We are committed to the security of the United States of America.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 2 o'clock and 6 minutes p.m.), the House stood in recess.

□ 1500

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. WEBER of Texas) at 3 p.m.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Ms. Avery M. Stringer, one of his secretaries.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or votes objected to under clause 6 of rule XX.

The House will resume proceedings on postponed questions at a later time.

SECURING THE CITIES IMPROVEMENT ACT

Mr. GREEN of Tennessee. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4403) to amend the Homeland Security Act of 2002 to make improvements to the Securing the Cities program, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4403

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Securing the Cities Improvement Act".

SEC. 2. STC PROGRAM ELIGIBILITY, METRICS, AND CONGRESSIONAL OVERSIGHT.

Section 1928 of the Homeland Security Act of 2002 (6 U.S.C. 596b) is amended—

(1) in subsection (a), by striking "high-risk urban areas" and inserting "jurisdictions designated under subsection (c)";

(2) by amending paragraph (7) of subsection (b) to read as follows:

"(7) establish performance metrics and milestones for the STC program, monitor expenditures for the program, and track the performance against program metrics and milestones; and";

(3) in subsection (c)(1), by striking "from among high-risk urban areas under section 2003" and inserting "based on the capability and capacity of the jurisdiction relating to preparedness and response, as well as the relative threat to such jurisdiction, vulnerability of such jurisdiction, and consequences for such jurisdiction, regarding terrorist attacks and other high-consequence events utilizing nuclear or other radiological materials"; and

(4) by amending subsection (d) to read as follows:

"(d) REPORT.—Not later than two years after the date of the enactment of this subsection, the Secretary shall submit to the Committee on Homeland Security of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate a report regarding participation in the STC program, the establishment of metrics and milestones for the STC program, performance against such metrics and milestones, and plans for any changes to the STC program."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GREEN) and the gentleman from Louisiana (Mr. CARTER) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GREEN of Tennessee. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on H.R. 4403.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4403. Since 2007, DHS has operated the Securing the Cities program to help cities prepare for and respond to nuclear or radiological threats.

H.R. 4403, the Securing the Cities Improvement Act will remove the requirement for a jurisdiction to be designated as a high-risk urban area by FEMA, diminishing the uncertainty for cities to be removed from the STC program.

Additionally, this legislation will provide transparency by requiring the department to establish performance metrics and milestones for the STC program to track its performance and monitor its expenditures.

Mr. Speaker, I thank Congressman CARTER for his work on this. I urge my colleagues to support H.R. 4430, and I reserve the balance of my time.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased that we are here today to consider my bill, H.R. 4403, the Securing the Cities Improvement Act.

My bill will help cities build and maintain their security capabilities against nuclear or radiological threats.

While I will emphasize the critical nature of my bill, its effectiveness

hinges upon the reauthorization of the DHS Office of Countering Weapons of Mass Destruction, CWMD.

Without CWMD, the Securing the Cities program will cease to operate. Securing the Cities, also called STC, was launched by the Department of Homeland Security in fiscal year 2007 as a pilot program to support New York City, Jersey City, and Newark, New Jersey, in detecting and preventing nuclear or radiological threats.

Today, the STC program provides 14 local governments, including my hometown of New Orleans, with detection equipment, training, exercise support, operational and technical support, subject matter expertise, and programmatic support.

STC's work in New Orleans has supported important events such as Mardi Gras, which is a very special and joyous time in my hometown. As you know, we will have the Super Bowl next year. This will have a critical impact on its safety and delivering joy to the people of our country and our world.

However, STC is limited to high-risk urban areas designated by the Federal Emergency Management Agency under the Urban Area Security Initiative, or UASI, program.

Linking STC and UASI together can create uncertainty for local governments participating in the program, as the composition of jurisdictions in the UASI program can fluctuate from one year to the next.

To ensure stability within the STC program and maintain partnerships with at-risk cities, I introduced the Securing the Cities Improvement Act. My legislation would allow CWMD to determine which cities to partner with for the STC program based on the jurisdiction's capability and capacity to prepare for and respond to threats of vulnerabilities against terrorist attacks and other high-consequence events utilizing nuclear or other radiological materials.

It would also establish performance metrics and milestones for the STC program and monitor expenditures for the program.

Furthermore, the legislation requires DHS to provide a report to Congress regarding participation in the STC program, the establishment of metrics and milestones for the program, and any proposed modifications for this program.

The bill is a commonsense measure, one that will ensure that our cities are protected from nuclear or radiological threats.

Mr. Speaker, I encourage my colleagues to join me in supporting H.R. 4403, and I reserve the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I reserve the balance of my time.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, H.R. 4403 is important for sustaining local jurisdictions' capa-

bilities to counter chemical, biological, radiological, and nuclear threats.

Without the support of programs like STC, addressing and mitigating threats could become more difficult or cease to exist altogether, which would jeopardize the safety and well-being of every individual residing in our country.

Passage of this legislation is vital to maintaining our preparedness and ensuring the security of the Nation against the evolving challenges posed by terrorist attacks and other high-consequence events that utilize nuclear or radiological materials.

Mr. Speaker, I urge my House colleagues to support H.R. 4403, and I thank Chairman GREEN for his support in this measure.

Mr. Speaker, I yield back the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I, again, urge my colleagues to support H.R. 4403. I thank Mr. CARTER, the gentleman from Louisiana, for his excellent work on this, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GREEN) that the House suspend the rules and pass the bill, H.R. 4403.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

IMPROVING TRAVEL FOR FAMILIES ACT

Mr. GREEN of Tennessee. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5969) to direct the Secretary of Homeland Security to revise certain regulations to permit certain children to accompany their parents or legal guardians through Global Entry airport lanes, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 5969

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Improving Travel for Families Act".

SEC. 2. EXTENSION OF GLOBAL ENTRY TO CERTAIN CHILDREN.

(a) IN GENERAL.—The Secretary of Homeland Security shall revise section 235.12 of title 8, Code of Federal Regulations, to permit a child who is 10 years old or younger who is not a member of Global Entry in accordance with such section and who is traveling with such child's parent or legal guardian who is a member of Global Entry in accordance with such section to accompany such parent or legal guardian through a Global Entry lane upon arrival at an international airport in the United States.

(b) APPOINTMENTS.—The Secretary of Homeland Security shall take such actions as may be

necessary to permit a parent or legal guardian of up to four children described in subsection (a) who is applying for membership in Global Entry on behalf of such children to schedule a single appointment for an interview relating to such membership for all such children.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GREEN) and the gentleman from Louisiana (Mr. CARTER) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GREEN of Tennessee. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on H.R. 5969.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 5969, the Global Entry program, which is managed by U.S. Customs and Border Protection, grants expedited clearance for preapproved, low-risk travelers.

Millions of users are enrolled in the Global Entry program and Global Entry kiosks are deployed at many major airports throughout the United States. However, issues can arise when families are traveling with minor children who are not enrolled in the Global Entry program. Because Global Entry benefits are member specific, young children who are not enrolled in the program are not currently allowed to join their parents in the Global Entry line.

H.R. 5969 would rectify this by allowing children ages 10 and younger to join their Global Entry-enrolled parents or guardian through the Global Entry lane.

Mr. Speaker, I thank Congressman LUTTRELL for his work on this very important bill. I urge my colleagues to support H.R. 5969, and I reserve the balance of my time.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5969 aims to make Global Entry more family friendly by allowing children ages 10 or under to accompany their parents or legal guardians through Global Entry lanes when clearing customs in the United States.

We would like to see all families with young children stay together throughout the customs process, and this bill would make travel more family friendly without compromising security.

This bill also makes it possible for parents to schedule interviews for Global Entry for their kids as groups as opposed to the current format which schedules appointments separately—a logistical nightmare for parents.

Mr. Speaker, I reserve the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. LUTTRELL), the sponsor of the bill.

Mr. LUTTRELL. Mr. Speaker, I rise today to advocate for the passage of our bill, H.R. 5969, the Improving Travel for Families Act.

Global Entry has been a critical asset in expediting clearance for preapproved, low-risk travelers upon arrival in the United States. Reduced wait times and access to expedited entry into the United States are all the benefits of Global Entry membership.

Global Entry began as a small pilot program in 2008 with availability in just three airports. Today, the Global Entry program offers expedited preapproved travel clearance for millions of travelers and is available in over 60 U.S. airports.

Our bill would improve international travel for families by allowing children ages 10 and younger who are not currently enrolled in the Global Entry program to accompany their parents and guardians who are in the program in the designated precleared lanes upon arrival at international airports in the United States.

Additionally, the bill would streamline the Global Entry application process by permitting parents or guardians to schedule a single application appointment for up to four young children at a time, rather than having to book multiple individual appointments, thereby reducing the interview appointment backlog.

These small, but meaningful, advancements will be a marked improvement on the Global Entry program. Under current law, only preapproved Global Entry travelers, regardless of age, are permitted to utilize dedicated lanes and kiosks. This creates a major inconvenience for Global Entry-enrolled parents who are traveling with young children who are not currently enrolled.

Mr. Speaker, I thank Chairman GREEN, Congressman GLENN IVEY, and the members and staff of the Homeland Security Committee for working with me and my staff on this important bill.

Mr. Speaker, I urge all my colleagues to support this sensible legislative measure that will afford law-abiding Americans the opportunity to travel with their children.

Mr. CARTER of Louisiana. Mr. Speaker, I yield such time as he may consume to the gentleman from Maryland (Mr. IVEY).

Mr. IVEY. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of H.R. 5969, the Improving Travel for Families Act. I am proud to cosponsor this bipartisan legislation with my friend and Homeland Security Committee colleague from Texas, Representative MORGAN LUTTRELL.

This bill aims to make the CBP Global Entry program more friendly for family travel at our international airports by allowing children ages 10 or

under to accompany their parent or guardian through Global Entry when clearing customs in the United States.

The bill also makes it possible for parents to schedule interviews for Global Entry for their kids as a group. It will do all of this without risking the security of children, as Global Entry approval requires multiple steps, including a background check.

As a father of six, I know how difficult the logistics can be for families traveling with young children.

Mr. Speaker, I urge my colleagues to support this commonsense, bipartisan legislation that will make travel more friendly for families without compromising security.

Mr. GREEN of Tennessee. Mr. Speaker, I have no more speakers. I am prepared to close, and I reserve the balance of my time.

□ 1515

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself the balance of my time to close.

Mr. Speaker, I commend the gentleman from Texas (Mr. LUTTRELL) for introducing this bill, and I commend the gentleman from Maryland (Mr. IVEY) for cosponsoring this bill aimed at improving the travel experience for families. I believe this bill will help families traveling with young children eliminate some of the difficulties that they may experience along the way.

I am happy to support this bill, and I urge all Members of the House to do the same.

Mr. Speaker, I yield back the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself the balance of my time to close.

I again urge my colleagues to support H.R. 5969. I, of course, thank again Mr. LUTTRELL for his excellent work on the bill.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GREEN) that the House suspend the rules and pass the bill, H.R. 5969, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

ERADICATING NARCOTIC DRUGS AND FORMULATING EFFECTIVE NEW TOOLS TO ADDRESS NATIONAL YEARLY LOSSES OF LIFE ACT

Mr. GREEN of Tennessee. Mr. Speaker, I move to suspend the rules and pass the bill (S. 206) to require the Commissioner of U.S. Customs and Border Protection to regularly review and update policies and manuals related to inspections at ports of entry.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 206

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLES.

This Act may be cited as the “Eradicating Narcotic Drugs and Formulating Effective New Tools to Address National Yearly Losses of Life Act” or the “END FENTANYL Act”.

SEC. 2. ENSURING TIMELY UPDATES TO U.S. CUSTOMS AND BORDER PROTECTION FIELD MANUALS.

(a) IN GENERAL.—Not less frequently than triennially, the Commissioner of U.S. Customs and Border Protection shall review and update, as necessary, the current policies and manuals of the Office of Field Operations related to inspections at ports of entry to ensure the uniform implementation of inspection practices that will effectively respond to technological and methodological changes designed to disguise illegal activity, such as the smuggling of drugs and humans, along the border.

(b) REPORTING REQUIREMENT.—Shortly after each update required under subsection (a), the Commissioner of U.S. Customs and Border Protection shall submit a report to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Homeland Security of the House of Representatives that summarizes the policy and manual changes implemented by such update.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GREEN) and the gentleman from Louisiana (Mr. CARTER) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GREEN of Tennessee. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on S. 206.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 206. In 2019, the Government Accountability Office issued a report which determined that U.S. Customs and Border Protection did not regularly update their inspection policies at ports of entry. In some cases, policies had not been updated in 20 years and did not accurately reflect current operating conditions, presently deployed technology, or adequately address how to handle things like fentanyl.

S. 206 would require CBP to review and update policies and manuals at least once every 3 years and also provide reports to Congress on changes made by those updates. This should ensure that CBP is employing the latest and most efficient methods to stop illegal activity at the ports of entry and prevent it from entering the United States.

I thank Senator SCOTT and Congressman GUEST for their important work

on this bill. I urge my colleagues to support S. 206, and I reserve the balance of my time.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself such time as I may consume.

This bill is a commonsense step to address the fentanyl crisis and save American lives. By requiring U.S. Customs and Border Protection to incorporate and continually update uniform policies and standards for their operations at ports of entry, we can be sure our officers continually adapt and implement their inspection practices to the changing dynamics of illicit activities along U.S. borders.

It is important that we continue supporting necessary improvements for our ports of entry, where approximately 90 percent of CBP's fentanyl seizures occur.

This bill complements the unprecedented progress that the Department of Homeland Security has made in recent years to stop fentanyl from entering our communities. DHS has launched new cross-government efforts to target smugglers and put more personnel, technology, infrastructure, and resources at our border. As a result, DHS has seized more fentanyl and arrested more criminals for fentanyl-related crimes in the last 2 years than over the last previous 5 years combined.

DHS has taken serious action to thwart human trafficking and human smuggling through ports of entry. The END FENTANYL Act builds on these efforts, as well.

Mr. Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield 3 minutes to the gentleman from Mississippi (Mr. GUEST), the leader of the House companion bill to S. 206 and the vice chair of the Committee on Homeland Security.

Mr. GUEST. Mr. Speaker, I rise today in support of S. 206, the END FENTANYL Act. I am a proud sponsor of the House companion bill. I thank my friend, Senator RICK SCOTT, for leading this bipartisan effort in the United States Senate. I also thank Congressman DAVID TRONE for co-leading this legislation in the House.

This bill would require the United States Customs and Border Protection, CBP, to regularly review and update their inspection practices at ports of entry. It would also require them to respond to any new or innovative smuggling methods. This bill would require CBP to brief Congress on new inspection practices. The goal of this bill is to ensure that CBP is employing the most up-to-date methods to interdict and prevent illegal activities, such as the smuggling of deadly narcotics like fentanyl into our country.

As Chairman GREEN said, this bill was introduced in direct response to a 2019 Government Accountability Office report, which found that CBP's inspection techniques were not uniform across different ports of entry and in

some cases found that they were entirely outdated. The GAO report determined: "Because CBP has not updated many of its policies—in a few cases for almost 20 years—they do not always reflect changes in technology or processes, such as those for conducting searches and handling fentanyl."

Mr. Speaker, the END FENTANYL Act will be a valuable tool in our fight against the deadly scourge of fentanyl, which has devastated families and communities across our country. From May of 2022 to May of 2023, the U.S. suffered over 112,000 overdose deaths, with many of those deaths being attributed directly or indirectly to the use of fentanyl. Fentanyl poisoning is now the leading cause of death for Americans between the ages of 18 and 45.

As cartels continue to develop new methods to traffic these deadly drugs in the United States, this bill will ensure that CBP responds to any new smuggling techniques in a uniform manner, with the most up-to-date and effective practices.

In closing, this bill will save lives and is a first step to securing our border from those smuggling drugs into our communities. I urge my colleagues to join me in supporting S. 206.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself the balance of my time to close.

I thank the gentleman from Mississippi (Mr. GUEST) for introducing the END FENTANYL Act. It is a key step forward to ensure that we are better prepared to stop fentanyl smuggling. By regularly improving our strategies at our ports of entry, we can ensure that the Department of Homeland Security is keeping our communities safe.

Mr. Speaker, I urge all my colleagues to support this incredible measure, and I yield back the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself the balance of my time to close.

I again urge my colleagues to support S. 206. I thank Mr. GUEST for his work in assisting Senator SCOTT, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GREEN) that the House suspend the rules and pass the bill, S. 206.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. GREEN of Tennessee. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

DHS BORDER SERVICES CONTRACTS REVIEW ACT

Mr. GREEN of Tennessee. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4467) to direct the Under Secretary for Management of the Department of Homeland Security to assess contracts for covered services performed by contractor personnel along the United States land border with Mexico, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GREEN) and the gentleman from Louisiana (Mr. CARTER) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GREEN of Tennessee. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 4467.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4467. As we are all aware, the volume of migrant encounters along the U.S.-Mexico border has increased exponentially in the past few years. As such, it has been necessary for the Department of Homeland Security to secure goods and services from contractors to care for migrants taken into custody by U.S. Customs and Border Protection. These contracts have enabled our dedicated Border Patrol agents and CBP officers to remain focused on their primary mission of securing our borders. Unfortunately, in the past, DHS has had issues with respect to awarding such contracts.

H.R. 4467, the DHS Border Services Contracts Review Act, directs DHS to assess active contracts for covered services performed by contractor personnel along the U.S. land border with

Mexico and submit to Congress a report with recommendations and strategies to improve the procurement and delivery of services through such contracts.

I thank Congressman BRECHEEN for his work on this bill, and I urge my colleagues to join me in support of H.R. 4467, a very important piece of legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself such time as I may consume.

DHS spends billions of dollars on service contracts to support its various missions, including its mission to secure the southwest border. These contracts provide a wide range of services such as transportation, medical care, and facilities to house migrants.

Given both the cost and the importance of these contracts to DHS' southwest border mission, H.R. 4467, introduced by Mr. BRECHEEN, seeks to improve DHS' procurement of contractor services used along the southwest border.

The bill requires DHS to identify service contracts valued at more than \$50 million used along the southwest border and to assess whether those contracts are necessary to assist DHS in carrying out its mission.

The bill also calls upon DHS to identify areas to improve efficiency and cost-effectiveness in its use of service contracts along the southwest border and to develop a strategy and implementation plan to carry out such improvements.

Finally, the bill also requires DHS to share its assessments, strategy, and plans with Congress both through a report and in standing briefings.

H.R. 4467 had bipartisan support both in this Congress and last, passing through the committee by voice vote.

Mr. Speaker, I urge my colleagues to support this important measure, and I reserve the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield 5 minutes to the gentleman from Oklahoma (Mr. BRECHEEN), the sponsor of this bill.

Mr. BRECHEEN. Mr. Speaker, I rise in support of the DHS Border Services Contracts Review Act, H.R. 4467.

It goes without saying that the Border Patrol is overwhelmed when handling hundreds of thousands of illegal aliens coming across our southern border, and our national debt is increasing by nearly \$1 trillion every 100 days. Congress must provide the oversight necessary and do everything in its power to simultaneously assist Border Patrol and also cut back on inefficient spending.

Federal contractors have a role within DHS when the Federal Government cannot meet the requirements necessary to carry out its mission. In the last decade, DHS has increasingly relied on service contracts to carry out these operations. According to the Government Accountability Office,

DHS' contracted services have increased by 40 percent between fiscal years 2013 and 2018, obligating nearly \$70 billion in contracts over that 5-year window.

In May of 2020, the GAO conducted a study on DHS service contracts that the Department uses for assistance. They examined eight DHS contracts and found that three-quarters of those contractors were never given any guidance by DHS on actions that are inherently under the jurisdiction of the Federal Government. GAO also reported that DHS has no consistent plan for contract oversight necessary to prevent overlapping work with contractors. This lack of guidance and potential overlap in functions highlights a glaring need for this report, especially considering the financial dilemma that we find ourselves in today.

To combat this potential problem, H.R. 4467 directs the Department of Homeland Security Under Secretary for Management to assess contracts above \$50 million for covered services performed by contractor personnel along the U.S. border with Mexico to minimize overlap and cut inefficiencies.

This legislation requires the USM to report to Congress on active contracts, recommendations on how they can better be used to increase efficiency, and the criteria used to determine when contractor personnel is necessary for DHS to carry out its mission.

If enacted, this bill would provide needed clarity and oversight on which service contracts are helping DHS at the border and where there is room for improved efficiencies.

To ensure that taxpayer dollars are used responsibly, it includes a provision that prohibits the Department from requesting additional funding to carry out this legislation. I will reiterate that: Section 2(c) specifies that this legislation will not cost a dime.

I thank Chairman GREEN and the committee staff, and I urge all Members to support this commonsense legislation.

□ 1530

Mr. CARTER of Louisiana. Mr. Speaker, I have no more speakers, and I yield myself the balance of my time.

Mr. Speaker, I commend my colleague from Oklahoma (Mr. BRECHEEN) for introducing this bill aimed at improving DHS' procurement of contracted services used along the southern border.

Mr. Speaker, I urge my colleagues to support H.R. 4467, and I yield back the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I urge my colleagues to support H.R. 4467, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GREEN) that the House suspend the

rules and pass the bill, HR. 4467, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

DHS BIODETECTION IMPROVEMENT ACT

Mr. GREEN of Tennessee. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6174) to improve the biodefense functions of the Department of Homeland Security, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6174

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “DHS Biodefense Improvement Act”.

SEC. 2. DHS UTILIZATION OF DEPARTMENT OF ENERGY NATIONAL LABORATORIES AND SITES FOR CERTAIN BIODETECTION RESEARCH AND DEVELOPMENT RELATING TO THE MISSIONS OF THE DHS.

(a) IN GENERAL.—The Secretary of Homeland Security shall conduct an assessment of how the Department of Homeland Security has utilized Department of Energy national laboratories and sites regarding research and development in carrying out the missions of the Department of Homeland Security, in accordance with section 309 of the Homeland Security Act of 2002 (6 U.S.C. 189).

(b) STRATEGY ON BIODETECTION RESEARCH AND DEVELOPMENT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Homeland Security shall submit to the Committee on Homeland Security of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate the assessment required under subsection (a), together with a strategy for how the Department of Homeland Security will conduct research and development in coordination with Department of Energy national laboratories and sites to address biodefense research and development of the Department of Homeland Security, including the following:

(1) Identifying biodefense technologies that can, either individually or together, meet the biodefense mission needs as outlined in Department of Homeland Security capabilities analysis and requirements documents and informed by studies produced by the Comptroller General of the United States, such as the National Re-Assessment of the BioWatch Collector Network to Increase the Fraction of Population Covered, as developed by the Countering Weapons of Mass Destruction Office of the Department in November 2021, and other such future studies as applicable.

(2) Developing an acquisition and procurement plan to acquire and provide, in accordance with Federal law, the Federal Acquisition Regulation, and Department of Homeland Security acquisition and procurement management directives, the biodefense technologies referred to in paragraph (1) to existing BioWatch jurisdictions.

(3) Conducting periodic external evaluations to identify gaps and potential failure points with respect to such biodefense technologies, and recommending contingency plans in the event such biodefense

technologies do not perform as expected or intended.

(4) Assisting, as appropriate and in partnership with Federal, State, local, and Tribal governments, institutions of higher education (as such term is defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)), and the private sector, with the development of clearly defined program and technical requirements for future Department of Homeland Security environmental biodefense programs, including any related transformational program of research and development.

(c) REPORTS TO CONGRESS.—Not later than one year after the date of the enactment of this Act, the Secretary of Homeland Security shall provide to the Committee on Homeland Security of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate an update of the assessment and strategy required under this section, including any challenges to implementing such strategy.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GREEN) and the gentleman from Louisiana (Mr. CARTER) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GREEN of Tennessee. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 6174.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 6174. The Department of Homeland Security established the BioWatch program to collect and test air samples for biological agents likely to be used in a bioterrorism attack. However, there have been ample criticisms and questions about the effectiveness of the BioWatch program.

As such, in 2019, DHS launched a new acquisition program to move into the next generation of detection of bioterrorism and to replace the BioWatch program with new and more reliable technology.

However, DHS has not used all the resources at its disposal, including the national laboratories housed within the Department of Energy.

H.R. 6174, the DHS Biodefense Improvement Act, would ensure that DHS is doing everything it can to improve biodefense research and development, including requiring DHS to explain how it plans to utilize the expertise of the Department of Energy national labs.

I thank Congressman STRONG for his work on this bill, and I hope all Members will support this legislation today.

Mr. Speaker, I urge my colleagues to support H.R. 6174, and I reserve the balance of my time.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 6174, the DHS Biodefense Improvement Act. This bill seeks to enhance biodefense capabilities at the Department of Homeland Security by leveraging resources at the Department of Energy's national laboratories.

Currently, DHS' Office of Countering Weapons of Mass Destruction, or CWMD, leads DHS' biodefense work. The premier biodefense program is BioWatch, which is outdated, expensive, and labor-intensive. CWMD's more recent efforts to advance biodefense technologies have been delayed because of this.

H.R. 6174 would move DHS' biodefense programs forward by requiring the Department to complete an assessment of how it is utilizing the Department of Energy's national laboratories for biodefense. The bill would require DHS to create the defined program and technical requirements necessary to advance biodefense programs, including critical research and development.

Further, the bill requires the Secretary of Homeland Security to provide Congress with a strategy for conducting regular external evaluations to identify capability gaps and recommend contingency plans if biodefense technologies underperform.

As foreign and domestic security threats evolve, Congress' support for advancements in biodefense programs is key.

Mr. Speaker, I encourage my colleagues to support this bill, and I reserve the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield 3 minutes to the gentleman from Alabama (Mr. STRONG), the sponsor of this bill.

Mr. STRONG. Mr. Speaker, I thank Chairman GREEN for his support, as well as that of my colleagues who join me in introducing this legislation, H.R. 6174, the DHS Biodefense Improvement Act.

Threats from America's enemies have continued to evolve and become more complex. The anthrax attack of 2001 opened our eyes to a new threat landscape that includes acts of bioterrorism. In the wake of the 2001 attacks, the Department of Homeland Security established the BioWatch program, which monitors, collects, and tests air samples for biological agents likely to be used in a terrorist attack.

This technology is vital in protecting Americans against bioweapons, and we must have full confidence that it will deliver timely, accurate, and comprehensive information to our partners that operate this system.

As a first responder myself, I know the difference that early detection makes. This becomes more vital when responding to an act of bioterrorism, which could have catastrophic consequences.

We have worked across all levels of government to improve prevention, detection, and response capabilities, but there remains work to be done.

DHS has faced continuous challenges in developing and acquiring new technologies to move toward the next generation of national biodetection. This legislation would ensure that DHS is fully leveraging every tool and resource to accomplish this goal, to include utilizing the Department of Energy's national labs to develop new technologies related to biodefense, developing a plan to acquire existing technologies that can meet the Department's biodetection mission needs, conducting external evaluations to identify gaps and potential failure points, and reporting to Congress a defined plan for the future of biodetection.

As our adversaries watch on, we cannot afford to fall behind. America's security depends on it.

I was proud to introduce this legislation, the DHS Biodetection Improvement Act, to ensure DHS is prepared to protect Americans against bioweapons.

Mr. Speaker, I urge my colleagues to support this legislation.

Mr. CARTER of Louisiana. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, while DHS has worked to improve its biodetection capabilities, many challenges remain, and the current technologies are aging.

H.R. 6174 pairs DHS and the Department of Energy's national laboratories, which would improve biodetection innovation and, ultimately, keep our communities safe from biological threats.

Mr. Speaker, I hope my colleagues will join me in supporting this critical bill, and I yield back the balance of my time.

Mr. GREEN of Tennessee. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, again, I urge my colleagues to support H.R. 6174, and I appreciate and thank Mr. STRONG for his hard work on this bill. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GREEN) that the House suspend the rules and pass the bill, H.R. 6174.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. GREEN of Tennessee. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

SEC. 3. COORDINATION OF NIH FUNDING FOR PEDIATRIC RESEARCH.

(a) SENSE OF CONGRESS.—It is the sense of the Congress that the Director of the National Institutes of Health should continue to oversee and coordinate research that is conducted or supported by the National Institutes of Health for research on pediatric cancer and other pediatric diseases and conditions, including through the Pediatric Research Initiative Fund.

(b) AVOIDING DUPLICATION.—Section 402(b)(7)(B)(ii) of the Public Health Service Act (42 U.S.C. 282(b)(7)(B)(ii)) is amended by inserting "and shall prioritize, as appropriate, such pediatric research that does not duplicate existing research activities of the National Institutes of Health" before "; and".

SEC. 4. REPORT ON PROGRESS AND INVESTMENTS IN PEDIATRIC RESEARCH.

Not later than 5 years after the date of the enactment of this Act, the Secretary of Health and Human Services shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report that—

(1) details pediatric research projects and initiatives receiving funds allocated pursuant to section 402(b)(7)(B)(ii) of the Public Health Service Act (42 U.S.C. 282(b)(7)(B)(ii)); and

(2) summarizes advancements made in pediatric research with funds allocated pursuant to such section.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. GUTHRIE) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. GUTHRIE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to

revise and extend their remarks and include extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3391, the Gabriella Miller Kids First Research Act 2.0.

In the United States, it is estimated that nearly 10,000 children under the age of 15 will be diagnosed with cancer in 2024. Major advancements over the past several decades have improved survival rates, with 85 percent of children with cancer now living until 5 years or older. However, estimates predict that, tragically, over 1,000 children will still die from cancer this year, making it the leading cause of death from disease for kids.

This legislation would ensure progress toward a better understanding of childhood cancer and structural birth defects will continue. It would also prioritize nonduplicative research and coordination on pediatric research across the National Institutes of Health.

Mr. Speaker, I urge my colleagues to support the underlying bill, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to speak in support of H.R. 3391, the Gabriella Miller Kids First Research Act 2.0.

This bipartisan legislation, sponsored by Representatives WEXTON and COLE, plays a crucial role in providing essential support for pediatric cancer and disease research.

This bill is named in honor of Gabriella Miller, a Virginia resident who was diagnosed with an inoperable brain tumor at the age of 10. Gabriella was an inspirational activist who tirelessly advocated for research into childhood diseases like cancer until her passing in October 2013.

Her strong voice and bravery turned tragedy into the original Gabriella Miller Kids First Research Act, which was signed into law in 2014. This research program at the National Institutes of Health has made progress toward understanding childhood cancer and disease.

The original law established a 10-year pediatric research initiative fund and authorized funding for childhood disease research. The law has also led to the founding of the Gabriella Miller Kids First Data Resource Center, a comprehensive data resource for research and patient communities meant to advance discoveries.

Despite this progress, cancer is the top disease-related cause of death for children and teens in the United States. It is estimated that over 9,500 American children under age 15 will be diagnosed with cancer this year.

Mr. Speaker, I thank my friend, Representative WEXTON, for her leadership

on this legislation, and I encourage all of my colleagues to vote “yes” to make a significant impact in the fight against pediatric cancer.

Mr. Speaker, I reserve the balance of my time.

□ 1545

Mr. GUTHRIE. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. BILIRAKIS), the chairman of the Consumer Protection and Commerce Subcommittee and a leader on consumer protection in this Congress.

Mr. BILIRAKIS. Mr. Speaker, I thank the gentleman for yielding. It has been great working with him all these years, and I appreciate him very much.

I rise in strong support of H.R. 3391, the Gabriella Miller Kids First Research Act 2.0. I am proud to be a co-lead on this bipartisan piece of legislation with my friend and colleague, Representative JENNIFER WEXTON, who does an outstanding job on these issues.

Again, she is retiring at the end of this Congress, and we are going to miss her. She did such wonderful work, particularly on the Parkinson’s bill, and we are going to get it across the finish line.

I am grateful for her leadership on this particular bill, as well, to reauthorize the Kids First Pediatric Research Initiative at the National Institutes of Health. Our bill will continue the critical work being done to conduct biomedical research and discover new insights into pediatric conditions such as childhood cancers.

The Kids First program has helped facilitate a better understanding of shared genetic pathways between childhood cancers, birth defects, and other pediatric conditions, and H.R. 3391 ensures that this research will continue for another 5 years.

Further, the Gabriella Miller Kids First Research Act requires coordination of all Federal efforts related to pediatric cancer research, as well as a report detailing current federally funded programs and initiatives and all advancements made thus far, and there have been several advancements.

We all agree that these scientific discoveries could help unlock the key to developing future treatments and cures for our most vulnerable patients—our kids who suffer from pediatric cancers and rare diseases.

We must continue to fight the battle against kids’ cancers, both inside and outside the Federal Government. I urge my colleagues to support our bill, the Gabriella Miller Kids First Research Act 2.0.

Ms. SCHRIER. Mr. Speaker, I yield myself the balance of my time for the purpose of closing.

Mr. Speaker, I simply would encourage all my colleagues to vote for this important bill to help cancer research, and I yield back the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I urge my colleagues to support the under-

lying bill, and I yield back the balance of my time.

Ms. WEXTON. Mr. Speaker, I rise today in support of the Gabriella Miller Kids First Research Act 2.0, which will enable the continuation of critical research of treatments and cures for childhood cancer and rare diseases.

I’m proud to carry this legislation in honor of Gabriella, who was from Virginia’s 10th Congressional District. Gabriella was diagnosed with an inoperable brain tumor and passed away in 2013 at age 10.

Gabriella was a fierce fighter not just in her own battle with cancer, but as an advocate on behalf of the millions of other children who have suffered from this terrible disease. In the months following her terminal diagnosis, Gabriella became a national force for change, urging Congress to “stop talking—start doing,” and increase funding to discover better treatments and cures.

Her heroic efforts delivered a successful push to pass the Gabriella Miller Kids First Research Act in 2014, bipartisan legislation named in her honor. The Kids First program has made remarkable progress since then—sequencing more than 55,000 genomes from over 21,000 patients in childhood cancer and structural birth defect cohorts and starting the Gabriella Miller Kids First Data Resource Center, a comprehensive data resource for research and patient communities meant to advance discoveries.

But there is still a long fight ahead to better understand, treat, and ultimately cure childhood cancer. Without action by Congress, funding for this critical program is set to expire this year. We must do better for our kids, and this bipartisan legislation would enable the critical work of the Kids First program to continue. For the Millers, and for the millions of American families who have had to go through the horror of receiving a cancer diagnosis for their child, I ask my colleagues to vote “yes” on this important legislation.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. GUTHRIE) that the House suspend the rules and pass the bill, H.R. 3391, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. GUTHRIE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

PREVENTING MATERNAL DEATHS REAUTHORIZATION ACT OF 2023

Mr. BURGESS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3838) to amend title III of the Public Health Service Act to reauthorize Federal support of States in their work to save and sustain the health of mothers during pregnancy, childbirth, and the postpartum period, to eliminate disparities in maternal health outcomes for pregnancy-related and pregnancy-associated deaths, to identify solutions to improve healthcare

quality and health outcomes for mothers, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3838

The SPEAKER pro tempore (Mr. LUTTRELL). Pursuant to the rule, the gentleman from Texas (Mr. BURGESS) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. BURGESS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BURGESS. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of my legislation, H.R. 3838, the Preventing Maternal Deaths Reauthorization Act of 2023.

During March, we celebrate National Women's History Month and honor the strong women in our lives, especially our mothers who make great sacrifices to bring life into this world.

According to the latest United States data, the maternal mortality rate rose yet again in 2021 to almost 33 deaths per 100,000 live births compared to a rate of 23 per 100,000 in 2020. While we know that over 80 percent of pregnancy-related deaths are preventable, we also understand that even one is too many.

The Preventing Maternal Deaths Reauthorization Act works to understand and reduce maternal mortalities by reauthorizing Federal support for State-led Maternal Mortality Review Committees.

Maternal Mortality Review Committees are multidisciplinary committees that review the causes of maternal deaths in their State and make recommendations based on their findings to prevent future deaths and improve maternal health outcomes during pregnancy, childbirth, and the first year afterward.

H.R. 3838 also requires the Centers for Disease Control and Prevention to work in consultation with the Health Resources and Services Administration to disseminate best practices for the prevention of maternal mortality and morbidity to hospitals and other healthcare providers.

Maternal Mortality Review Committees are vital to understanding the drivers of maternal deaths and informing effective interventions. This way we will help to ensure that resources are directed where they will have the most positive impact.

Since its initial authorization in 2018, we have already seen the work of the Maternal Mortality Review Committees make a significant difference and increasing the number of Maternal Mortality Review Committees from 32 States to 49 States, the District of Columbia, New York City, Philadelphia, and Puerto Rico.

Through their work, this body was able to discover that over 50 percent of pregnancy-related deaths happen between 1 week and 1 year after delivery, leading to the critical extension of the State plan amendment for Medicaid and Children's Health Insurance Program to 12 months for postpartum coverage.

The critical importance of this bill is furthered by the news from my home State of Texas just last week. Effective March 1 of 2024, Texas extended postpartum coverage for the full 12 months for eligible Medicaid and Children's Health Insurance Program recipients through the Texas Health and Human Services Commission. I thank Governor Greg Abbott and the Texas legislature for their continued efforts to protect and defend life, especially the lives of new mothers and newborn babies.

Today, I am joined by 740 of my fellow OB/GYNs who are on the Hill with the American College of Obstetricians and Gynecologists urging a "yes" vote on this critically important bill.

I thank my fellow Representatives, DIANA DEGETTE, BUDDY CARTER, ROBIN KELLY, KAT CAMMACK, and KATHY CASTOR for working with me on this important legislation.

Mr. Speaker, I stand in strong support of H.R. 3838. I urge my fellow Members to vote for its passage today, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Colorado (Ms. DEGETTE).

Ms. DEGETTE. Mr. Speaker, I thank the gentlewoman for yielding. As Dr. BURGESS said, we are facing a maternal health crisis in this country.

From 2018 to 2021, the overall maternal mortality rate in the United States nearly doubled. We are simply failing American women as they become mothers, and we are particularly failing Black Americans, who in 2021 were nearly three times as likely than White Americans to die becoming mothers, irrespective of education or socioeconomic status.

This is exactly the trend that the former gentlewoman from Washington (Ms. HERRERA BEUTLER) and I sought to address when we passed the original Preventing Maternal Deaths Act in 2018.

Through the programs developed by that legislation we now have a much greater knowledge of what is causing this crisis and the infrastructure we need to build further understanding and drive solutions.

Data generated by the Maternal Mortality Review Committees have provided us with the insight that 80 percent of maternal deaths are preventable. This understanding is the first step toward solutions, and we have to ensure that we not only don't lose but that we strengthen the process we have made in building, understanding, and standardizing data so that we have a clear picture across the country of why this is happening.

The Preventing Maternal Deaths Reauthorization Act will continue and bolster our support for the Maternal Mortality Review Committees. It will also ensure the timely and frequent dissemination of best practices to prevent maternal mortality.

Make no mistake, further action is needed, and this reauthorization in itself will not solve the crisis, but that further action depends on the critical insights that we can get from this legislation. It is the foundation on which the solution stands.

I am very grateful that my friend, Dr. BURGESS, has taken up the mantle on this legislation. I also thank my dear friend, KATHY CASTOR, and our ranking member here, Ms. SCHRIER, for their work on this legislation, and I urge a "yes" vote on this legislation.

Mr. BURGESS. Mr. Speaker, I yield 3 minutes to the gentleman from Georgia (Mr. CARTER).

Mr. CARTER of Georgia. Mr. Speaker, I thank the gentleman for yielding.

Before I begin, Mr. Speaker, I want to thank my colleague, the sponsor of this bill, Dr. BURGESS, for his outstanding work in healthcare, especially as a Member of this august body. For many years he has served here, and I know he is going to be retiring at the end of this year, and we are certainly going to miss his leadership, particularly in the healthcare space, and we appreciate him very much.

Mr. Speaker, I rise today in strong support of H.R. 3838, the Preventing Maternal Deaths Reauthorization Act, which I am co-leading with Dr. BURGESS.

Maternal mortality is something that I have worked on for many, many years as a member of the Georgia State legislature and now as a Member of Congress. It baffles me as to why Georgia, my home State, would be one of the leading States in the Nation in maternal mortality. I have not been able to get my arms around that and understand why that is, but it is.

Our Nation's maternal mortality crisis, which, as I say, severely impacts Georgians, is alarming and trending in the wrong direction. In fact, in Georgia, the maternal mortality rate has increased to over 30 deaths per 100,000 live births. For women of color and people living in rural communities, those numbers are much higher.

The United States is trending in the wrong direction, as well, and we need to understand why moms are dying, despite us spending \$4.4 trillion on healthcare in 2022.

As a father, as a grandfather, and a healthcare professional, I believe that we can and we must do much better. It is time for this to become a national priority, which is why I am proud to be co-leading the Preventing Maternal Deaths Act with Dr. BURGESS.

This legislation would ensure continued support for the critically important work that the State Maternal Mortality Review Committees have done in addressing the maternal mortality crisis.

State Maternal Mortality Review Committees are crucial to collecting data so that each State can form a plan to address maternal health issues impacting their community.

This bipartisan bill is an important step toward ending the maternal mortality crisis in the U.S.

We value women, we value life, and this bipartisan bill prioritizes both.

I thank Dr. BURGESS again for working with me on this important issue, and I urge my colleagues to support this legislation.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the United States faces a significant crisis with one of the highest maternal mortality and morbidity rates among developed nations.

According to the most recent data, in 2021, more than 1,200 women died as a result of pregnancy or childbirth, continuing an upward trend over nearly 20 years.

Racial disparities in maternal outcomes continue with Black and indigenous women dying at three times the rate of White women.

Additionally, rural areas experience higher rates of maternal mortality compared to urban areas, and yet, experts and research using the Maternal Mortality Review Committee data indicates that at least 80 percent of maternal mortalities are preventable.

□ 1600

H.R. 3838, the Preventing Maternal Deaths Reauthorization Act of 2023, is bipartisan legislation to reauthorize support for State-based Maternal Mortality Review Committees until 2028. These committees play a critical role in reviewing pregnancy-related deaths to identify causes and make recommendations for the prevention of future mortalities in their State. The legislation also requires the Centers for Disease Control and Prevention, the CDC, to work with HRSA, the Health Resources and Services Administration, to share best practices to prevent maternal mortality with hospitals and healthcare providers.

Enacting this legislation will provide the needed ongoing support of Maternal Mortality Review Committees, ultimately enhancing the safety of women throughout their pregnancy, delivery, and postpartum experiences while reducing racial disparities and outcomes.

The legislation is supported by over 85 organizations across the healthcare spectrum. I am pleased that it is before us today, and I encourage all of my colleagues to vote “yes” on this important bill.

Mr. Speaker, I reserve the balance of my time.

Mr. BURGESS. Mr. Speaker, I yield myself such time as I may consume.

I do want to point out in this bill, probably one of the most important aspects is the collection and dissemination of data by the CDC and HRSA, the best practices that occur across the country. There is no reason why one hospital should have excellent statistics and another hospital have questionable statistics. We should be able to be good enough that every hospital has excellent statistics.

I know this to be true, because where I did my residency at Parkland Hospital in Dallas, they have consistently had some of the best maternal mortality statistics in the country, and they take care of a population that is low income, women of color, underinsured, uninsured, the very populations you think would be at greatest risk.

I know we can do it. I have seen it done, and it is so important to me that we collect and disseminate this data.

Mr. Speaker, I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Florida (Ms. CASTOR).

Ms. CASTOR of Florida. Mr. Speaker, I thank Ms. SCHRIER for yielding me time.

Mr. Speaker, I rise in strong support of the Preventing Maternal Deaths Reauthorization Act. It is critical legislation that I am proud to co-lead to address the maternal mortality crisis in America, unconscionably the worst in the developed world.

Each of us deserves to live a healthy life. For mothers, for women, that includes access to the care they need before, during, and after pregnancy. Pregnancy in America right now is too often traumatic or is life-threatening, and our maternal health crisis in many places is tearing families apart.

This is particularly true for Black women, who often experience worse outcomes due to disparities in access to medical care, the care that they need and that they deserve.

Our bill will help recommit to the health of our neighbors by ensuring that more moms can have safe pregnancies by improving health outcomes for the patients at the highest risk of maternal mortality and morbidity.

In the Tampa Bay area, I am proud to represent outstanding OB/GYNs and providers, clinics like Evara Health or organizations like REACHUP, the Healthy Start Coalitions, and more. They have worked tirelessly to address our maternal mortality rates and improve the quality of care for new and expecting mothers.

This bill will help them and similar organizations across the country, in partnership with the CDC, by building upon the comprehensive framework of the Preventing Maternal Deaths Reauthorization Act, supporting Maternal Mortality Review Committees, and strengthening lifesaving initiatives to improve health outcomes.

For example, Florida’s Maternal Mortality Review Committee has successfully created initiatives to reduce deaths associated with postpartum bleeding and opioid use disorder.

We have to do more. I look forward to working with my colleagues to address America’s maternal mortality crisis through research, prevention, and evidence-based practices.

I thank my partners on the Committee on Energy and Commerce who brought this bill to the floor: Congressman BURGESS, Congresswoman DEGETTE, Congressman CARTER, Congresswoman KELLY for her years of advocacy, Congresswoman SCHRIER, and Congresswoman CAMMACK, as well. I thank them for co-leading this legislation with me. Families are counting on us. Please vote “yes.”

Ms. SCHRIER. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Illinois (Ms. KELLY).

Ms. KELLY of Illinois. Mr. Speaker, I rise today in support of this bipartisan effort to address the maternal health crisis.

One of the most glaring inequities in our country is the disparities in mater-

nal health outcomes. In the richest country in the world, the United States is falling behind and failing our mothers and babies.

Over 1,000 women died in 2021 because of complications from childbirth. This is up from 861 deaths in 2020 and 754 deaths in 2019. What is even worse, as you have heard, is that Black women are nearly three times more likely to die from pregnancy-related causes as non-Hispanic White women, and that depends on where you live. The area I represent is six times as likely. Indigenous women are more than twice as likely to die from pregnancy-related causes as non-Hispanic White women. Again, it depends on where they live. This is just unacceptable.

I am proud to say that this legislation will bring us closer to a future where no mother has to worry that growing her family will cost her life. The Preventing Maternal Deaths Reauthorization Act, that I co-lead with Representatives BURGESS, CAMMACK, CASTOR, CARTER, and DEGETTE, will strengthen and expand Federal support for Maternal Mortality Review Committees, or MMRCs. State-fashioned MMRCs are tasked with identifying maternal deaths, analyzing the factors that contributed to those deaths, and translating those lessons into policy changes.

I am proud to say that a piece of my comprehensive maternal health legislation, the MOMMA’s Act, is included in this legislation.

The Preventing Maternal Deaths Reauthorization Act has received unanimous, bipartisan support from the Energy and Commerce Committee’s Subcommittee on Health and the full committee.

Mr. Speaker, I encourage my colleagues to support this bill and save moms’ lives.

Ms. SCHRIER. Mr. Speaker, I yield myself the balance of my time for closing.

I am so pleased this bill is before us today. I encourage all of my colleagues to vote “yes” on this very important bill that will save lives.

Mr. Speaker, I yield back the balance of my time.

Mr. BURGESS. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, this bill is personally important to me. My grandfather, who I never knew, my father’s father, was an academic obstetrician at McGill Hospital in Montreal from the end of the World War I until his death in 1939.

During that time, maternal mortality was substantially reduced. The caregivers of that time, prior to the introduction of antibiotics, made great strides in reducing maternal mortality. Some of that was through the imposition of preventive medicine. Some of that was because of improved anesthesia and blood bank techniques. Of course, with the introduction of antibiotics in 1940, the rates came down even substantially more. We know it can be done.

At that time the major drivers of maternal mortality were hypertension, hemorrhage, and infection. Now, the major drivers are well after delivery, and they fall into the realm of cardiovascular disease, suicide, and drug overdose. This expansion of postpartum coverage to the first year after delivery was really work that was established in our committee. We did the research on that, and we provided the guidance that now has been taken up by a great many States.

I look forward to a day when we see these numbers are significantly reduced even over where they are now because of the changes that we have made as a result of this legislation. It is important work.

Mr. Speaker, I encourage all of my colleagues to vote “yes” on the underlying bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. BURGESS) that the House suspend the rules and pass the bill, H.R. 3838, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BURGESS. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

FIREFIGHTER CANCER REGISTRY REAUTHORIZATION ACT OF 2023

Mr. GUTHRIE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3821) to reauthorize the Firefighter Cancer Registry Act of 2018.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3821

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Firefighter Cancer Registry Reauthorization Act of 2023”.

SEC. 2. REAUTHORIZATION OF VOLUNTARY REGISTRY FOR FIREFIGHTER CANCER INCIDENCE.

Section 2(h) of the Firefighter Cancer Registry Act of 2018 (42 U.S.C. 280e-5(h)) is amended by striking “\$2,500,000 for each of the fiscal years 2018 through 2022” and inserting “\$5,500,000 for each of fiscal years 2024 through 2028”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. GUTHRIE) and the gentleman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. GUTHRIE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and in-

clude extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 3821, the Firefighter Cancer Registry Reauthorization Act.

Firefighters are among our Nation’s first responder heroes. They are on the front lines of the most dangerous and frightening emergencies, and they bravely answer the call to save our family members and loved ones from harm.

Tragically, cancer remains one of the leading causes of death for firefighters, and firefighters are more likely to develop certain types of cancer than the general public.

This legislation reauthorizes the voluntary National Firefighter Registry for Cancer, which will help us to monitor, study, and understand the relationship between the toxic exposures firefighters face and cancer risk.

Mr. Speaker, I thank Representatives PASCRELL and FITZPATRICK for their work on this bipartisan legislation, I urge my colleagues to support this bill, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3821, the Firefighter Cancer Registry Reauthorization Act of 2023, sponsored by Representative PASCRELL from New Jersey.

H.R. 3821 reauthorizes funding for the critical research at the Centers for Disease Control and Prevention, the CDC, to monitor and study the relationship between career-long exposure to dangerous fumes and toxins and the incidence of cancer in firefighters from 2024 to 2028.

Created in 2018, the National Firefighter Registry was established to address knowledge gaps and improve nationwide data collection capabilities and monitoring of cancer incidence from a large and diverse population of firefighters.

Studies have shown that firefighters may have a greater risk of some types of cancer due to their exposure to smoke, toxins, and hazardous chemicals. The registry’s work is a collaboration amongst epidemiologists, public health experts, clinicians, and firefighters. Thousands of firefighters have enrolled, making it the most extensive initiative ever undertaken in our country to comprehend and mitigate cancer risks among firefighters.

This bill is supported by the International Association of Fire Chiefs, the National Volunteer Fire Council, and National Fallen Firefighters Foundation, among others.

I encourage all of my colleagues to vote “yes” on this important bill, and I reserve the balance of my time.

Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey (Mr. PASCRELL).

□ 1615

Mr. PASCRELL. Mr. Speaker, I thank the members of the Energy and Commerce Committee on both sides of the aisle for this reauthorization act. The time flies. When we put this together 5 years ago, it was bipartisan, as well.

Our fire heroes run into burning buildings while we run away, and they make harrowing rescues every single day, saving lives and protecting property. Nonetheless, there are dangerous carcinogens lurking in the air that they breathe and in the equipment that they use. The effects of these toxins are not fully known and may take years to determine.

In 2022, the International Association for Research on Cancer found that the very occupation of firefighting causes cancer. We are talking about thousands of volunteers and thousands of career firefighters.

Cancer is the leading cause, Mr. Speaker, as you just heard, of line-of-duty deaths for firefighters, but behind each statistic is a beloved public servant.

Eduardo Diaz, a firefighter in North Bergen, passed away from pancreatic cancer at the age of 53. Firefighter Diaz was a beloved resident of Hasbrouck Heights and a member of the Professional Firefighters of New Jersey, who are in town and who are supporting Federal aid for firefighters.

In my hometown of Paterson, my close friend, FMBA firefighter Jerry Behnke, tragically died from brain cancer.

These are but two of too many firefighters lost to cancer.

When someone is diagnosed with cancer, it is reported on the cancer registry in their State—Democrats and Republicans saw the significance of this 5 years ago when there was no registry—but specific details about their work are not collected.

To focus attention on this issue that can yield results, in 2018, the Congress rightfully created the National Firefighter Registry for Cancer. It is the largest effort in history to understand and reduce cancer among firefighters.

Because of this, the CDC has made a database of firefighters with cancer to monitor and study the ties between career-long exposure to dangerous fumes and toxins and the incidence of firefighter cancer. Since its opening year, more than 10,000 firefighters have voluntarily enrolled in the registry.

My bill would reauthorize the registry for another 5 years at a very modest funding level for what we hope can be lifesaving work.

Mr. Speaker, I urge my colleagues to support passage of this measure so we can get it onto the President’s desk as soon as possible.

Ms. SCHRIER. Mr. Speaker, I yield myself the balance of my time.

Let me emphasize, Mr. Speaker, how important it is that we look out for our heroes, our firefighters, as well as they look out for us.

Mr. Speaker, I encourage my colleagues to vote “yes” on this very important bill, and I yield back the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I thank my friend from New Jersey for bringing this forward and working hard for this. He has seen what happens to firefighters in his community from 9/11 and on, and it is really important work that our firefighters do.

As he said, there is a group from Kentucky in town today with whom we had a chance to talk. They are the heroes who go into burning buildings to save our families and all the other things they do for us.

Mr. Speaker, I strongly urge my colleagues to support H.R. 3821, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. GUTHRIE) that the House suspend the rules and pass the bill, H.R. 3821.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. GUTHRIE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

9-8-8 LIFELINE CYBERSECURITY RESPONSIBILITY ACT

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. GUTHRIE) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. GUTHRIE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 498, the 9-8-8 Lifeline Cybersecurity Responsibility Act, led by Mr. OBERNOLTE.

In 2021, more than 48,000 people died by suicide in the United States. That equates to 132 people every day. These are our family members, our neighbors, and our friends. This number is staggering, and unfortunately, suicide deaths are continuing to rise. People need hope and healing.

The 988 Suicide & Crisis Lifeline is a national network of local crisis centers used to support people in suicidal crisis or emotional distress. This has proven to be a vital resource, especially during the COVID-19 pandemic when government-imposed lockdowns led to increased social isolation and loneliness.

The lifeline suffered a cybersecurity attack in December 2022 and was proactively taken offline for several hours. It is unknown how many individuals were hurt by the outage, but we do know that individuals in emotional distress or suicide crisis were unable to utilize the lifeline for hours.

H.R. 498 would improve the lifeline’s cybersecurity protections by requiring coordination between SAMHSA and the chief information security officer within HHS.

Additionally, this bill would require the lifeline administrator and local call centers to report any cybersecurity incidents and vulnerabilities to SAMHSA as soon as they are identified. My hope is that this bill would help prevent future cyberattacks and disruption of services so individuals in crisis can access this resource and get the help they need.

Mr. Speaker, I urge my colleagues to support the bill, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 498, the 9-8-8 Lifeline Cybersecurity Responsibility Act, sponsored by my colleagues, Representatives CÁRDENAS and OBERNOLTE.

On July 16, 2022, the 988 lifeline became available to all landline and cell phone users to access a network of over 200 local- and State-funded crisis centers. The suicide and crisis lifeline is there for anyone who is struggling with anxiety, depression, or suicidal ideation.

Since its launch, according to data from the Kaiser Family Foundation,

the 988 lifeline has received almost 5 million contacts. Nearly 1 million are from the Veterans Crisis Line, a designated part of 988. The others have consisted of 2.6 million calls, almost three-quarters of a million chats, and more than 600,000 texts.

In December 2022, the 988 lifeline experienced a cybersecurity breach, which resulted in a daylong outage across the country. This lifeline is imperative to suicide prevention and utilized by constituents in every one of our districts.

The legislation on the floor today would require better coordination and reporting on potential cybersecurity vulnerabilities within the 988 lifeline with the goal of preventing future cyberattacks and disruption of services. The bill would require coordination between the lifeline and the chief information security officer at the Department of Health and Human Services to prevent cybersecurity attacks. The suicide hotline's regional and local network administrators would also be required to notify the government of cybersecurity vulnerabilities and incidents. Finally, the Government Accountability Office would be required to conduct a study evaluating cybersecurity risks and vulnerabilities in the 988 lifeline system.

Mr. Speaker, I encourage all of my colleagues to vote "yes" on this important bill, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. OBERNOLTE), who is a leader of cybersecurity in this Congress and a member of the Energy and Commerce Committee.

Mr. OBERNOLTE. Mr. Speaker, I thank the gentleman from Kentucky, my friend and colleague, for the opportunity to present my bill, H.R. 498, the 9-8-8 Lifeline Cybersecurity Responsibility Act.

Mr. Speaker, according to the CDC, in 2022, nearly 50,000 Americans took their own lives. This is a shocking and, frankly, shameful commentary on the state of mental health in this country. Mr. Speaker, that amounts to over 100 suicides a day.

In response to this growing crisis, in 2005, Congress authorized the 988 lifeline. 988 is a 24-hour, 7-day-a-week hotline that anyone with suicidal thoughts can call to be connected to counseling and resources.

In the first year of operation, the 988 lifeline received nearly 50,000 calls, and it has continued to grow in the years since then. It has undoubtedly saved thousands of American lives.

Unfortunately, 14 months ago, the 988 lifeline was taken down by a cyberattack on its systems operator.

Mr. Speaker, every minute that lifeline is offline is the potential for the loss of American lives because those resources are not available to them. This bill is an attempt to solve that problem.

H.R. 498 would require 988 systems operators to report cybersecurity vul-

nerabilities and would require the Department of Health and Human Services to coordinate in addressing those vulnerabilities.

The bill would also require the Comptroller General to create a study of the cybersecurity vulnerabilities on the hotline and the ways that those vulnerabilities can be addressed.

Mr. Speaker, the 988 lifeline is a vital resource for Americans who might be having suicidal thoughts or contemplating the irrevocable act of taking their own lives. This bill is a small step in making sure that that lifeline remains available to the Americans who are depending on it.

Mr. Speaker, I thank the gentleman from Kentucky for bringing this bill forward to the floor, and I respectfully urge my colleagues to vote "yes" and pass this bill to the Senate.

Ms. SCHRIER. Mr. Speaker, I yield such time as he may consume to the gentleman from the State of California (Mr. CÁRDENAS) to discuss this bill.

Mr. CÁRDENAS. Mr. Speaker, I thank the gentlewoman for yielding.

Mr. Speaker, I rise today—actually, I ran over here—as a proud partner with my colleague, Representative OBERNOLTE, to support the passage of the 9-8-8 Lifeline Cybersecurity Responsibility Act, which would help to protect the 988 lifeline from any future cyber interference.

Unfortunately, suicide is the second leading cause of death among our young people in America. Prior to the COVID-19 pandemic, it was the 10th leading cause of death in our Nation. We need to treat this as the legitimate health crisis that it is.

This is one of the reasons why I believe there is so much promise in the 988 Suicide & Crisis Lifeline. Not only does the three-digit calling code provide a 24/7 lifeline to individuals in crisis from anywhere in the United States, but it also represents a change in the way we think and respond to mental illness as something that warrants help and support, just like other kinds of health conditions.

□ 1630

Mr. Speaker, 988, in its fullest form, is not just a number, but a connection to a full mental health crisis response.

Since I know that I have limited time, there is much more to be said, but let me tell my colleagues: This is a perfect example why the people of America send us to Washington, D.C.—to come together, to recognize what we need to fix, and to come together as Republicans and Democrats from both sides of the aisle to work together to create one of the best systems this country and this world will ever know.

Mr. Speaker, 911 is something that any American can take for granted, because we created that almost 70 years ago, where people will call 911, and they know somebody is going to come and save a life.

So 988 is exactly what we need to do for the American people. That is why I

am so proud to work with my colleague, Congressman OBERNOLTE, to make sure that we move this forward and put our children, our country, our families, and our communities in a better place in any moment of a mental health crisis.

Ms. SCHRIER. Mr. Speaker, I yield myself the balance of my time to close.

Mr. Speaker, I have visited the 988 center in my area and seen the dedication of the providers, and we need to make sure that we protect this lifeline from cybersecurity risks.

Mr. Speaker, I encourage my colleagues to vote for this bill, and I yield back the balance of my time.

Mr. GUTHRIE. Mr. Speaker, this is an important bill. We have our two good friends from California working together across the aisle in a bipartisan way in the Energy and Commerce Committee. This is an important bill to move forward.

Mr. Speaker, in closing, I urge my colleagues to support it, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MEUSER). The question is on the motion offered by the gentleman from Kentucky (Mr. GUTHRIE) that the House suspend the rules and pass the bill, H.R. 498, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

MEDICAID PRIMARY CARE IMPROVEMENT ACT

Mr. GUTHRIE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3836) to facilitate direct primary care arrangements under Medicaid, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3836

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicaid Primary Care Improvement Act".

SEC. 2. CLARIFYING THAT CERTAIN PAYMENT ARRANGEMENTS ARE ALLOWABLE UNDER THE MEDICAID PROGRAM.

(a) *RULE OF CONSTRUCTION.*—Nothing in title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) shall be construed as prohibiting a State, under its State plan (or waiver of such plan) under such title (including through a medicaid managed care organization (as defined in section 1903(m)(1)(A) of such Act)), from providing medical assistance consisting of primary care services through a direct primary care arrangement with a health care provider, including as part of a value-based care arrangement established by the State. For purposes of the preceding sentence, the term "direct primary care arrangement" means, with respect to any individual, an arrangement under which such individual is provided medical assistance consisting solely of primary care services provided by primary care practitioners, if the sole compensation for such care is a fixed periodic fee.

(b) *GUIDANCE.*—Not later than 1 year after the date of the enactment of this Act, the Secretary of Health and Human Services shall—

(1) convene at least one virtual open door meeting to seek input from stakeholders, including primary care providers who practice under the direct primary care model, state Medicaid agencies, and Medicaid managed care organizations; and

(2) taking into account such input, issue guidance to States on how a State may implement direct primary care arrangements (as defined in subsection (a)) under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(c) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary of Health and Human Services shall submit to Congress a report containing—

(1) an analysis of the extent to which States are contracting with independent physicians, independent physician practices, and primary care practices for purposes of furnishing medical assistance under State plans (or waivers of such plans) under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.); and

(2) an analysis of quality of care and cost of care furnished to individuals enrolled under such title where such care is paid for under a direct primary care arrangement (as defined in subsection (a)) through a Medicaid managed care organization (as so defined).

(d) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to alter statutory requirements under the State plan (or waiver of such plan) under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) for cost-sharing requirements or be construed to limit medical assistance solely to those provided under a direct primary care arrangement.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. GUTHRIE) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. GUTHRIE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am proud to support the work today of Congressman CRENSHAW, a fierce advocate for primary care access for patients in this country.

Primary care is the backbone of our healthcare system, and we know that investing now in connecting Americans to primary care will keep people healthier and save money along the way.

The Medicaid Primary Care Improvement Act is a straightforward bill that will help clarify current law to ensure that States have the tools and flexibility needed to offer primary care services in a variety of manners and settings through the Medicaid program.

One way to deliver primary care that shows promise is called direct primary care. Direct primary care clinics have been expanding around the country, and allow patients to pay a set amount per month for access to a primary care doctor to help address the basic need of healthcare.

This legislation makes sure that the State could explore an option like this for Medicaid enrollees in their State. It is a simple yet effective bill, and I believe it will lead to better outcomes and save taxpayers dollars in the long run.

Mr. Speaker, I urge all of my colleagues to join me in supporting this bill, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3836, the Medicaid Primary Care Improvement Act, sponsored by Representative CRENSHAW from Texas and myself.

As a primary care physician and a Congresswoman, I am excited to see the Medicaid Primary Care Improvement Act come to the floor today.

Allowing Medicaid to utilize the direct primary care model is a huge shift in the way that Medicaid patients and doctors interact for the better. Direct primary care is structurally different than traditional care models, because it is not designed around fee-for-service billing, but, rather, focused entirely on providing patients the best care possible.

This is made possible by having Medicaid pay an affordable monthly fee that, in turn, allows doctors with a set number of patients the time and flexibility to provide the best possible care and the ability to schedule appointments that are the right length in order to provide all of the support those patients need for optimal health.

Some appointments might take 90 minutes. Some might take 10. In the direct primary care model, doctors have a number of patients, or a patient panel, that they are responsible for caring for, and a smaller patient population means more time spent on things like education, preventative care measures, and being able to talk through and address critical topics like nutrition, exercise, stress, and social determinants of health that can't always be thoroughly addressed during a typical time-limited primary care appointment.

In turn, this means better patient understanding of and involvement in their own healthcare, fewer visits to the emergency room, and ideally better outcomes. Other trials of direct primary care have shown exactly those outcomes.

Dr. Garrison Bliss is a pioneer in this effort, starting up the first direct primary care practice in Washington State in 1997. His last year in practice was 2020, the year we were met with COVID. He had just 450 patients with the average patient in their midsixties. Their age put them at an increased risk for COVID morbidity and mortality, and patients in this age group generally require more care or just a smaller-sized panel.

Not a single one of his patients died from COVID during that first year, when we still didn't have vaccinations

or treatments and we were still learning about the disease. He credits this to the fact that he could reach them, and they could reach him readily and have conversations about their care and talk with them about their COVID concerns.

He could send out newsletters directly with pertinent information. If his patients had a question about whether or not to go to the emergency room, he was available to give advice by being there for his patients. Consulting with him prevented ER visits with no compromise in care.

This model of care deserves to have more pilots around the country, hopefully with similar results, better outcomes, lower costs, tighter relationships between doctor and patient, and improved patient and physician satisfaction.

If these benefits are consistently achieved, then all people, no matter their level of income or insurance, deserve the option of a direct primary care model, including Medicaid.

I encourage all of my colleagues to vote "yes" on H.R. 3836.

Mr. Speaker, I have no further speakers, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. CRENSHAW), a strong proponent of this bill, and one of the strongest proponents in Congress for primary care.

Mr. CRENSHAW. Mr. Speaker, I rise today in support of my bill, the Medicaid Primary Care Improvement Act.

I thank both the chair and the ranking member for their support. I also thank Representative SCHRIER for being such an excellent co-lead and advocate; and Representatives SMUCKER, BLUMENAUER, and PETERSEN, who continue to also champion direct primary care.

Mr. Speaker, a lot of attention gets paid to the Members who come down here and raise their voices and scream and yell about all the things they are really mad at because they want the public to know how mad they are. Every once in a while, we can raise our voices and wave our arms for some good things that we all work on together just to improve people's healthcare.

This bill is just that. It is a first step for addressing one of the most important issues in healthcare, which is access. We can promise people health insurance, and we can add more money to it, but it doesn't necessarily translate into actual access to a provider.

Direct primary care is one of the easiest and most direct ways to deliver primary care to patients. It is a payment model that makes sense to patients because it is simple. It is unlimited access to primary care providers by paying a monthly fee. It is a win-win for both patients and doctors because it simplifies and guarantees that relationship.

It keeps patients out of costly emergency rooms. It saves money for the

entire healthcare system. It encourages more efficient preventative medicine, as well. This means treating prediabetes before it becomes diabetes. This means treating heart issues before they become heart disease.

The market has already created direct primary care, and it is a model that actually thrives in districts like mine, where we have doctors like my friend, Dr. Glenn Davis, whose direct primary care practice saves businesses lots of money on their premium payments and also delivers quality care to patients, but, as usual, the government has not caught up.

This bill removes the uncertainty about whether Medicaid can pay for direct primary care access and empowers States with the necessary guidance to provide direct primary care for vulnerable patients who need it most.

It is a game changer because many Medicaid patients aren't accessing primary care right now. They are more likely to show up at an ER than schedule regular visits with a primary care physician, and ER costs keep going up because too many people are not getting the preventative care that they need.

Why? Well, because the truth is a lot of primary care doctors simply can't serve Medicaid patients due to low reimbursement rates. If we allow States to tailor their Medicare programs for direct primary care, which this bill does, we can fundamentally change this dynamic.

Our legislation is straightforward, and it has zero cost. It clarifies that current laws don't prohibit direct primary care arrangements while offering guidance for States that want to use direct primary care in their Medicaid programs, just like my home State of Texas.

Mr. Speaker, I genuinely hope that we can push this forward in a truly bipartisan way.

Ms. SCHRIER. Mr. Speaker, I have no further speakers. I am prepared to close, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. SMUCKER), a member of the Ways and Means Committee and a good friend of mine.

Mr. SMUCKER. Mr. Speaker, I thank Mr. GUTHRIE for yielding.

Mr. Speaker, I rise today in support of this bill, the Medicaid Primary Care Improvement Act, which I am proud to be an original cosponsor of.

Now, we have heard of the many benefits of direct primary care. Certainly, I have seen that in my community, where we have many patients accessing their care through doctors providing direct primary care, which is receiving primary care services for a simple, flat monthly fee. We have seen that it keeps patients out of emergency rooms, improves health outcomes, and it yields savings. I also believe it will yield savings to the Medicaid program in this case.

This bill clarifies that State Medicaid programs may include direct primary care arrangements and, as I said, will help vulnerable beneficiaries access low-cost and high-quality healthcare services.

I think giving States that flexibility is a great step in the right direction as well. When State Medicaid programs innovate on behalf of their patients, especially with something like this—leveraging value-based care delivery models like direct primary care—I think patients and taxpayers will be the winners.

I would also mention a bill that I have introduced, the Primary Care Enhancement Act, which would allow patients or individuals with health savings accounts to access primary care and have that cost be included as a qualified expense in the HSA. This will be another way to expand access to primary care.

Mr. Speaker, I thank Mr. GUTHRIE for yielding time, and I thank Mr. CRENSHAW for his important work on this bill. I encourage my colleagues to vote "yes."

Ms. SCHRIER. Mr. Speaker, whatever we can do to expand affordable care, improve healthcare, strengthen the doctor-patient relationship, and bring down costs is a win for our constituents. That is why I am excited to sponsor this bill, the Medicaid Primary Care Improvement Act, that allows the use of direct primary care.

Mr. Speaker, I encourage my colleagues to vote for this bill, and I yield back the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I appreciate Dr. SCHRIER and all the work that she has done, all the work that the two gentlemen who spoke as primary sponsors have done on this bill. It is a good bill.

Mr. Speaker, in closing, I urge my colleagues to support H.R. 3836, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. GUTHRIE) that the House suspend the rules and pass the bill, H.R. 3836, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

ACTION FOR DENTAL HEALTH ACT OF 2023

Mr. GUTHRIE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3843) to amend title III of the Public Health Service Act to reauthorize grants to address dental workforce needs.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3843

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Action for Dental Health Act of 2023".

SEC. 2. REAUTHORIZATION OF GRANTS TO ADDRESS DENTAL WORKFORCE NEEDS.

Section 340G(f) of the Public Health Service Act (42 U.S.C. 256g(f)) is amended by striking "2019 through 2023" and inserting "2024 through 2028".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. GUTHRIE) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. GUTHRIE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3843, the bipartisan Action for Dental Health Act led by Representative SIMPSON.

Oral health plays an important role in the well-being of all Americans.

According to the Health Resources and Services Administration, we will be facing a shortage of close to 9,000 general dentists and more than 23,000 dental hygienists over the next 15 years.

The Action for Dental Health program directs Federal funding to State and local organizations to help support the dental workforce and improve access to care for patients.

This bill reauthorizes this important program for a 5-year period and strengthens the impact of existing resources to enhance oral healthcare.

Advancing early diagnosis and preventive dental treatments will improve the patient care and health outcomes. This reauthorization is an important step in addressing barriers to oral healthcare services.

Mr. Speaker, I urge my colleagues to support the underlying bill, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3843, the Action for Dental Health Act, sponsored by Representatives Kelly and Simpson.

Access to oral healthcare is critical to ensuring a person's overall health and well-being. Too often, however, oral healthcare is overlooked. Tooth decay is the most common chronic disease in both children and adults in the United States. In fact, more than one in four adults have untreated cavities, and nearly half of American adults show signs of gum disease.

Clearly, we need to do more to expand access to oral healthcare, including strengthening the oral healthcare workforce.

The Action for Dental Health Act will reauthorize State oral health workforce improvement programs. These programs seek to enhance dental workforce planning and development through the support of innovative programs that meet the individual needs of each funded State.

I hope my colleagues will join me in this effort to strengthen and expand access to oral healthcare. I encourage all of my colleagues to vote “yes” on H.R. 3843, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield 3 minutes to the gentleman from Idaho (Mr. SIMPSON), a dentist who is a Member of the House, chairman of the subcommittee on the Appropriations Committee, and my good friend.

Mr. SIMPSON. Mr. Speaker, I thank the gentleman from Kentucky for yielding, and I thank both the gentleman from Kentucky and the gentleman from Washington for bringing this bill to the floor.

Mr. Speaker, I rise today in support of H.R. 3843, the bipartisan reauthorization of the Action for Dental Health Act of 2023.

First, I thank my colleague from Illinois, Congresswoman ROBIN KELLY, for her continued leadership on this issue. I was proud to partner with her in 2018 when the Action for Dental Health Act first passed, and I am pleased to see the House of Representatives working again in a bipartisan fashion to consider the reauthorization of the Action for Dental Health Act.

Since its implementation, the Action for Dental Health Act has improved dental care in communities across the United States, strengthened the dental safety net, and brought disease prevention and education into underserved communities.

This reauthorization is an essential step in continuing to address barriers to oral healthcare services that still exist, like tackling the oral health workforce issues and reducing the number of adults and children living with untreated dental disease.

As a former dentist in Blackfoot, Idaho, I know that the more we can provide patients with an early diagnosis, the better off our patients and our oral healthcare system will be.

As co-chair of the Congressional Oral Health Caucus, I am proud to, once again, join Congresswoman KELLY in this effort, and I encourage my colleagues to vote “yes” on this critical reauthorization so we can continue the work to decrease dental health disparities in communities where better access to care is most needed.

Ms. SCHRIER. Mr. Speaker, I yield such time as she may consume to the gentleman from Illinois (Ms. KELLY).

Ms. KELLY of Illinois. Mr. Speaker, I thank you for considering the Action for Dental Health Act that I am proud to co-lead with Representative MIKE SIMPSON.

The Action for Dental Health Act was the first bill I passed when I ar-

rived in Congress, and I am honored to see the continuing support for this important piece of legislation.

Oral healthcare is a critical part of our overall health, and preventive dental care can reduce costs for families and helps so many people live better lives.

Oral disease is a common risk factor with chronic diseases, such as cardiovascular diseases and diabetes. Oral health affects our ability to eat, speak, and show emotions. It plays a crucial role in shaping an individual’s self-esteem, academic performance, and attendance at work or school.

Furthermore, many studies have shown a connection between poor oral health and increased mortality risk, showing that preventative oral healthcare not only enhances quality of life but also plays a pivotal role in promoting longevity and reducing mortality risk.

Additionally, oral health is an important part of perinatal health. Reducing bacteria in a woman’s mouth during pregnancy can significantly reduce her risk of developing oral diseases and spreading decay-causing bacteria to her baby. Moreover, some evidence suggests that women with periodontal disease during pregnancy could be at greater risk for poor birth outcomes, such as preeclampsia, preterm birth, and low birthweight.

Regular preventive dental care is essential for good oral health, so one can find problems earlier when they are easier to treat and have better outcomes. Unfortunately, many don’t get the care they need. More people are unable to afford dental care than other types of healthcare. Vulnerable populations, including children, low-income communities, minorities, and the elderly are particularly susceptible to experiencing limited access to dental care, leading to poorer oral health outcomes.

We must address the barriers to oral healthcare services. By prioritizing early diagnosis, intervention, and preventive dental treatments, we can significantly improve the well-being of patients and alleviate strain on our healthcare system.

I am proud the Energy and Commerce Health Subcommittee, as well as the full committee, has recognized the urgent need to address this pressing challenge for so many Americans.

The Action for Dental Health Act passed the Health Subcommittee and the full Energy and Commerce Committee with unanimous, bipartisan support.

Mr. Speaker, I encourage my colleagues to support this bill.

Mr. GUTHRIE. Mr. Speaker, I have no further speakers, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I speak now as a pediatrician. In addition to limiting children’s consumption of sweet drinks and frequent snacking on carbohydrates, to

providing fluoride for all of our patients, we absolutely need to expand the oral healthcare workforce to provide dental care for our patients.

I encourage my colleagues to vote “yes” on H.R. 3843, and I yield back the balance of my time.

Mr. GUTHRIE. Mr. Speaker, in closing, this is an important piece of legislation. I thank my friends for bringing this forward. I urge my colleagues to support H.R. 3843, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. GUTHRIE) that the House suspend the rules and pass the bill, H.R. 3843.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. GUTHRIE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

ASSESSMENT OF TRANS-ATLANTIC SUBMARINE FIBER OPTIC CABLE

Mr. LATTA. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3385) to direct the Assistant Secretary of Commerce for Communications and Information to submit to Congress a report containing an assessment of the value, cost, and feasibility of developing a trans-Atlantic submarine fiber optic cable connecting the contiguous United States, the United States Virgin Islands, Ghana, and Nigeria, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3385

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ASSESSMENT OF TRANS-ATLANTIC SUBMARINE FIBER OPTIC CABLE.

(2) **SECRETARY.**—The term “Secretary” means the Secretary of Commerce, acting through the Assistant Secretary of Commerce for Communications and Information.

(3) **TRUSTED.**—The term “trusted” means, with respect to an entity, that the Secretary has not determined that the entity is not trusted.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATTI) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio.

GENERAL LEAVE

Mr. LATTI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. LATTI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3385. This bill would direct the Assistant Secretary of Commerce for Communications and Information to assess the value, cost, and feasibility of developing a trans-Atlantic submarine fiber optic cable connecting the United States, the Virgin Islands, Ghana, and Nigeria.

A trans-Atlantic submarine fiber optic cable could provide national security benefits to the United States,

making this an important issue to study.

I thank the gentlewoman from the Virgin Islands and the gentleman from Idaho's First District for leading on this important legislation. I also thank the ranking member of the full committee, the gentleman from New Jersey, for his willingness to work with Republicans on this legislation in a bipartisan way through regular order in the committee process.

Mr. Speaker, I urge my colleagues to support H.R. 3385, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 3385, a bill requiring the National Telecommunications and Information Administration, the NTIA, to assess the value, cost, and feasibility of a trans-Atlantic submarine fiber optic cable connecting the United States, the U.S. Virgin Islands, Ghana, and Nigeria, and to submit a report to Congress with its findings.

The bill also directs the NTIA to report to Congress on the current state of telecommunications connecting the U.S. Virgin Islands and the United States, including an assessment of the lifespan and security of the telecommunications infrastructure linking the two.

This assessment and report will provide the Energy and Commerce Committee with vital information on the strength and resiliency of communications infrastructure in the U.S. Virgin Islands. It will help us determine whether the American interests can be served by connecting the United States and the African Continent with undersea cable infrastructure by way of the U.S. Virgin Islands.

H.R. 3385 is a critical step to enhance American communications security and competitiveness around the world. In recent years, the United States and many allies have recognized the threat posed by untrusted Chinese telecommunications equipment to our own national security.

Thanks to the work of the Energy and Commerce Committee and our colleagues, we have taken steps to remove suspect equipment from the American communications networks to protect against attacks or sabotage by our adversaries, but this work is not finished because network security does not end at the water's edge.

For decades, China and other adversaries have spent considerable time and money to deploy suspect telecommunications equipment and infrastructure across the African Continent. The assessment required in this bill is an important step to understanding the cost of securing the connection between the United States and our African allies, and how best to ensure a critical global communications channel is protected from the prying eyes of our adversaries.

□ 1700

Mr. Speaker, I thank the gentlewoman from the Virgin Islands (Ms.

PLASKETT) for her leadership of this bill and the gentleman from Idaho (Mr. FULCHER) for his partnership in this effort.

This legislation is critical to enhancing our Nation's national security and the security of communications between the United States and our African partners. I look forward to reviewing the results of NTIA's assessment when it becomes available.

Mr. Speaker, I urge my colleagues to support this bipartisan legislation, and I reserve the balance of my time.

Mr. LATTI. Mr. Speaker, I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield such time as she may consume to the gentlewoman from the Virgin Islands (Ms. PLASKETT), and I thank her for her leadership.

Ms. PLASKETT. Mr. Speaker, I thank the gentlewoman from Washington for the opportunity to speak on this matter, and I thank my colleagues on both sides of the aisle for really digging into this information and recognizing the potential national security interests as you heard outlined by them both.

There are hundreds of undersea fiber optic telecommunications cables linking North America with Europe, South America, and a myriad of locations in Asia, but not a single undersea fiber optic telecommunications cable connects North America with the entire African Continent.

The DiasporaLink Act represents an opportunity to establish a high-speed, secure telecommunications data connection to Africa and from American soil facilitating deepened economic connections and aiding American regional security assistance. This link will allow America to establish a direct digital presence on the continent to capitalize on emerging economic opportunities, as well as to protect our Nation against cyber and military threats that may come from the African Continent.

The landing points of Lagos, Nigeria, and Accra, Ghana, have been selected as part of the study on the continent as landing points for the cables. These coastal cities are hubs for several undersea cables that connect West African nations to Europe and South America. Additionally, the strategically located American Embassies at these landing points provide additional security for us.

There are two other nations which have been proliferating throughout the African Continent at this time. Both of those are our adversaries, and it is incredibly important that we establish our own telecommunications internet undersea cable to the continent.

The first one, which is China, has a proliferation of Chinese telecommunications and military investments which is profound and growing. The Chinese multinational Huawei has constructed roughly 70 percent of Africa's information technology infrastructure. China continues to make similar investments in the Caribbean through its

Belt and Road Initiative. No less than 10 nations have signed agreements of various kinds to open their nations up to Chinese influence.

Russia, as well, has developed a multipolar world order. Its deployment of disinformation and its use of mercenaries have undermined democratic stability and driven conflict on the continent of Africa. Moscow's increasing ambitions to position itself as an ally to African countries and stoke anti-Western sentiment has assisted to turn the continent into a flash point in the global strategic competition between Russia and the West.

Russia's support of authoritarian governments, including its backing of a string of coups in recent years, is undermining the continent's democratic aspirations. Meanwhile, the involvement of Russia's Wagner Group is driving conflict, worsening human rights abuses, and spurring growing militarization in governance: Nigeria in 2023, Mali in 2022, Sudan in 2021, Guinea in 2023, Burkina Faso in 2024, all coups in the last few years with tremendous influence by Russia and China in that.

The undersea cable linking the American East Coast and Africa via the United States Virgin Islands would serve as both a national security instrument and a digital commerce expressway to boost America's global political, economic, and military advantages. Such undersea cable development would facilitate similar links that could be developed in the U.S. Virgin Islands which already has links between the Virgin Islands, South America, and the mainland United States.

We also need to be clear about the minerals that are in Africa that are being extracted continually by both Russia and China. Niger is the world's seventh largest producer of uranium. The Ministry of Mines says that Mali has one of the largest deposits of gold, and lithium, as well; cobalt in the Democratic Republic of the Congo; Sudan, which also has tremendous minerals; and Burkina Faso with bauxite and phosphate. These are things being exploited by our adversaries on the continent, which we must have our own dedicated interest in.

The DiasporaLink Act is an opportunity to assure that the United States can continue its work countering the proliferation of Chinese influence in the global telecommunications space. The use of the U.S. Virgin Islands, which not only has those cables, but also has a National Guard installation on the island of St. Croix with a nearby military support airport could expand and support that interest, as well.

I thank the Energy and Commerce Committee for reviewing this at the subcommittee level, having it go through the committee process, the regular order process that this House so desperately wants, and after working together, it unanimously coming out of committee here to the floor.

I urge all of my colleagues to support this measure for the interest not only

of our country but for the democracy in the African Continent, as well.

Ms. SCHRIER. Mr. Speaker, I yield myself the balance of my time to close. I just want to emphasize that H.R. 3385 is a matter of national security. I thank Representative PLASKETT for painting such a clear picture of that risk. For that reason, I urge my colleagues to support this bipartisan legislation, and I yield back the balance of my time.

Mr. LATTI. Mr. Speaker, again to highlight, H.R. 3385, as stated in the bill, the report shall include an assessment of the digital security, the national security, and the economic opportunities associated with a trans-Atlantic submarine fiber optic cable. This is again essential for our security.

Mr. Speaker, I urge passage of H.R. 3385, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCCORMICK). The question is on the motion offered by the gentleman from Ohio (Mr. LATTI) that the House suspend the rules and pass the bill, H.R. 3385, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to direct the Secretary of Commerce to submit to Congress a report containing an assessment of the value, cost, and feasibility of a trans-Atlantic submarine fiber optic cable connecting the contiguous United States, the United States Virgin Islands, Ghana, and Nigeria."

A motion to reconsider was laid on the table.

ENERGY EMERGENCY LEADERSHIP ACT

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3277) to amend the Department of Energy Organization Act with respect to functions assigned to Assistant Secretaries, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3277

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Energy Emergency Leadership Act".

SEC. 2. FUNCTIONS ASSIGNED TO ASSISTANT SECRETARIES.

(a) IN GENERAL.—Subsection (a) of section 203 of the Department of Energy Organization Act (42 U.S.C. 7133(a)) is amended by adding at the end the following new paragraph:

"(12) Energy emergency and energy security functions, including—

"(A) responsibilities with respect to infrastructure, cybersecurity, emerging threats, supply, and emergency planning, coordination, response, and restoration; and

"(B) upon request of a State, local, or tribal government or energy sector entity, and in consultation with other Federal agencies as appropriate, provision of technical assist-

ance, support, and response capabilities with respect to energy security threats, risks, and incidents."

(b) COORDINATION.—The Secretary of Energy shall ensure that the functions of the Secretary described in section 203(a)(12) of the Department of Energy Organization Act (as added by this Act) are performed in coordination with relevant Federal agencies.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from South Carolina (Mr. DUNCAN) and the gentlewoman from Washington (Ms. SCHRIER) each will control 20 minutes.

The Chair recognizes the gentleman from South Carolina.

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3277, the Energy Emergency Leadership Act. Sponsored by Representatives WALBERG and BLUNT ROCHESTER, H.R. 3277 has strong bipartisan support, passing out of the Energy and Commerce Committee 48-0 last May.

The bill is necessary to strengthen the Department of Energy's important energy emergency mission. It does so by requiring that the well-established energy emergency and cybersecurity functions at the DOE are organized under the leadership of an Assistant Secretary confirmed by the Senate.

This bill amends the Department of Energy Organization Act to establish in law this Assistant Secretary level of leadership at the Department of Energy's emergency response and cybersecurity functions.

This bill will ensure the Department has focused and accountable leadership to protect the public more fully from fuel and electricity supply disruptions against natural or manmade hazards, including emerging threats from our foreign adversaries to the Nation's electric grid.

Under this legislation, the DOE will carry out its responsibilities in coordination with other agencies with improved coordination across the Department, better interagency collaborations, and greater accountability to the United States Congress.

Establishing accountable leadership of this DOE mission is an important step in the face of increased threats, vulnerabilities, and interdependencies of energy infrastructure and end-use systems.

Protecting energy security requires defense in depth. This means a strong energy sector, strong State capabilities, and ensuring sector agencies like the Department of Energy have the tools that they need to respond to energy emergencies.

A vote for H.R. 3277 is a vote for ensuring accountable DOE leadership

over energy emergencies for the benefit of public safety and welfare and for stronger cybersecurity protections within the energy systems.

Mr. Speaker, I encourage my colleagues to support this bill, and I reserve the balance of my time.

Ms. SCHRIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 3277, the Energy Emergency Leadership Act. This is a bipartisan bill that passed the House in the 117th Congress and is necessary to protect our energy grid from cyberattacks. Our energy infrastructure and grid have seen a number of attacks over the past few years from state actors and other malicious actors. We must defend our grid from cyberattacks.

H.R. 3277 establishes a new Assistant Secretary position at the Department of Energy responsible for cybersecurity and emergency response issues. H.R. 3277 would give the new Assistant Secretary jurisdiction over all energy emergency and security functions related to energy supply, infrastructure, and cybersecurity. This includes responsibilities related to coordination, response, and restoration.

Given today's national security concerns, it is crucial that all of these responsibilities rest with an Assistant Secretary at the Department of Energy, the agency with sector expertise.

The bill would also vest the Assistant Secretary with the authority to provide DOE technical assistance and support to State, local, or Tribal governments upon request, and it would require the Assistant Secretary and DOE to coordinate with other relevant Federal agencies in carrying out the bill's provisions.

DOE already does great work to protect our energy infrastructure. The Office of Cybersecurity, Energy Security, and Emergency Response has been at the forefront of protecting our grid and coordinating responses to attacks. By codifying an Assistant Secretary for cybersecurity and emergency response issues, this legislation would go a long way in helping to protect the Nation's electric infrastructure from hackers and other bad actors that attempt to disrupt our energy grid and harm our economy, our daily lives, and our overall national security.

I commend Representatives BLUNT ROCHESTER and WALBERG for their bipartisan efforts to protect our energy infrastructure. I hope we can continue to work together on cybersecurity matters moving forward to defend our country from the ongoing threat of cyberattacks.

Mr. Speaker, I urge all my colleagues to support this bipartisan bill, and I reserve the balance of my time.

Mr. DUNCAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Michigan (Mr. WALBERG), one of the authors of the bill.

□ 1715

Mr. WALBERG. Mr. Speaker, I thank my friend from South Carolina for yielding time.

Mr. Speaker, I rise today in support of my legislation, H.R. 3277, the Energy Emergency Leadership Act. Working with my good friend, Representative LISA BLUNT ROCHESTER, this bipartisan legislation was introduced to help address an ever-growing need.

We live in a world where energy infrastructure is constantly facing threats. As we become more reliant on technology in all aspects of our grid, it is important to understand the magnitude of the risks associated with this dependence.

We face the persistent threat of cyberattacks, like the Colonial Pipeline, which paralyzed multiple regions of our country for an entire week in 2021. Our energy infrastructure is the most targeted critical infrastructure sector, facing 39 percent of cyber incidents.

The sophistication and sheer numbers of cyberattacks are growing by the year, but these aren't the only threats. In addition, our energy systems have become increasingly more complex. They have also become more vulnerable to all manner of hazards, including natural disasters, physical attacks, and global shortages. According to *The Wall Street Journal*, physical attacks on energy infrastructure catapulted by 71 percent from 2021 to 2022.

We need to make sure the Department of Energy is properly equipped to combat these threats and respond in case of an emergency.

The FAST Act provided the DOE with several new energy security authorities to respond to physical attacks and cyberattacks on our critical energy infrastructure. The Trump administration built on this authority by creating the Office of Cybersecurity, Energy Security, and Emergency Response, or CESER.

This legislation would amend the Department of Energy Organization Act to require the Secretary of Energy to assign energy emergency and energy security functions to an Assistant Secretary of CESER, including responsibilities concerning infrastructure and cybersecurity.

Strengthening our cyber defense and emergency response capabilities in the energy sector has never been more important. We must do everything we can to protect energy reliability, and this bipartisan legislation is a simple yet effective step that needs to be taken.

For too long, the Department of Energy's emergency functions have long been oriented around oil supply shocks, but defense and response to physical attacks and cyberattacks have not been defined as a clear function. This can lead to downstream effects causing confusion and complications to the Department seeking to address the threats.

This legislation would help elevate energy emergency and cybersecurity

responsibilities as a core function for the Department and better protect our grid and critical energy infrastructure. It would strengthen coordination across the Department, ensure more effective interagency communication, and increase accountability to Congress and the American people.

We live in a modern world with modern threats requiring modern solutions. H.R. 3277 is a necessary response to these threats.

Last Congress, the Energy Emergency Leadership Act passed the House with overwhelming support from Members on both sides of the aisle. Since then, threats have only increased; the stakes have risen; and there is consensus to get this done.

Mr. Speaker, I urge my colleagues to support this commonsense legislation.

Ms. SCHRIER. Mr. Speaker, I reserve the balance of my time.

Mr. DUNCAN. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. LATTA).

Mr. LATTA. Mr. Speaker, I thank the gentleman for yielding, and I rise today in strong support of H.R. 3277, the Energy Emergency Leadership Act, which is an important step in ensuring America's electrical grid is secure.

The Energy Emergency Leadership Act requires the Department of Energy to establish a new Assistant Secretary position that has dedicated focus on preparing and responding to physical attacks and cyberattacks on the grid.

As co-chair of the bipartisan Grid Innovation Caucus, I am encouraged that we have this opportunity to highlight the great bipartisan work emerging from the House Energy and Commerce Committee.

Dedicated leadership and coordination are necessary for ensuring security. Our electrical grid is fundamental to our everyday lives, and protecting the grid from both cyber and physical attacks is a cause that deserves our full attention.

It is too easy to take for granted the reliability of our power grid and the stability and safety it provides for us every single day. Without this infrastructure, we would not be able to stay connected with loved ones, heat and light our homes, or engage in everyday commerce that keeps our economy moving and workers employed.

Mr. Speaker, I thank the gentleman from Michigan and the gentlewoman from Delaware for leading this legislation.

Mr. Speaker, I urge my colleagues to support the Energy Emergency Leadership Act to strengthen the resilience of our power grids, fortify the United States' national security, and protect American families.

Ms. SCHRIER. Mr. Speaker, energy security should be handled by the Department of Energy. This is important for our national security.

Mr. Speaker, I encourage my colleagues to vote "yes" on this bipartisan bill, and I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, it is an important time to address cybersecurity in this Nation. The energy infrastructure that we have is vulnerable. The gentleman from Michigan mentioned the Colonial Pipeline incident, which affected my State of South Carolina.

Republicans generally aren't about growing government, creating new positions, and whatever, but it is important to raise this to the level of Assistant Secretary to put the emphasis where the Nation needs it to be at the Department of Energy.

Mr. Speaker, I thank the gentleman from Michigan (Mr. WALBERG) and the gentlewoman from Delaware (Ms. BLUNT ROCHESTER) for authoring this bill. I thank the minority on the Energy and Commerce Committee, as well as the majority members, for supporting this through the full committee, and I would love for all of my colleagues to support this legislation.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from South Carolina (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 3277.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO VENEZUELA—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 118-114)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Foreign Affairs and ordered to be printed:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency declared in Executive Order 13692 of March 8, 2015, with respect to the situation in Venezuela is to continue in effect beyond March 8, 2024.

The situation in Venezuela continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. For this reason, I have determined that it

is necessary to continue the national emergency declared in Executive Order 13692 with respect to the situation in Venezuela.

□ 1905

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. ALLRED. Mr. Speaker, I was absent during the time of votes. Had I been present, I would have voted “yea” on rollcall No. 60, H.R. 3391, Gabriella Miller Kids First Research Act 2.0 and “yea” on rollcall No. 61, H.R. 3838, Preventing Maternal Deaths Reauthorization Act of 2023.

PERSONAL EXPLANATION

Ms. PORTER. Mr. Speaker, I was unable to be present to cast my votes on rollcall 60 and rollcall 61 today. Had I been present, I would have voted yea on rollcall 60 and yea on rollcall 61.

PERSONAL EXPLANATION

Mr. SCHIFF. Mr. Speaker, due to events in California, I was unfortunately unable to cast my vote for legislation considered on the House floor today. Had I been able to be present, I would have voted according to the following: “yea” on H.R. 3391—Gabriella Miller Kids First Research Act 2.0, as amended; and “yea” on H.R. 3838—Preventing Maternal Deaths Reauthorization Act of 2023, as amended.

THE JOURNAL

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on agreeing to the Speaker’s approval of the Journal, which the Chair will put de novo.

The question is on the Speaker’s approval of the Journal.

Pursuant to clause 1, rule I, the Journal stands approved.

PROVIDING FOR A JOINT SESSION OF CONGRESS TO RECEIVE A MESSAGE FROM THE PRESIDENT

Mr. SCALISE. Mr. Speaker, I send to the desk a privileged concurrent resolution and ask for its immediate consideration.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 93

Resolved by the House of Representatives (the Senate concurring). That the two Houses of Congress assemble in the Hall of the House of Representatives on Thursday, March 7, 2024, at 9 p.m., for the purpose of receiving such communication as the President of the United States shall be pleased to make to them.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H. RES. 902

Mr. GREEN of Texas. Mr. Speaker, I ask unanimous consent to remove the gentlewoman from North Carolina (Ms. MANNING) as a cosponsor of H. Res. 902.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

PERMISSION FOR MEMBER TO BE CONSIDERED AS FIRST SPONSOR OF H.R. 4506

Mr. WEBER of Texas. Mr. Speaker, I ask unanimous consent that I may hereafter be considered the first sponsor of H.R. 4506, a bill originally introduced by Representative JOHNSON of Ohio, for the purpose of adding cospon-

sors and requesting reprintings pursuant to clause 7 of rule XII.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

RECOGNIZING DAVID AND NATALIE BROYLES AND BACK YARD BURGERS

(Mr. BURCHETT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURCHETT. Mr. Speaker, I remind Members it is a little crowded back there, but we have a few more seats down front if you all want to come down here.

Mr. Speaker, I rise to recognize the folks at Back Yard Burgers, which recently closed its doors after 35 wonderful years.

The managing partners, David and Natalie Broyles, are a dynamic duo. They are a wonderful couple and loving parents to their kids, Kelsey and John, and great business partners.

When I was county mayor, I would host employee appreciation luncheons for my staff. We would always eat Back Yard Burgers because they were delicious, and I knew it would put a smile on my employees’ faces.

I also saw David and Natalie at my nephew Charlie’s football games, where their son played as well. We would sit together in the stands and hurl insults at the referees when they made bad calls.

David and Natalie used Back Yard Burgers to serve the community in lots of different ways. They hosted the Back Yard Burgers Bowl, which was a football game between Alcoa High School and the Christian Academy of Knoxville. They would donate a \$1,000 scholarship to each school for a graduating senior that year and also raised funds for the Knoxville Area Rescue Ministries.

They also held a pillow fight event one year to collect pillows for the Knoxville Area Rescue Mission and collected over 600 pillows for them.

The Knoxville community will miss Back Yard Burgers. I wish David and Natalie the best in their retirement, as well as everyone else who is moving on to the next chapter in their lives.

PRESIDENT BIDEN AND HOUSE DEMOCRATS

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Madam Speaker, I rise today to discuss the great work of President Biden and the House Democrats.

We are putting people over politics to grow the middle class.

We have created better-paying jobs and continue to make communities safer.

We have capped the price of insulin at \$35 per month for seniors, and we are working to make that price set for all diabetics.

We continue to grow the middle class with investments in infrastructure and investments in technologies to prevent climate change.

We are working to make corporations and the wealthiest 1 percent of Americans pay their fair share in taxes.

We passed the first gun safety law in a generation, and we will keep fighting to keep guns out of the hands of dangerous people.

In addition, we want women to make their own reproductive healthcare choices, and we will continue to put people over politics in all our policy choices.

RECOGNIZING BOB HOUGHTON

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Madam Speaker, I rise today to recognize the remarkable career of Bob Houghton.

Bob is a giant in Georgia broadcasting and has worked with over 500 Georgia television and radio stations during the span of his career.

Bob is retiring as president of the Georgia Association of Broadcasters, a position he has held since 2012.

Although born and raised in Chicago, Bob chose to make Georgia his home.

Bob has been a live announcer for college football, baseball, and basketball in Georgia. He fondly refers to the University of Georgia as his “adopted college” and served for several years on the Grady College Board of Trust before being named a Grady Fellowship Recipient in 2022.

During his career, Bob has held management positions at WGST radio, CBS, Georgia Public Broadcasting, and he has advocated extensively for the continuation of AM radio.

Bob has earned a tremendous amount of respect in his field, and I hope you join me in congratulating him on a well-earned retirement.

REMEMBERING DANIEL HANTMAN

(Mr. TAKANO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TAKANO. Madam Speaker, I rise today to remember the life of a man with a big heart: Daniel Hantman.

Dan was a lawyer, leader, and tireless civic volunteer—earning him the title of “Mr. Riverside.”

I was one of many people who knew Dan, who knew that friendly smile and his deep unshakeable desire to make his community a better place.

He embodied that commitment of “tikkun olam,” meaning “repairing the world.”

He volunteered his time in so many ways: from serving on civic boards at

the Chamber of Commerce to picking up litter in a big sombrero. He made our little corner of the world a better place, and for that, I am one of many in Riverside who will miss him deeply.

My thoughts are with his family, friends, and our community. May his memory be a blessing.

WORK STUDY VOTING SCHEME

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Madam Speaker, the Biden administration is desperate to shore up support before the November election.

It is so desperate, in fact, it has announced its intent to co-opt the Federal Work-Study Program and begin paying college students to register voters and to work at the polls.

That is right, the Federal Government will be handing out cold, hard cash for students to scoop up votes.

Vice President HARRIS in recent remarks billed this scheme as non-partisan and one that will promote voter participation for students. Nobody is buying that pitch, Madam Speaker.

Here is the truth: The Biden administration is turning the Federal Work-Study Program into a vote-buying sweepstakes.

Enough with the smoke and mirrors already. The American people are not fooled.

HONORING TERRY BRIGGS

(Ms. BUSH asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BUSH. Madam Speaker, St. Louis and I rise in honor of the life and legacy of Bridgeton, Missouri, mayor, Terry Briggs.

Mayor Briggs was a loving husband, father, and dedicated public servant. As a three-term mayor of Bridgeton in St. Louis County, he cared deeply about his community and those in it.

One issue we worked together on was the cleanup of Manhattan Project waste dumped in Westlake Landfill and surrounding areas. Together, we fought not only for the cleanup of this waste but also for compensation for those impacted.

Mayor Briggs was also a champion for the rights of those living with disabilities. He worked to ensure that everyone was treated with dignity and given the resources to thrive through his service on the Productive Living Board, Special Olympics Board, Special School District Board of Education, and the Municipal League of Metro St. Louis.

Mayor Briggs was deeply loved, and his legacy will live on through the lives he has touched. My heart goes out to Mayor Briggs' family and friends and all of Bridgeton. May he rest in peace.

BIDENOMICS ONGOING FAILURE

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. During the State of the Union speech on Thursday, Biden will falsely claim that his policies are working, but in reality, Bidenomics is a failure.

When Biden took office, inflation was 1.4 percent. Since then, inflation has risen by nearly 18 percent.

Inflation is a tax on all families paying more for goods and services since Biden took office, including: electricity up 29 percent; food up 21 percent; auto insurance up 21 percent—just to name a few basic examples.

Americans for Prosperity reveals the truth at Bidenomics.com.

House Republicans led by Speaker MIKE JOHNSON will continue fighting to reduce inflation and create jobs.

In conclusion, God bless our troops who successfully protected America for 20 years as the global war on terrorism moves from the Afghanistan safe haven to America. We do not need new border laws; we need to enforce existing laws. Biden shamefully opens borders for dictators as more 9/11 attacks across America are imminent, as warned by the FBI.

READ ACROSS AMERICA DAY

(Mr. DAVIS of North Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAVIS of North Carolina. Madam Speaker, as students sat criss-cross apple sauce intently listening, I began reading "The Very Hungry Caterpillar" by Eric Carle.

The book was about a caterpillar that continued eating and eventually built a cocoon.

He pushed his way out as a beautiful butterfly.

Read Across America encourages educators and parents to highlight the significance and fun of reading.

March is National Reading Month.

Madam Speaker, Ms. Sarah Joyner, a former student of mine is the teacher of this fantastic class. Ms. Sarah's class is as beautiful as a butterfly. I am so proud of Ms. Sarah for devoting herself to her students and transforming their lives for over 30 years.

I congratulate Sarah on a successful teaching career and her upcoming retirement.

ENFORCING IMMIGRATION LAWS

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Madam Speaker, maybe soon we will actually get serious about enforcing our border and the immigration mess we have down there.

We see what is happening with sanctuary cities, and certainly, Mayor

Adams from New York City is feeling the heat on that, as well, and actually starting to talk the right language.

On top of that we have San Francisco that is not only fully embracing illegal alien sanctuary but starting this November—get this—they will let illegal aliens vote in their local school board elections.

Right.

So how can we even think that that is constitutional? How is that going to make San Francisco elections and the legislators they would send to Washington, D.C., or Sacramento in the eyes of the voters in the rest of the country, how do they have confidence in that?

Texas can't enforce their laws on illegal immigration invasions into their State, but San Francisco can ignore Federal law and allow illegal aliens to vote in their local elections and set up ultimately to legitimize them in their eyes to vote in Federal elections? That will lead to this body having to invalidate their elections for Congress and Senate and for the White House.

AIRDROPPED HUMANITARIAN AID IN GAZA

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Madam Speaker, I rise to raise awareness of not only the desperate humanitarian situation in Gaza, but also, the fact that Israeli hostages that probably number over 100 have not been freed by Hamas.

Every means at our disposal, including U.S. sea and airdrops, should be airlifted to get all necessary aid to civilian populations trapped and in dire need of supplies.

I applaud the Biden administration's new mission to airdrop food and other aid directly into Gaza in collaboration with our Jordanian allies and in cooperation with Israeli forces.

If our Nation could lead the Berlin airlift following World War II, surely we can ease the suffering as we urge a truce and work with our allies toward a two-state solution.

I include in the RECORD a proposal for a negotiated truce and a two-state solution that will allow for rebuilding.

[From the Blade, Jan. 31, 2024]

GUEST ESSAY: ESTABLISHING 'GAZA-PALESTINIAN PROTECTORATE' WOULD GO A LONG WAY

(By U.S. Rep. Marcy Kaptur)

Halfway around the world, the war between Hamas' terrorist units and Israel is a piercing global tragedy. It demands a global response. Yet, "Peace and Justice" have eluded solution in this troubled region for over a century. It will be even harder to achieve after this conflagration ends. The extraordinary death toll will resound for generations forward. How does one create a lasting peace borne of such fierce, enduring hatreds?

The invasion Hamas' fighters launched from Palestinian Gaza into Israel on Oct. 7, 2023 broke the cease-fire that had tensely hung over that very troubled region. More than 1,200 innocent Israeli civilians were slaughtered in a barbaric attack, with more

than 100 Israeli and some American hostages still remaining in captivity. More than 250,000 Israelis were evacuated and displaced from their homes. In Gaza, 1.7 million Gazans have subsequently been displaced with Hamas health officials claiming more than 25,000 civilians dead, and more than 60,000 injured with two-thirds of the victims being women and children.

How does any army defeat a hostile enemy positioned amidst a civilian population and underground in a vast “bunker city” with miles of interconnected tunnels, dug for purposes of war, not peace?

Over 140,000 Hezbollah terrorist forces supplied by Iran, are positioned in southern Lebanon, shooting rockets down on Israel now. It is no accident Yemen’s terrorist Houthi adherents, also supplied by Iran, have been purposefully shelling private cargo ships as well as targeting U.S. naval vessels in the Red Sea to disrupt global trade in this conflicted region. Russia’s role in exacerbating resurgent unrest was made clear when top Gen. Sergei Shoigu recently visited Iran. And a Hamas delegation was in Moscow not long after it attacked Israel.

Across the Middle East, a spiderweb of terrorism is hastening, hell-bent on evil. Iranian drones and missiles are being used against Ukraine, Israel, the United States, and our allies in Iraq, Pakistan, Syria, and Jordan. North Korean missiles are likewise in use against Ukraine. The global distinction between tyranny and liberty could not be clearer. The world community of nations must not allow terrorist forces enabled by Iran and Russia to foment unrest and carnage. The sacred boundaries of nations must be respected, defended, and enforced.

The history of the Middle East instructs that former adversarial nations can make peace among themselves. For nearly five decades, dating back to my days of service in the Carter administration, proposals for a two-State solution have been advanced for Israel and Palestine.

Ironically, the depth and brutality of this present conflict may create an opening for a far-reaching solution. If the world community could spend as much money on peace as it has on war, both the Israelis and Palestinians could have thriving homelands.

To move forward, I propose that the United Nations, or a coalition of willing nations, begin to negotiate a “Gaza-Palestinian Protectorate.” The parties involved should aim to negotiate a long-lasting solution to the conflict in Gaza, address challenges in the West Bank, and divide the contested territory securing their existence with an International Multilateral Security Force to separate warring factions.

If the civilized world could achieve this with a divided Korea, why not with Palestine and Israel?

The goals of the Protectorate would be fourfold:

- 1) an international coalition of nations should be assembled and involved in organizing its administration and staffing;
- 2) Gaza would be demilitarized of weapons, war, tunnels, and fortifications;
- 3) Hamas would have no role, politically, administratively, or economically;
- 4) Palestinians from Gaza should be involved in the administration of the Protectorate’s on-site operations, including its police forces.

The Protectorate would have three immediate tasks. The first would be to quickly secure resources and provide food, water, shelter, and medical care to the almost 2.3 million people of Gaza.

The second is to provide an international military coalition that can demilitarize Gaza as quickly as possible. Gaza must never again be a threat to its neighbors.

The third is to physically separate Gaza and Israel, by creating a demilitarized zone between the two, that is virtually impenetrable, as is the DMZ between North and South Korea. As part of the separation, the infrastructure to provide water, sewage treatment, and energy needed by Gaza should be located in Gaza and staffed by the people of Gaza.

One of the long-term missions could be to rebuild what is now a destroyed area under a new vision of peace and prosperity. Gaza has many undeveloped resources, the primary of which is its land and location. While small in size, Gaza is located in one of the most attractive parts of the Mediterranean, with miles of undeveloped, beautiful beaches that could become a recreational center of the region.

With peace and stability, Gaza could become a financial and economic hub that attracts capital and businesses from around the world. Gaza and the West Bank have the thousands of workers needed to rebuild what has been destroyed along with necessary staff to renew the economy. A “Gaza Development Authority” as part of the Protectorate could create and administer a long-term development plan to bring prosperity and transparency that would forestall the corruption that so often accompanies unfettered development.

Hope must arise from this cruel war. Old diplomacy, and old solutions should be shelved. They should be replaced with a forward-looking approach that could bring peace, justice, and prosperity to this war-torn region. Succeeding would give hope to a civilized world that hungers for peace in these troubled lands.

Ms. KAPTUR. The U.S. is prepared to continue airdrops if we can work with our allies to achieve it by sea or air. The world community can help.

We have a moral obligation to achieve and to assure the release of hostages and sustenance of life for those who are innocent on the ground.

CELEBRATING WOMEN’S HISTORY MONTH

(Mr. MRVAN asked and was given permission to address the House for 1 minute.)

Mr. MRVAN. Madam Speaker, as a father of two intelligent, independent, compassionate daughters, it is with great respect that I rise today to celebrate Women’s History Month and its 2024 theme “Women Who Advocate for Equity, Diversity, and Inclusion.”

This year, I would like to honor a true leader of northwest Indiana, Dr. Vanessa Allen-McCloud, who has served as president and CEO of the Urban League of Northwest Indiana for more than a decade.

In this role, Dr. Allen-McCloud works to promote services to improve social, educational, and economic opportunities for African Americans and other minority groups throughout northwest Indiana.

Under her leadership, the Urban League continues to grow and succeed and has become an outstanding source of support for many individuals and organizations.

Madam Speaker, as we celebrate Women’s History Month, please join me in recognizing the dedication and

contributions of Dr. Vanessa Allen-McCloud and all of the extraordinary women who continue to make our communities more equal, diverse, and inclusive.

WE NEED IMMIGRANTS

(Mr. KHANNA asked and was given permission to address the House for 1 minute.)

Mr. KHANNA. Madam Speaker, it is time that we have a real solution for having high-skilled immigrants help with our national security.

That is why I, as a cosponsor of the EAGLE Act, am going to introduce it and attach it to the National Defense Authorization Act.

The reality is we need immigrants to help build some of the critical technology that is going to keep us ahead of China and keep our military strong and our industrial base strong.

The EAGLE Act benefits all American workers by lifting the arbitrary per country green card cap to bring down the decades-long backlog.

It also will help end H-1B visa abuse by foreign outsourcing corporations, as these visas undercut wages.

It is time to pass the EAGLE Act, attach it to national defense, and make it a national security issue.

OUT-OF-CONTROL NATIONAL DEBT

The SPEAKER pro tempore (Mrs. CHAVEZ-DEREMER). Under the Speaker’s announced policy of January 9, 2023, the gentleman from Arizona (Mr. SCHWEIKERT) is recognized for 60 minutes as the designee of the majority leader.

Mr. SCHWEIKERT. Madam Speaker, we are actually going to try three things tonight, and I apologize to anyone who doesn’t like math or complexity. Originally, I promised I was going to do something simpler tonight, and let’s just say it didn’t work out.

The three things we are going to try doing this evening: One, I want to spend a few minutes talking about folklore. The things we get as Members of Congress—this is both for the folks on the left and the right—the comments we get, things people believe, and I want to walk through a little bit of that. I want to do sort of an update status on what is happening financially. Then I am going to broach a subject that is really uncomfortable, and that is going to be talking about the future. I am going to talk about fertility rates and what that means to being able to finance Social Security and other things.

For anyone who does not like math, please just go watch something on Netflix right now.

A couple weeks ago, I did a whole presentation on the work we have done on what it takes financially to save Social Security. One of the things I have been genuinely angry about—and I

have been angry about it for years—is the left uses Social Security as a weapon, and our folks are terrified to talk about it because every time we talk about trying to save it, we get attacked. Then my brothers and sisters on the left will say: Just raise the cap.

We have shown the math. We had two Ph.D. economists spend months working out the math, and raising the caps doesn't get you anywhere close to stabilizing it.

There is the immortality of this place being willing to double senior poverty in 9 years. You do understand, even if you raise the caps—I showed the math—that you are still having about a \$400 billion shortfall in the first year. If you did all the taxes, you might cut that down to a \$250 billion or \$300 billion shortfall.

Today's math says the average couple in 2034 will take a \$17,400 cut. We will double senior poverty.

Is that a Republican or Democrat perversity? I will just argue it is a moral one.

Why can't we actually work on the math? When I chaired the Subcommittee on Social Security, every time I tried to do a roomful of actuaries and those things, my brothers and sisters on the left found more joy in the politics, because it is a powerful issue.

It is absolutely immoral what we are doing. There is this concept of a black swan. That is something that sneaks up on you and blows you up. There is this concept of a white swan. You see it coming, and you don't do anything.

We have the actuary reports in front of us. I know this is a math-free zone, so one of first things I want to walk through is the concept of—when I did the speech a couple weeks ago, it had a couple hundred thousand views on YouTube. God bless. Yea. Then you read through the comments. Those of us in Congress know that about half our comments are bots. A lot of them are Russian bots, which is hysterical. When you read through some of them, they say: They stole my Social Security money.

Okay. Let's do math and sort of walk through this because this is really important to understand. The Social Security trust fund built up, built up, built up, particularly with the baby boomers, because there was a population bubble that actually built up those tax receipts. It had \$3 trillion or \$4 trillion in it. Now that has rolled over.

No one stole the money. What happened was, you don't just let the cash sit there. The cash was actually loaned to the Treasury, and the Treasury gives a T bill, a type of Treasury bond, just like if you walked into your bank and said: I want a U.S. T bill.

Same thing. Twice a year, the Treasury pays interest.

The problem right now, when you hear many of us get behind these microphones and talk about the Social Security trust fund getting emptied, is

the amount of tax receipts that come in. Your FICA tax every month doesn't cover all the checks that are going out. Every month, they have to take a little bit of one of their T bills, Treasury bills, and hand it to the Treasury and say: We need some cash. We need some cash. Give us some cash so we can make this month's Social Security payments.

Every time they do that, they use up a little bit of that savings account. It is that savings account, the trust fund, that is emptied in 2033 or 2034.

The Social Security trust fund, just like the transportation trust fund, just like the airline trust fund, all the trust funds that are borrowed from, they are paid interest.

I am going to get this wrong. Treasury pays interest twice a year to the Social Security trust fund. I think last month may have been \$30 billion, \$40 billion. The mean interest rate is right about market.

For everyone who says: They stole my money.

It is there. The average couple will get about a \$70,000, \$72,000 spiff. The money they pay into Social Security over their lifetime, the average will get about \$70,000, \$72,000.

Now, understand, that is a crap rate of return. If 20 years ago, when it was being discussed, you had been able to take a little sliver of that money and put it in the market, you would have had a ginormous—I love that word—a larger rate of return.

The politics of that became toxic. There were lots of campaigns saying: You are trying to privatize.

Okay. That world is gone. It is Medicare that actually has the huge problem of for every dollar you put in, you get almost \$5 back. Social Security, you get pretty much the money you put in. Crappy rate of return, but you get that back. That is the first folklore I wanted to go over.

Number two, you saw in the comments: Why aren't there people there?

If this room was full as I am giving this presentation, we have got a problem. When you are sitting in this room—this is for voting. This is for debating. This is not necessarily where you do your work. You do your work in your meetings, in your subcommittees and your primary committees. When you see the room empty, this is how it is supposed to be.

Now, when you have an idiot like me behind one of these mikes, you are probably on a thousand televisions. A lot of these presentations I do, I am as much here to talk to staff and try to educate them on what is going on in the math. That is actually one of the things you look for.

Another one, I have this neighbor—a wonderful guy—loves screwing with me. About every 6 weeks, he sends me this text message with this article that is completely fake. He says: David, why do you get 100 percent of your pension? You got it on the first day. Why do you run again?

None of that is true. That is all made up. For, I think, 25, 30 years, the pension system we have is pretty much identical to the forest ranger.

The only reason I say those things is I believe, when you see those sort of comments and posts and other things, it is an attempt to distract, an attempt to avoid dealing with what is really going on around us.

One of the points I wanted to go to tonight is what is happening. The economy is actually fairly decent right now. GDP growth is fairly decent. However, I want to make a point, because we did the math just before coming to the floor. We are what, 5 months into the fiscal year? We have added \$1.243 trillion in that 5 months.

My current math is of right now about every 123 to 125 days, at the current borrowing per day, we are adding another trillion dollars. This is in a time when the economy is pretty good. Since October 1, right now we are borrowing about \$7.9 billion every day. You have got to understand what that ultimately means to us, because it has actually been accelerating. I think on Friday we set our all-time record. I think we were up to borrowing \$95,000 a second.

Almost 100 percent of that growth is interest—you are going to see this over and over in the charts—interest and healthcare costs. It is Medicare. It is things that we are not allowed to talk about. They are on autopilot. If it continues, my math says we are heading toward about a \$2.6, \$2.7 trillion borrow this year, in a year where the economy is doing fairly well. If today's math held up, you do realize you are broaching \$3 trillion.

Now, I am hoping we are going to have really good April tax receipts. That means right now, if you take where we are at and average it, from the first day of this fiscal year, for the 5 months, right now our math is \$2.9 trillion for this year borrowed. That is substantially higher than CBO predicted 6 weeks ago, and that is right off the Treasury's website.

Let's actually walk through reality and try to understand. My personal theory is we have lots of crazy conversations around here because we are desperate to avoid telling the public, or even ourselves, the truth. Every single dollar you and I, as Members of Congress, vote on is borrowed. Every single dollar we vote on is borrowed. The way we are going this year, every single dollar we vote on is borrowed plus maybe a trillion dollars of Medicare will be borrowed. We don't get to vote on that. That is on autopilot.

My point is trying to understand how much—now, this number is no longer about 73 percent; we think it is actually approaching 75 percent—will be on mandatory because of the growth of interest.

We made this board a couple days ago, and then it popped, so it wasn't \$93,000, it was almost \$95,000 a second, but I didn't want to waste the ink and print a new one.

Why do the second? Because it is understandable. Let's be brutally honest. How many of us can see 12 zeros in our head? One of my great sins in trying to communicate my stress about this, my fear is I am up here saying: It is a trillion dollars. No one knows what the hell a trillion dollars is. It is 12 zeros. Every second, we borrow substantially more than the average wage of Americans. Maybe that hits home.

Let's actually walk through what is going on, and then my sarcasm here is going to be my anger at myself, my brothers and sisters here, particularly on the left, but also on the right. We have been debating and fighting over things that don't even qualify as a day's borrowing. We bring this place to its knees. We remove a Speaker, we do this and that, and then you realize the amount of dollars being fought over only equal a couple days' worth of borrowing. Darn it, it got us on television. I got to raise some money on the internet. It is that type of false prophet that I will argue is our demise, because if I can get you to fixate on the shiny objects, you are never going to be willing to absorb the truth on how ugly these numbers are.

This is where we are heading toward right now for 2024. Social Security will be our number one spend. The baseline looks like it is ticking up. We are seeing something interesting where the number of retirees asking for benefits is actually ticking a little faster than we expected; \$1.450 trillion, the number one spend, Social Security.

□ 1945

Interest, both gross and potentially net, but gross interest now is our second biggest spend. I just had to redo the math because our math right now looks like, for 2024, we are going to cross \$1.1 trillion of just interest this year.

I know for many people who are forced because you are employed to sit here and listen to an idiot like me talk, you have heard this before, but it doesn't seem to sink in.

Is pay \$1.1 trillion Republican or Democrat? It is math.

Yet, we are not allowed to actually talk about it because the hallways in this place are full of people coming to our doors wanting more spending, and when you point this out to them, they will often say: Well, take it from someone else. I want my money.

It is not your money. It is the taxpayers' money.

On Medicare—and Medicare is rising rapidly—healthcare costs, and then defense, for all of my brothers and sisters on the left who always say: Cut defense, cut defense.

Okay, it is sort of stupid, but it is the number four expense. It is not number one.

How often would you and I go home to our constituents and say: What is the biggest spend in government?

Oh, it is defense.

No. Defense is now number four.

Moreover, at the trendline, in the next few years, healthcare will actually be number one; interest will be number two; and Social Security, believe it or not, will be number three or right tied to it. It is a very tight number there.

Let's actually walk through the '24 spend because I want to be able to get our heads around this. Social Security was a fascinating number, and we have been trying to also average in the new appropriations bills. Remember, Madam Speaker, we are just now finishing up our 2024, so we are only 5 months late. It is the net interest because the United States does something no other industrialized country does. We play a game with how we describe our borrowing: Oh, that is borrowing from the public. This is borrowing from the trust funds.

If anyone is listening right now and you question this, go on the OECD. Google right now, or your favorite search engine: What is the debt to GDP of the United States according to OECD?

You are going to get a number that is like 144 percent because they don't let the scam artists say: Well, you borrowed it from yourself, but you still have to pay it back, and you are going to have to actually borrow money while you pay it back while you are paying interest for it.

It is a con. We should never allow discussions in this place and not use the terms "gross borrowing" because, what, is it magic money? We don't have to pay it back? It is just money we didn't have to go float publicly traded bonds for, but we still have to pay it back.

The reason I built this chart is I wanted you to see a line right here. Even the net interest, so the publicly borrowed money, the interest we will pay on that is still the second biggest spend in this government. I will say it, and it will probably just land on deaf ears.

Let's actually walk through something that is really uncomfortable, and it is going to tie in. One of my fixations is: How do you stabilize borrowing so that borrowing equals what our economic growth is?

Madam Speaker, I am going to show you some charts here later. This is for the people who actually care about economics.

Here is the growth of the country, and here is the debt of the country. If you could ever bring the GDP growth and the debt in line, then you have created stability. Nonetheless, we have some crazy headwinds. There are also some crazy opportunities happening to us. There are good things happening out there. Will Congress be the barrier or the adoption of them? Right now, we are the problem because we are scared of our own shadows.

Madam Speaker, if I came to you right now and said: Let's come up with a way to stabilize Social Security, and let's stabilize Medicare. It is moral. It

is our moral obligation. We made a social contract in this society.

Okay, we have a problem, and it is all something almost no one here ever talks about: We are not having children. United States' fertility rates have collapsed.

This number is wrong. Our latest number for last year is not 1.64; it is 1.63. France has a higher fertility rate than the United States. Even when you adjust for the immigration population, they still have a dramatically higher fertility rate. Most of Western Europe looks like us, and we are worse than a whole bunch of the world.

Madam Speaker, how do you and I set public policy so 25 years from now—remember, Social Security is substantially a pay-as-you-go system. Today's workers are functionally paying for today's retirees. The trust fund was the shock absorber. The trust fund is disappearing, but my future generation of workers is going to be smaller.

Madam Speaker, you are already seeing this in school districts all over America. The number of students they have is shrinking.

Are we willing to have the really interesting discussion of, okay, are there things we could do economically to promote family formation so there are more children?

There are things we could do to help, but almost every country that has tried has not been able to change fertility rates. I think in Hungary I saw something like the third child, they buy you a house. The fourth child, you get some sort of prize. It has barely ticked up their fertility rates. It is a really difficult question happening all over the industrialized world.

If you can't really change it, Madam Speaker, do you actually build public policy to deal with it? Do you accept the fact that we are going to have a lot more automation? That means capital investment. Are we going to have to find ways to safely adopt artificial intelligence into society so that the labor force is maximized in its value, what they earn, and productivity? Those are policies we need to work on.

You have seen the intellectual capital of the conversations we have on the floor here, Madam Speaker. How many of them are actually ready to actually have the reality of: Hey, we need to set policies.

Is it Republican or Democratic? It is demographics. It is life.

I am going to bounce to the next two boards because there is a punch line here we need to absorb.

This is a little uncomfortable, but this was deaths that are projected to exceed births. The new math, in 15 years, you have to understand what a big deal this is, Madam Speaker. I came behind this microphone a couple of years ago, and I got some real crap that was sent to my office. I think at that time I was saying: Hey, in 21 or 22 years, we are going to have more deaths than births in this country. Then it became 18 years. Then it became 17 years. The new math is 15

years. In 15 years, the United States will have more deaths than births.

The blip you see here is the pandemic, but if you actually look at the line, Madam Speaker, you can sort of understand. Here is our crossing. Somewhere a little before 2040, which is 15 years, we have more deaths than births.

Now, try to stabilize long-term benefits. There are ways to do it. This Congress right now is mathematically incapable of owning a calculator, but there are ways to do it. We can't even put together a debt and deficit commission to have an honest conversation about what is happening in our society demographically, borrowing-wise or interest-rate-wise, because maybe it will affect the next election.

Does anybody actually care about their own pensions let alone their kids' and their grandkids'?

We lied. There is not magic money out there. This inflation cycle proved to those who believed in modern monetary policy, ta-da, you have 36 months of high inflation. That is the ultimate proof that the magic money theory didn't work.

Here is the punch line: Social Security actuaries is the green line. They actually had fertility rates going up. These were our baselines. The baselines also already have continued to show that they are wrong.

Madam Speaker, be prepared over the next year to see dramatically different numbers coming at us on what our future looks like when financing this society because our next generation is going to be smaller.

It is just math. There are ways to make it work. There are ways to make this a society of prosperity. It just requires intellectual capital, and that is something I am not sure we are ready to do.

Let's do a quick run-through. This was just the first 3 months, and I brought these boards back because I saw some things over the weekend where people were just making up the numbers. It is not that hard. You can go right to the Treasury's website. You have to own a calculator. Spend an hour laying it out. You know how to work Excel.

The national debt increased in the first 3 months. This was important. This is the 2024 number: \$834 billion. If this is the first 3 months, and it is \$834 billion, now I can hope maybe there will be magic tax receipts, but multiply that times four, and you will see what we are projecting.

The part of the punch line is interest continues to grow. I am going to show you why some of this is, but in the first 3 months, we spent \$288 billion in interest, and that number will keep getting bigger and bigger because this year—and there is a debate on how much because the Treasury announced they are going to be financing rolling some of the debt shorter on the curve.

Let's say we had a year where we are going to borrow \$2.8 trillion new

issuances, but you still have about \$7.9 trillion that comes due. It is bonds that have been sold in the past. When they come due, particularly if they are bonds sold 3, 4, or 5 years ago with very low interest rates, what happens? They are now sold at the newer, higher interest rate, and that is the modeling problem.

Madam Speaker, do you remember one of the first boards I showed you, that we expect interest this year to be \$1.1 trillion? A lot of that is because the amount of debt is coming due. It is coming due, and we stayed very short on the curve instead of what I begged for a few years ago saying: Please, go long in the curve. Go long because that way at least you locked it in.

Understand, because Congress doesn't want to be in charge because you have a White House here that makes crap up—and I can prove that on a bunch of the numbers that they published last year—the bond market now runs this country.

Madam Speaker, hear my words. The first time the bond market gets cranky, the first time we have an undersubscribed auction, watch how fast this place comes in and we capitulate. It doesn't have to happen, but because we have abdicated our jobs, we have basically made a decision—and this happened actually not that long ago.

Go ask some people who were involved in the Clinton administration. Go ask Newt Gingrich. Some of the people were around when the bond market hiccupped. The debt situation then was dramatically better than today. This Congress stood at attention and did what they needed to do to make the bond market happy. That is because if you have a failed bond auction, Madam Speaker, then you will see society have a really bad day.

Let's walk a little more through some of these.

The total interest costs continue to rise very quickly. I am just trying to make a point here. The first 4 months, if this was 2021, we spent \$159 billion in interest. This year, our first 4 months, was \$357 billion.

Remember my point I was trying to make, Madam Speaker, interest and healthcare costs—we are going to knife each other here over discretionary.

Understand, Madam Speaker, I have some things I would do in discretionary. I am going to talk about it, and I promise you there will be a television ad attacking me, but it is honest.

Nonetheless, we don't control this. The thing we can do is if we convince the bond markets we are taking the debt seriously, then maybe the interest rates to buy our debt will get more efficient and get lower.

Be that as it may, the only way the bond market gives us that spiff is because we do our work, and we have proven over and over we are incapable of doing our work.

□ 2000

This was my calculation as of a week and a half ago, and now it has gone up again, but we were basically trying to say—my frustration was, last September, we were projecting interest is only going to be \$709 billion. Then, when we got a little beyond that from October to January, we borrowed 357, and then you started to annualize that, and that is how you are getting closer. Now that is actually going up from that.

I am just trying to make a point. CBO, OMB, a lot of the people around us, they are good people. Their projections—something has gone horribly wrong in our math and our modeling. We keep being really off the mark. These are dangerous.

If you are on the left and you care about social welfare policy and the ability to afford that, if you are on the right and your fixation is economic prosperity and opportunity, we are going to crush both sides. It is right in front of us, and we do almost nothing to tell the truth about it.

I brought some boards about interest rates. I don't know if anyone really cares, but when you start to understand that the differences out there—marketable and unmarketable—unmarketable are payments to trust funds and other things; marketable is you have a bond and you can sell it tomorrow—you have those interest rates and outstanding debt. Also, remember, much of this debt had been sold down here in the trough, around 1½ or so was the mean yield. Now it is coming in at well over 3. You say: What? Just understand that difference is you just doubled your interest costs.

Let's go into something that is uncomfortable. One of the first boards I showed, I showed that every dime a Member of Congress votes on is borrowed.

I haven't vetted this. It was actually, I think, in an article in "The New York Times," so God knows if that is accurate. The budget bills that will be coming to us in the next couple weeks will have around 7,000-plus earmarks in them. Now, the earmarks are only a tiny, tiny fraction of the spending, okay? Accept what it is.

A really uncomfortable question: Is it actually moral—is it good economics to borrow money, because that is what we are doing—everything we are going to vote on here is we are borrowing money, and many of these are things I like. However, is it appropriate to borrow money here and send it to entities that actually have their own taxing authority?

It gets better. It turns out we spent a little time looking at municipal bond debt earlier today. Do you know cities, States, counties, particularly the highest rated ones, those with AAAs, and you have to do the tax adjustment because muni bonds have certain tax benefits, many of them actually have lower interest rates than the United States sovereign debt, so a well-run

city with a really good credit rating actually gets to float bonds at lower interest rates than we do.

That should tell you something. Is it rational, moral, that we borrow money and send it to entities that have both their own taxing and borrowing authority, and many of those entities actually can borrow money at equal to or better than what we are paying over here?

Of nondefense discretionary, about 40 percent of the money in that non-defense discretionary is money that we are sending to entities that have their own taxing and borrowing authority.

Now, we would all probably get unelected the next day because people would lose their mind saying: We thought that was free money. It is free money, except we are borrowing it and paying interest on it.

Those are the types of things, are we capable of having an honest discussion about it? Of course not, but we could try.

All right. A couple more here, and then I am going to go back to the office and have more coffee.

There is often an argument, you can borrow money, but you need in the long run to keep it close to the growth of your economy. How often do you hear people talk about the debt to GDP and the fact that the United States now is functionally at 100 percent of public and borrowed and, if you do total gross, you are well over 140 percent of debt to GDP?

Let's use that entity, and then we adjust for inflation, because remember a dollar the day President Biden came into office and a dollar today, that dollar today is worth 22, maybe 23 percent less, so you have to do all these inflation calculators.

However, this is actually—what is the fancy word—“*ceteris paribus*,” “all things being equal.” I am trying to point out the increase in national debt. This is the increase in GDP over 2023. If this growth here in this debt were right about this green line, you would actually have been stable.

In a weird way, when you have a politician stand in front of you and say: We are going to pay it off. Really? Did I mention every dime we vote on is now borrowed, plus close to a trillion dollars of things we don't even get to vote on, mandatory spending, things like Medicare, is borrowed?

It would be nirvana if we could just work our heinies off and get stability, bring down the growth of this debt so it would match our growth rates. The benefit of that is, for the left, if they want to spend more money, great. Growing the economy more creates more capacity; more tax receipts, more borrowing capacity.

For those of us who want to cut, we actually know the number we are working towards. That is how we would do it if we had put on our economist hat.

Same concept, just a little bit differently done. Increase in national debt

outpaced growth in the economy by more than \$1 trillion over the past year, and that is what that bond market is going to be looking at. It is that debt to GDP and when does it hit stress; when does a spike in interest rates; when does a recession; when does a pandemic; when does a war make it so in all likelihood you will be paid back your interest and your principal?

Understand, when the United States actually has—and, dear God, please don't ever let it happen—that moment of stress, that failed auction, we put the entire world into a depression. The entire world, let alone your pension, let alone my kids' future, depends on us getting our act together here.

The last chart—and this one is a little difficult because there are some anomalies in the numbers, but we didn't have time to fix it. On occasion, we will go all the way back to 2000. Now, remember, 2000 had an unusual tax collection year because, the year or two before that, there were massive capital gains because of the dot-com bubble, so the number is always distorted.

Anyway, for that year, we collected 20 percent of GDP in taxes. The long-run average has been about 17.8.

Let's actually go to 2023. That year, we collected 16.5 percent of GDP in taxes. We still had some of the legacy of COVID and some other things.

However, the other part of this chart, I am trying to show you the hierarchy of spending—Social Security, Medicare, defense, others—and you start to see this spending up here, when you start seeing that green, well, the green is nothing but interest.

Our problem is, even with the projections, which I hope are right, that long run over the next 8 years or so, we start getting up close to 18 percent of the economy in tax receipts. Great.

The gap still continues to widen, and most of that widening is our projection of the benefits we have promised our brothers and sisters who get older—or the 67 million of us who are baby boomers—our healthcare benefits, the interest we owe, and then back to the point earlier.

What do these numbers look like in 2033, 2034, when the Social Security trust fund is empty? Will the policy be we are going to raise taxes? Okay. Except I have already done the presentation multiple times on the floor where I have brought in the economic data from both liberal groups and other groups that showed even tax maximization. This is the punch line.

Please understand. The tax maximization, when you do the economic effect, you get about a point and a half of GDP. So you take people worth \$400,000 and tax maximize everything for them—tax maximize their income tax, their capital gains tax, their estate tax, you just do it all—you get about a point and a half of GDP. Great.

And then, over here, for those of us who want to cut things, you take everything that has been discussed in dis-

cretionary—the debate we have had in this place the last several months—and it is a fraction of a fraction of a percent. It is not even a rounding error. You would have to change programs, change spending, adopt technology, make people healthier.

Understand, the single biggest thing you can do to bring down borrowing over the next decade, take on things like diabetes, which is 33 percent of all healthcare spending. It would be moral. Is that Republican or Democrat? It is just the right thing to do.

How many brilliant discussions have you seen behind these microphones of saying we are actually looking for real solutions? No, we are too busy knifing each other.

I can find about a point and a half—a point of GDP to cut. Okay. I have got a point and a half over here, let's say it is a point and a half over here on this end. This year, so far, we are borrowing 9.6 percent of the entire economy, 9.6 of all GDP, and all the solutions are a fraction of that.

Yet, the left is going to come behind the microphone and say: We don't tax rich people enough. The right is going to come in saying: It is foreign aid and spending. Well, foreign aid equals around 7, 8 days, maybe 9 days of borrowing, every dime of it.

Why can't we just tell the truth?

Madam Speaker, every dime of borrowing from today through the next 30 years is demographics, and maybe telling the truth gets me unelected, but, dammit, it is worth telling the truth. It is demographics. It is interest on what has been borrowed and what is to be borrowed. It is healthcare, particularly Medicare, and if, 8, 9 years from now, when the Social Security trust fund is emptied—remember, the math is the very first year of the shortfall is \$616 billion.

How do we backfill that? If you try to backfill through taxes, fine. You have to accept the economic effects of how much you just slowed down the economy and how you slowed down other tax receipts.

Do you do it through borrowing? Well, then it explodes, and that is how you see some projections that, 30 years from now, U.S. sovereign debt will be \$130 trillion. Between now and then, how many people around the world and how many people in this country are going to be willing to buy our debt?

Do our work, take it seriously, put together the debt and deficit commission. Demonstrate to the people who want to save and buy U.S. debt that we are taking paying them back seriously. Take it seriously that my—I have very young kids. They deserve a future. Also make it so that people who want to enjoy their retirement understand the stability, retirement security. We all say it, and almost none of us are willing to actually do the work for it.

Madam Speaker, I am going to go have some more coffee, and I yield back the balance of my time.

WOMEN'S HISTORY MONTH

The SPEAKER pro tempore. Under the Speaker's announced policy of January 9, 2023, the gentleman from Illinois (Mr. JACKSON) is recognized for 60 minutes as the designee of the minority leader.

GENERAL LEAVE

Mr. JACKSON of Illinois. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of the Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. JACKSON of Illinois. Madam Speaker, it is with great honor that I rise today to coanchor this Congressional Black Caucus Special Order hour along with my distinguished colleague, the Honorable Representative SHEILA CHERFILUS-McCORMICK.

For the next 60 minutes, Members of the Congressional Black Caucus have an opportunity to speak directly to the American people on women's history, an issue of great importance to the Congressional Black Caucus, Congress, the constituents that we represent, and all America.

Madam Speaker, I yield to the gentleman from Rhode Island (Mr. AMO).

Mr. AMO. Madam Speaker, I rise today to honor Women's History Month.

We cannot forget our history. Yet, over time, the contributions of Black women have been consistently overlooked and forgotten.

□ 2015

I want to do my part to correct that record.

Specifically, I will highlight two trailblazing Black women from Rhode Island.

First, I want to honor Christiana Bannister, a successful businesswoman, abolitionist, and philanthropist. Born in North Kingstown in the early 1800s, Christiana was a successful hair salon owner.

Christiana was a staunch abolitionist and used her wealth to support the 54th Massachusetts Infantry Regiment, a unit of Black soldiers during the Civil War.

Dedicated to improving the lives of Black women in her community, Christiana founded the Home for Aged Colored Women in Providence.

Decades later, Maria Lopes, another trailblazer, was the first Black woman elected to the Rhode Island State Legislature and she carried on Christiana's legacy of activism in Rhode Island.

Maria lived in the Valley View housing project in Providence and made a name for herself as a social activist when she successfully blocked the Mayor of Providence from turning the housing project into luxury apartments.

In 1973, Maria stormed the city council chambers with over 400 residents

and supporters to prevent the sale of Valley View.

Thanks to Maria's advocacy, when Valley View was eventually sold, 25 percent of the units remained Section 8 housing.

In 1989, Lopes won a seat in the Rhode Island House of Representatives where she served for over a decade, championing affordable housing issues.

I certainly would not be standing here today as Rhode Island's first Black Member of Congress if it were not for the tireless work of Maria Lopes and Christiana Bannister.

Women's history extends beyond the confines of March. Women's history is happening every single day and is worth acknowledgement every day, as well.

We must continue to uplift the hidden figures in our history.

Mr. JACKSON of Illinois. Madam Speaker, I thank the Honorable GABE AMO from the great State of Rhode Island for his remarks.

Madam Speaker, it is my pleasure to yield to the gentlewoman from Florida, the Honorable Congresswoman SHEILA CHERFILUS-McCORMICK.

Mrs. CHERFILUS-McCORMICK. Madam Speaker, I thank my coanchor, JONATHAN JACKSON, from the great State of Illinois for coanchoring this Special Order for the last year and a half I think it is.

Madam Speaker, I rise today in honor of the courageous Black women trailblazers whose determination and unwavering dedication have shaped the history of our country. Because of them, I can speak before you on this floor today.

As we celebrate Women's History Month, we reflect on the courage and the commitment of Black women who have left an indelible mark on our society and inspired future generations to carry the torch of justice.

Among these trailblazers stands Shirley Chisholm, who shattered the glass ceiling in American politics. She holds a special place in my heart.

Shirley Chisholm broke down the barriers and beat the odds to become the first Black woman elected to Congress in 1968. She proudly fought for the rights of neglected communities and progressive politics that benefit working families.

Her historic 1972 Presidential campaign upended the status quo and gave hope to a new generation of leaders by encouraging them to trust in the strength of their voices.

However, Shirley Chisholm wasn't alone. She was surrounded by women such as Barbara Jordan, a powerful force in American politics due to her unrelenting devotion to justice. She made history by being the first Black woman elected to the Texas Senate and the first Black woman from the South to be elected to United States House of Representatives. She worked nonstop to advocate for civil rights, immigration reform, and the rule of law.

Last year, we mourned the loss of Eddie Bernice Johnson. I had the honor

of serving alongside her at the end of the 117th Congress. Her whole life was about serving others, whether it was as a nurse at the VA in Dallas or in the Halls of this very institution.

These trailblazers and countless others who followed in their footsteps have made a lasting impression on women's history. Their legacy is proof of the perseverance of the American people. We can pay tribute to these extraordinary people during Women's History Month by recommitting to the fight for justice, equality, and opportunity for all Americans.

In their honor, let us strive to create a better union for all the generations to come.

Mr. JACKSON of Illinois. Madam Speaker, I thank the Honorable SHEILA CHERFILUS-McCORMICK from the great State of Florida for her remarks.

Madam Speaker, it is now my privilege to yield to the gentlewoman from Ohio, the Honorable Congresswoman JOYCE BEATTY.

Mrs. BEATTY. Madam Speaker, it is my honor to rise today to join my colleagues for this Special Order hour. I cannot think of a better time that I would stand in this House and be able to salute women, especially Black women.

I thank our coanchors, the Honorable JONATHAN JACKSON and the Honorable SHEILA CHERFILUS-McCORMICK, my good friend, for reminding us of our rich history.

Today, we will hear many members of the Congressional Black Caucus come forward and talk about a list of women, especially Black women, who came before us and whose shoulders we stand on, like Rosa Parks, Harriet Tubman, Sojourner Truth, and Shirley Chisholm. Later this week, in this very Chamber, for the third time, a woman will sit in the seat where you are sitting, Madam Speaker, as we hear the State of the Union Address—a Black woman, who also happens to be the first woman ever to become Vice President of these United States of America.

We also celebrate this month—sadly, that we are giving it 1 month. Obviously, if I had my way, we would celebrate it every day, but we will honor women like those who have been able to sit in that seat running Fortune 500 companies—people like Ursula Burns; my good friend, Roz Brewer; and now Thasunda Duckett. We also honor young women like poet Amanda Gorman.

We think of the women who have done so much, whether they are doctors or athletes or educators or judges like Supreme Court Justice Ketanji Brown Jackson—another Black woman whose shoulders we stand on.

But let me end with this, Madam Speaker, as we saved the best for last. There are 31 Black women serving in the United States Congress. If I had enough time, I would do a roll call telling you that they hail from Alabama to Washington, D.C.

Let me just leave it at this: 31 Black women—thank God we put people over

politics; 31 Black women serving in this Chamber that understand that we have a right to women's reproductive rights; 31 Black women understanding that we support the child's tax credit; 31 Black women who understand that more women are now insured because of the Affordable Care Act; 31 Black women who understand that the first act that then-President Obama signed was the Lilly Ledbetter Act.

I could go on and give you a walk through this amazing history that I have been allowed to serve in as the ninth Black woman to have chaired the Congressional Black Caucus. I say to you that we have been fortunate to have another female sit in that chair as the Speaker, NANCY PELOSI.

To those who are witnessing us tonight, I say to all watching, we celebrate, we honor, we stand on the shoulders of women, especially Black women, because we know when women succeed, America succeeds. Let us continue to put people over politics.

Mr. JACKSON of Illinois. Madam Speaker, I thank the former Congressional Black Caucus Chairwoman, the Honorable Congresswoman JOYCE BEATTY from the great State of Ohio for her remarks.

Madam Speaker, it is now my privilege to yield to the gentleman from New Jersey, the Honorable Congressman PAYNE.

Mr. PAYNE. Madam Speaker, I thank the gentleman from Illinois for that kind introduction and also the gentlewoman from Florida for hosting this Special Order hour. They come here every week bringing the message from the CBC, and they do an incredible job.

Also, it is very difficult to follow my classmate, the former chair lady of the CBC. It is a very hard act to follow. When I see her, I kind of cringe because I know I better get it together. The Honorable JOYCE BEATTY has been a true friend, sister, and colleague to me.

And to you, Madam Speaker, as you sit in that seat, it is apropos that this month you have been given the honor to stand over the Speaker's rostrum and control the House of Representatives, so I salute you, as well, as a woman.

Madam Speaker, I rise today to celebrate the influence and achievements of Black women in America during Women's History Month. First, I will discuss the origins of Women's History Month.

Women's History Month started as Women's History Week in Santa Rosa, California, in 1978. The local Sonoma County Commission on the status of women planned a week of celebratory events to connect the International Women's Day on March 8.

The events highlighted the many contributions of women to American history, culture, and society. It included school presentations in Sonoma County, a student essay contest to honor local women with the parade through downtown Santa Rosa.

The year after that, Santa Rosa's historic week triggered similar events to celebrate women in communities nationwide.

In addition, historians and women activist groups began to push for a National Women's History Week.

In 1980, President Jimmy Carter issued the first Presidential proclamation to declare the first week in March as National Women's History Week.

However, 1 week was not enough to celebrate the enormous contributions of women to American history, so Congress created Women's History Month in 1987. It is stated that the month would recognize the specific achievements women have made over the course of America's history in a variety of fields.

This month, we honor women from all races, cultures, and creeds during Women's History Month. However, we are here today as the CBC to honor Black women who have made a difference in America, and many of them need to be recognized more often: Women like Bessie Coleman, the first Black woman to be a licensed pilot in this country; Alice Coachman, the first Black woman to win an Olympic medal for the United States of America; Dr. Rebecca Lee Crumpler, the first Black woman to earn a medical degree in the United States; Phillis Wheatley, the first Black woman to publish a book in this great country; and Mary Jane Patterson, the first Black woman to graduate from an established college.

We also have Mary Eliza Mahoney, the first Black nurse and eventual co-founder of the American Nurses Association. More than that, Mahoney was one of the first women to register to vote in Boston after her retirement in 1920.

Maggie Lena Walker, the first Black woman to start a bank and serve as the president of a U.S. bank.

Alice Dunnigan, the first Black woman to cover the White House as a reporter.

Mae Jemison, the first Black woman to become an astronaut and go into space. Jemison overcame her fear of heights to do that. Can you imagine?

□ 2030

These extraordinary Black women are a few of the millions who have made a difference in our country. Today, Black women are setting new standards of excellence in the sciences, the arts, athletics, politics, mathematics, education, medicine, and the law, just to name a few.

I am proud to be here to celebrate the contributions of Black women—I am the product of a Black woman—and all women, to the betterment of America. They have helped to build this country, and we must do everything possible to protect the rights they have worked so hard for. As we discuss the whole notion around Black women and what they have contributed to this country, let's not forget all women and what they have done in this country.

I am just honored to be here on the floor tonight to say thank you to the many Black women who have made a difference in my life. To name a few: Jean Blakely; Esther Wright; Kay Thompson Payne; Dr. Jacqueline Young; Wanda Payne, my late sister; Sarah Jones.

I have been molded by Black women all my life, and I just feel an obligation to stand in the trenches and help them advance their careers. I am just really delighted to be here and express my gratitude to Black women and women as a whole.

Mr. JACKSON of Illinois. Madam Speaker, I thank the Honorable Congressman DONALD PAYNE, Jr. from the great State of New Jersey. It has been a pleasure of mine to have worked with his father and to see his honorable son continue on in his tradition.

Tonight, in this great Chamber, we gather to honor and remember the contributions of women to the indispensable future of the American experiment with democracy. In particular, I rise to give special commendation to the role that Black women have played in the formation of American possibilities.

It is not such a stretch to suggest that America would be unlivable for a great many of its citizens were it not for the indelible work and prophetic imagination of women in this country.

Where would this country be without Eleanor Roosevelt, Ella Baker, Fannie Lou Hamer, Shirley Chisholm, Diane Nash, NANCY D'ALESSANDRO PELOSI, the Honorable Congresswoman MAXINE WATERS, Congresswoman SHEILA JACKSON LEE?

Black women, and all women really, are the fabric that holds this Nation together because when men have followed their egos and ambition into war and repression, it was the women of this country who stood up to the madness, demanding ever more forcefully that the center must hold.

On this side of the aisle, we still believe that every woman should have the right to vote, the right to equal pay for equal work, the right for every opportunity and resources available to any man.

We believe that when at all possible no woman should ever lose her life giving birth to a child in the United States of America.

We believe that the maternal mortality rates of Black women are a moral indictment against the persistence of bigotry and discrimination in America.

On this side of the aisle, we believe in the right of every woman to control what happens to her body as a matter of reproductive justice, personal autonomy, and self-determination. How dare any man tell a woman what she can do with her body? How dare any government come in between a woman and her medical decisions? How dare any political party use a woman's body as an opportunity to get elected rather than respecting the fact that every woman is made in the image of God?

That is the difference between this side of the aisle and, I must say, the other side of the aisle. This side of the aisle gave the Nation Supreme Court Justice Ketanji Brown Jackson to be the first African-American woman to sit on the Supreme Court.

The other side of the aisle has spent the last 50 years trying to destroy *Roe v. Wade*. Even after they facilitated that disaster, they even are now trying to undermine in vitro fertilization, because that is the difference between this side of the aisle and the other side when it comes to issues that matter.

This side of the aisle produced the Honorable NANCY PELOSI, who was principally responsible for passing the Affordable Care Act that has allowed millions of people to come out of the suffering shadows and receive the healthcare coverage they deserve.

On the other side of the aisle, leaders of that party facilitated a racist lie regarding the birth certificate of the former President of the United States, President Barack Obama.

This side of the aisle facilitated the passage of Title IX. Many people are excited to see women playing basketball now, but that was part of the civil rights legislation that we hold dear. Title IX is a law that prohibits sex-based discrimination in schools or any educational programs. Some have said that this law has single-handedly been the reason little girls all over America enjoy opportunities that their grandmothers never had.

On this side of the aisle, we believe that every child is precious and that every little girl is a gift from God, and on this side of the aisle we don't want our sons to have any more opportunities than our daughters get to enjoy.

On this side of the aisle, we fight to expand freedom, opportunity, and the securities of justice to every American regardless of race, class, gender, or sexual orientation.

I can't speak for anyone else, but on this side of the aisle, we believe the Bible when it says your sons and your daughters shall prophesy.

Let me remind you today that, as a son of the civil rights movement, I am keenly aware of the fact that the movement that made my election possible would have been improbable were it not for Black women. I stand on the shoulders of many of these remarkable Black women who through their insight, their grit and generosity support the weight of generations yet unborn.

I see them all over my home district in Chicago and the greater part of Illinois. I have encountered them in the churches on the south side. They raised me. My mother is one of them, as are my sisters. They say hi to me in the supermarket. They meet me all over the district to talk to me about our Nation, their needs, and their lives. They are the daughters of thunder and the children of light.

Today, I am honored to recognize them. Today, I proverbially tip my hat and genuflect in the presence of such unusual greatness.

I am grateful today for the women in this Chamber who are my colleagues. I am grateful for what they do and for what they represent. Let us never forget that at the founding of this great institution, at the founding of this great country in 1776, and at the ratification of our Constitution in 1787, it was never in the imagination of the Founders that a woman would sit in these Chambers or cast votes as a Member of this body. However, look at what determination and faith can do. Look at what hard work and love for justice can do. I celebrate each of the honorable women who serve in this Congress, and I pray that this country will continue to provide greater room and greater opportunities for the genius of this Nation's women so that they can flourish and we can live up to our highest potential.

Madam Speaker, I yield to the gentlewoman from Florida (Mrs. CHERFILUS-McCORMICK).

Mrs. CHERFILUS-McCORMICK. Madam Speaker, as we gather here today, we must recognize and honor the contributions of Black women in politics. These leaders have paved the way for all women to have a seat at the table.

When we look back at significant historical events like the civil rights movement, we tend to overlook the women who played significant roles behind the scenes. The time to acknowledge their contributions and celebrate their achievements is long overdue.

There is one particular person who I would like to highlight, Ms. Prathia Hall. Born on January 1, 1940, she was known by various titles, including mother, preacher, feminist, and civil rights activist. Most importantly, she was the key inspiration behind Dr. Martin Luther King, Jr.'s prominent "I Have a Dream" speech delivered during the August 1963 March on Washington.

Despite experiencing racism and personal tragedies from a young age, Hall was able to follow in her father's footsteps and become a passionate advocate for racial and social justice.

This story is simply one of many who, despite being a key piece to the puzzle of our democratic system and making up 7.8 percent of the population, Black women are less than 5 percent officeholders elected to serve in executive offices, Congress, and State legislatures.

Black women have given 110 percent of their time and efforts in leading and serving as attorneys, plaintiffs, organizers, educators, secretaries, and while playing many more roles in the background.

March is a significant month to honor the contributions of Black women in American history. We shouldn't just honor the legacy of Prathia Hall on this single day. It is our responsibility to honor her every single day from now on.

As Black women continue to struggle for representation, we have a responsibility to ensure that the progress made

by Black women in the past is not lost. We have a responsibility to pursue and fight for equality for everyone and make sure our fight for equality is eventually attained.

Mr. JACKSON of Illinois. Madam Speaker, you have heard from my distinguished colleagues about women's history and the many great contributions they have made.

Madam Speaker, I yield to the gentleman from Nevada (Mr. HORSFORD), the Congressional Black Caucus chairman.

Mr. HORSFORD. Madam Speaker, I thank Congressman JACKSON and Congresswoman CHERFILUS-McCORMICK for co-anchoring tonight's Special Order hour. I thank all the Members who have come to honor the start of Women's History Month, and I rise today with my colleagues of the Congressional Black Caucus to commemorate Women's History Month and to reflect on the innumerable contributions to our country that women, and Black women specifically, have made throughout our Nation's history.

During Women's History Month, we celebrate the generations of Black women whose courage, advocacy, sacrifice, and patriotism have moved our country and the world forward. For generations, Black women have been hidden figures, leading our country through social evolutions, critical periods of growth, and eras of innovation.

From the civil rights movement to consistently serving as a foundation for our community's success, Black women continue to push the needle. In fact, to the co-chairs, just this weekend we were in Selma for the 59th commemoration of Bloody Sunday.

One of the people that we had the honor of hearing from was Ms. King, who was the person who received the letters from Dr. Martin Luther King, Jr., when he was writing the letter in a Birmingham jail. As she explained that process, it was his handwritten notes on scraps of paper that were passed to his attorney that ultimately were written by this Black woman that actually gave us that letter. I went up to her after the conclusion of her panel, and I thanked her for being a part of history and being a part of the movement that led to the passage of the civil rights legislation and so many important bills.

□ 2045

It was also in 1968 when Shirley Chisholm became the first Black woman in Congress. She, along with her colleagues, sought to make America live up to its promise that we are all created equal and, in this body, founded the Democratic Select Committee, which ultimately would become the Congressional Black Caucus.

I am so honored to serve as chairman of this Congressional Black Caucus, and I am proud to say that today we are now comprised of the largest membership in our Nation's history.

The CBC has grown from 13 members when we were founded 52 years ago to

60 members representing more than a third of the U.S. population, including more than 20 million Black Americans.

It is on Shirley Chisholm's shoulders that the Congressional Black Caucus has continued to fight to dismantle barriers, to create opportunities, and to protect the very rights of every individual, regardless of their circumstance, because we believe, as Ms. Shirley Chisholm believed, in a future where everyone can thrive and achieve their full potential.

Every day, we build on the legacy of Representative Shirley Chisholm, understanding that we must always speak truth to power and to stand up for the values that we hold dear.

We remain mindful that we must work to push back against efforts that impede progress, including those to roll back women's rights or to cut off access to capital and better opportunities.

This month and every month, we will remain mindful that we must directly address the challenges that persist, particularly for Black women in this climate.

Black maternal mortality is at an all-time high. Access to reproductive care; the ballot box; fair representation; diversity, equity, and inclusion in the workplace and in corporate America; and fundamental freedoms are under threat every day.

As the conscience of the Congress, the Congressional Black Caucus will continue working, fighting, and leading to protect abortion rights, to invest in childcare, to deliver paid leave, and to finally achieve pay equity for Black women and to close the racial wealth gap in America.

These are the priorities that the Congressional Black Caucus believes are important as we uplift the issues of Women's History Month.

Again, I thank our co-anchors for leading tonight's Special Order hour and all of our members and especially the women of the Congressional Black Caucus.

When we started 52 years ago, the CBC was made up of 13 people—12 men and 1 woman. Today, I am proud that of those 60 members of the CBC, 31 are women, Black women, who are leading in the Congressional Black Caucus.

We have come a long way. We have a much longer way to go. I thank the members for their work on these important topics.

Mr. JACKSON of Illinois. Madam Speaker, I thank the tireless fighter, our leader, the chairman of the Congressional Black Caucus, Chairman STEVEN HORSFORD, from the great State of Nevada. I also thank my co-anchor, the Honorable SHEILA CHERFILUS-MCCORMICK, from the great State of Florida.

Madam Speaker, you have heard from my distinguished colleagues about African-American contributions to American history and Women's History Month, all issues of great importance to the Congressional Black Cau-

cus, our constituents, Congress, and all Americans tonight.

Madam Speaker, I yield back the balance of my time.

CONTINUING TO CELEBRATE BLACK HISTORY MONTH

The SPEAKER pro tempore. Under the Speaker's announced policy of January 9, 2023, the Chair recognizes the gentlewoman from Michigan (Ms. SCHOLTEN) for 30 minutes.

Ms. SCHOLTEN. Madam Speaker, each February, we come together as a nation to celebrate Black History Month. While we may have just closed out Black History Month, our celebration here in Congress and back home in west Michigan continues.

This year, I had the honor of partnering with the Grand Rapids African American Museum and Archives to elevate the stories of west Michigan's heroes, barrier breakers, and change-makers who shaped the course of our community and our Nation's history.

I am proud to offer these six stories of change-makers from Michigan's Third Congressional District. Here are their stories.

First, as we stand at this bridge between February and March, Black History Month and Women's History Month, as we just heard from our incredible Congressional Black Caucus, it is appropriate to begin with our first story, the story of Emma Warren Ford.

Mrs. Ford was a well-known community organizer who challenged Jim Crow laws and protested discrimination in the late 19th and early 20th centuries.

She began her work in the African Methodist Episcopal Church and the Women's Christian Temperance Union, the WCTU. At the 1982 WCTU State convention in Benton Harbor, she was appointed as the superintendent of the Work Among Colored People.

She was a founding member of the Married Ladies' 19th Century Club, hosting meetings and leading activities for the first literary and social club for African-American women in Grand Rapids.

In 1913, Mrs. Ford was chosen by Governor Woodbridge Ferris to represent the State of Michigan at the 50th anniversary celebration of the Emancipation Proclamation in New York. What an honor for west Michigan.

Our second story is the story of Paul Phillips. Phillips grew up in Omaha, Nebraska, where he set a State record in track, earning himself a scholarship to Marquette University. Later, he received a master's degree and a Ph.D. in sociology from Fisk University. In 1946, Phillips came to Grand Rapids to work for the Borough Community Association. Passionate about civic and community work, by 1947, he became executive director and secretary of the Grand Rapids Urban League, where he would continue to serve for more than 30 years, including through the civil rights struggles of the 1950s and 1960s,

servicing as a calm and strong force against racial discrimination.

Phillips was passionate about documenting and researching Black history in Grand Rapids and is one of the most influential contributors to the local history that we know today.

In 1951, Phillips won election to the City Charter Commission, one of the first African Americans elected to public office in Grand Rapids. He was also the first African American elected to the city's board of education.

During President Gerald Ford's time in office, Phillips served as a consultant on minority citizen concerns. In 1972, Phillips received an honorary doctorate of humane letters from Grand Valley State University.

In 1967, Phillips passed away. The Paul I. Phillips Boys and Girls Club in Grand Rapids is named in his honor.

The third story is that of Yvonne Little Woodward, the sister of Malcolm X and a local leader and advocate in west Michigan.

Yvonne secured her place of recognition as the first African-American telephone operator for Michigan Bell in Grand Rapids in 1948.

Her son said: "She knew if she didn't do the right thing, it would take years for them to hire another Black operator."

In Grand Rapids, the operators took a vote on whether they were willing to work with her. The vote was unanimous except for one, who Little later won over.

From her engagement with customers at the Woodland Park grocery store to her civic involvements, winning people over was at the heart of how she interacted with her community.

Little was often called on to speak in west Michigan and elsewhere where children were the audience, focusing always on the next generation.

Our next story is Merze Tate. Merze Tate defied the odds during the Jim Crow era and became a college dean and professor, a world traveler, an international reporter, and an adviser to General Dwight D. Eisenhower.

Tate was born 60 miles northeast of Grand Rapids in Blanchard, Michigan, in 1905. She longed to see the world outside the pine trees and dirt roads and to receive an education.

After high school, Tate applied to the University of Michigan but was rejected because of the color of her skin. This obstacle did not prevent her from getting an education. She was invited to attend Western Michigan University by President Dwight B. Waldo. In 1927, Tate became the first African American to graduate from that institution.

In 1935, she went back to school and became the first African American to earn a graduate degree from Oxford University. Her dissertation and scholarly interest focused on disarmament, and she pursued a Fulbright fellowship in India.

This wealth of experience led her to an appointment as an adviser to General Eisenhower on international relations. It also formed the basis for her

continued scholarly work on the subject.

Her second book, "The United States and Armaments," was widely used by the Department of State and Committee for World Development and World Disarmament. In 1984, the Department named Dr. Tate one of three Americans to represent the United States at a UNESCO seminar.

Tate made history throughout her career. In 1941, she became the first African-American female to earn a Ph.D. in political science from Harvard University. In 1970, she became the first African American to receive a distinguished alumni award from Western Michigan University.

Tate was a college professor at several institutions, including Barber-Scotia College, Bennett College, Morgan State College, and Howard University, where she taught from 1942 to 1977.

She spoke five languages, traveled the world twice, was an international reporter for Baltimore's Afro-American newspaper, and worked as a photographer, filmmaker, and researcher for the U.S. State Department, all while being a college professor.

Tate passed away in 1996 at the age of 91. She has left millions to institutes of higher learning that looked beyond her race and gender to provide her with a stellar education and to inspire her to impact the world in many areas for generations to come.

We next have a pair of stories, those of Major Denzal Harvey and Dr. Robert Garrison. Major Harvey and Dr. Garrison both have strong connections to the Muskegon community and served as Tuskegee Airmen during World War II.

Denzal Harvey was born at Hackley Hospital and graduated from Muskegon High School. In high school, he earned a letter in track, where he was only one of a few men of color on the team.

In 1941, Harvey enlisted in the U.S. Air Force as a private first class and by 1942 had been sent to Air Corps' advanced flight school in Tuskegee, Alabama, where he joined the 99th Fighter Squadron.

The 99th Fighter Squadron in 1943 was assigned to North Africa, flying hand-me-down aircraft on support missions. They joined up with other African-American aviation units there to create the 332nd Fighter Group.

The 99th eventually moved to Foggia, Italy, where the group served as fighter escorts to B-24 bombers in bombing raids over the Mediterranean and Europe.

It was the bombing crews that gave the group its name, "Red Tails." The National Park Service's Tuskegee exhibit notes that the transition from training to actual combat wasn't always smooth, given the racial tensions of the time. However, the airmen overcame the obstacles posed by segregation.

In 1942, Harvey eventually began serving temporarily as a captain. It was extremely rare. At the start of

World War II, there were only 12 African-American officers in the U.S. military.

As a captain, Harvey once had a corpsman who refused to salute him. His daughter said he responded with: "You are going to salute the uniform if you don't salute me." She said: "They made it look easy, but it was never easy because dealing with racism was never easy."

Garrison's daughter, Judy Rogers, says her father was reluctant to talk about the war. Until she was 45 years old, she never knew that he had been a Tuskegee Airman. "He was proud of himself, but I can't say he actually enjoyed being in the war."

□ 2100

Dr. Robert Garrison was from Ohio, but he spent his entire postwar adult life working as a physician in Muskegon after being hired by Hackley Hospital in 1958. He didn't much talk about his work or his service, and for many years, he was known mostly for his work as a doctor in the community.

Harvey earned a degree from Muskegon Community College, worked as a real estate agent, and attended law school. He later returned to the Air Force, taking his family with him to far-flung bases. He finished his career working in the city of Detroit's municipal courts.

His daughter, Judy Rogers, said he was the area's only Black physician for several years. In 1971, Garrison became the first Black member of the Muskegon Community College Board of Trustees. He served for 10 years as a trustee for the Community Foundation for Muskegon County.

Finally, to close out this moment of reflection, we have the story of a storyteller. I would like to honor the Grand Rapids African American Museum and Archive's owned George Bayard. A long time Grand Rapidian, every single day, George is working to preserve west Michigan's African American history and keep memories alive for future generations.

I couldn't be more grateful for his friendship, his partnership in this project, and our shared work together for our west Michigan community.

Madam Speaker, this is for George. His passion and dedication to telling the stories of Black west Michigianians ensures that Black History Month is not contained just to a single month but that we recognize the contributions of African Americans in our community every day.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Members are reminded to maintain proper decorum in the Chamber.

PROCEEDINGS AND DEBATES OF THE 118th CONGRESS, SECOND SESSION

Vol. 170

WASHINGTON, TUESDAY, MARCH 5, 2024

No. 39

Senate

The Senate met at 3 p.m. and was called to order by the Honorable PETER WELCH, a Senator from the State of Vermont.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.
Most Holy and gracious God, who turns dark yesterdays into bright tomorrows, satisfy us with Your mercy, grace, and peace, that we may receive Your help for our time of need. Lift the light of Your countenance upon our lawmakers. Calm every troubled thought, and keep their feet on the path of peace. Lord, perfect Your strength in their weakness, and empower them to serve You in a way that honors Your Name. Guide their debates to expose truth, to produce creative compromise, and to bring solutions that will keep America strong. May they use their talents to renew peace in our Nation and world.

We pray in Your magnificent Name. Amen.

PLEDGE OF ALLEGIANCE

The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

MEASURE PLACED ON THE CALENDAR—S. 3853

Mr. SCHUMER. Mr. President, I understand there is a bill at the desk due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will read the bill by title for the second time.

The legislative clerk read as follows:

A bill (S. 3853) to extend the period for filing claims under the Radiation Exposure Compensation Act and to provide for compensation under such Act for claims relating to Manhattan Project waste, and to improve compensation for workers involved in uranium mining.

Mr. SCHUMER. In order to place the bill on the calendar under the provisions of rule XIV, I would object to further proceeding.

The ACTING PRESIDENT pro tempore. Objection having been heard, the bill will be placed on the Calendar.

CHANGE HEALTHCARE CYBER ATTACK

Mr. SCHUMER. Mr. President, today I come to the floor with good news. HHS and CMS has heeded my call from

last Friday to provide hospitals and providers immediate relief in the aftermath of the devastating cyber attack asking for ransom. The announcement by CMS today will get cash flowing to providers while our healthcare system works to get fully back online after this attack.

It is an extremely encouraging first step, but the systems of many of the providers are complicated and they are varied, so I urge CMS to be persistent and patient as they work to get all the providers on board; and I will work with CMS to make sure that happens.

As you know, across New York and across America, tens of thousands of hospitals, pharmacies, doctors' offices, and other healthcare providers are still reeling from one of the worst cyber attacks ever launched on our healthcare system.

The February 21 attack against Change Healthcare, which is responsible for processing billions of insurance and payment claims annually for healthcare providers, has thrown providers, including hospitals and pharmacies, into a crisis. For nearly 2 weeks, they have been unable to submit medical claims; and many providers are facing imminent insolvency as cash reserves are drying up.

Yesterday, I was in Ithaca and met with Rome Health and Cayuga Health who told me they are losing hundreds of thousands of dollars every single day with stacks of claims nearly two feet high that they can't file.

Americans, meanwhile, are struggling to refill prescriptions, having their care delayed or denied and are unable to use patient assistance programs they need to stay healthy. Our hospitals, particularly our smaller ones without a cushion of cash reserve, could have ended up laying off people and not providing services had CMS not stepped up to the plate. I am so glad they did.

Probably even worse, our small pharmacies who have no financial cushion

S1095

could have ended up shutting down and would have told millions of patients, millions of customers that they can't provide the medicines these customers need because they were not getting reimbursed.

This was a crisis, so last Friday, I called upon HHS and CMS to use their authority to accelerate payments to our hospitals and impacted providers. Hospitals and providers need help from the Federal Government so they can focus on their main mission as much as possible, which is providing care for their patients. I warned that the longer this crisis persists, the harder it will be for hospitals and other providers to stay open.

Today, I am pleased to see that HHS and CMS are heeding my call. This is a huge shot in the arm and will provide immediate relief to hospitals and providers, just like we saw during COVID. CMS had the ability to do this; and during COVID, when providers also were not being reimbursed, they filled the void. And I am glad they are doing it again.

What CMS has done is an encouraging first step, but the work cannot stop until every affected provider has the financial stability to weather this storm. We need CMS to cut through the redtape to make sure these advanced payments are done right. The systems of the different providers are varied. Some are very complicated. We need CMS to be both persistent and flexible.

And, of course, we have asked the FBI and other Justice Department Agencies to find out who these awful perpetrators of this ransomware were to put them out of business and see if they can seek punishment, depending on the country that these providers came from.

I thank the administration for its swift action, and I encourage it to do more. I will work daily with the administration and providers alike until the situation is resolved.

GOVERNMENT FUNDING

Mr. SCHUMER. Mr. President, now on government funding, well, it is the start of a busy and consequential week in Congress. Thursday evening, President Biden will deliver his annual State of the Union Address to the American people, where he will share the immense progress we have made as a country to bring down costs, strengthen our economy, and protect our country from threats around the world.

On Friday, Congress will face another funding deadline, whereupon the government will start shutting down unless both Chambers work quickly, decisively, and with bipartisan cooperation. On that front, we are, thankfully, off to a very, very good start. Sunday evening, negotiators reached a long-sought, bipartisan and bicameral funding deal on the first six appropriations bills. And we did it—we passed these

bills—without devastating cuts or poison pill riders pushed by the MAGA right.

It has not been easy to complete the appropriations process in a divided government, but after a lot of persistence, we now have six bills that will preserve significant investments for American families, for moms and children, for America's clean energy, for America's veterans, and more.

It took a lot of work to make it happen. Appropriators worked through the entire weekend, so did my staff—so did I, in fact—and we have been working on this every day for months.

The important thing now is for both Chambers to move quickly. The House is set to take up these appropriations bills tomorrow, where, hopefully, they will pass. And as soon as the House sends the appropriations bills over to the Senate, I will put these bills on the floor so we can have them on President Biden's desk before Friday's deadline.

But the clock is ticking, and because of the State of the Union on Thursday, we need to cooperate to move extra fast to get these bills through. Between now and Friday, the watchwords for the Senate will be "cooperation" and "speed."

Now, let me take a moment to highlight some of the ways these appropriations bills will make a difference for the American people. This appropriations process—or this appropriations agreement—is a success in at least two ways: One, we protected almost all of the good investments for the American people and, two, we resisted practically all of the nasty riders from the MAGA right.

To moms and kids who rely on nutrition programs, you will be taken care of. Despite immense opposition from the other side, this agreement fully funds the WIC Program, meaning no mom or kid will be denied the nutrition assistance they qualify for. It is exceedingly good news that, in divided government, we were able to keep WIC whole, and I thank Senator MURRAY for her good, hard work on this issue, as well as Congress Member DELAURO.

Through this agreement, we will also protect funding to help Americans, especially rural Americans, to keep a roof over their head and afford the rent. We will increase funding for programs that support our veterans' health and wellbeing.

Child nutrition, including school lunch programs, school breakfast programs, and summer EBT programs remain fully funded. That means we will be able to provide nearly 5 billion school lunches and 2½ billion breakfasts to kids across America next year.

America's roads, bridges, and highways will get the funds they need for repairs and updates. We will be able to hire more air traffic controllers, food inspectors, and rail safety inspectors to keep Americans safe.

We will preserve pay raises for our Federal firefighters, and we will strengthen funding for cutting-edge scientific research.

I am also happy that we prevented the hard right from tainting these appropriations bills with devastating cuts and highly partisan policy riders.

Again, we fought hard to protect funding to build more affordable housing and provide nutrition assistance to low-income Americans, and we defeated the hard right's attempts to add even more restrictions to women's healthcare.

And even though the hard right tried repeatedly to undermine Democrats' clean energy agenda, we preserved practically all the progress we have made to fight climate change, while protecting critical jobs at the EPA.

So I am very glad and proud we have been able to reach such a strong agreement under divided government.

I thank Speaker JOHNSON, Leader JEFFRIES, Leader MCCONNELL, Appropriations Committee Chair PATTY MURRAY and Vice Chair SUSAN COLLINS, and all the staff who have dedicated so much work to get us to this point.

This agreement gives us much needed momentum to finish the next package of spending bills by the March 22 deadline. Once again, it will only be bipartisanship—only bipartisanship—that will get us across the finish line, as has proven in the past. We will keep working—keep working—until we finish the job.

REPRODUCTIVE RIGHTS

Mr. SCHUMER. Mr. President, now on over-the-counter birth control, as hard-right Republicans continue their all-out assault on reproductive rights, the American people just received some very big news: The first-ever over-the-counter birth control pill is headed to stores later this month.

The introduction of a safe, effective, over-the-counter birth control pill is a promising step toward improving access to contraception. The pill, Opill, will be available very soon at major stores and pharmacies and online, for anyone to buy without needing a prescription. It will be a new avenue for Americans to access reproductive care, so critical today as reproductive care comes under greater attack by the hard right.

Hard-right Republicans have shown they have no restraint when it comes to ripping away reproductive rights after the disastrous Dobbs decision. Whether it is pushing for a national abortion ban, as the hard right has been doing for decades; or blocking promotions of hundreds of military officers in protest of women in the military getting access to reproductive care, as one Republican Senator did repeatedly last year; or even threatening access to in vitro fertilization, as the Republican majority Alabama Supreme Court did, followed by Senate Republicans blocking legislation to protect IVF last week, Republicans have made it beyond clear they have not yielded one bit in their radical anti-women, anti-choice agenda.

That is why this historic announcement of an over-the-counter birth control pill is so important. It lands a blow against those who are trying so desperately to limit access to reproductive care.

Democrats, meanwhile, will continue fighting to make sure everyone who needs birth control can get it and to improve women's healthcare, women's access to healthcare, and the affordability of healthcare.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

RECOGNITION OF THE MINORITY LEADER

The Republican leader is recognized.

GOVERNMENT FUNDING

Mr. McCONNELL. Mr. President, last week, Congress avoided a harmful and unnecessary government shutdown, and, this week, we will take a major step forward on one of our most basic responsibilities of government.

Our colleagues, Senator COLLINS and Senator MURRAY, have been working hard on the fiscal year 2024 appropriations for the better part of a year. The Appropriations Committee advanced the bills we will consider this week back in June and July of last year, working in good faith through the regular order. And in all but one case, they received unanimous support.

This first tranche of annual appropriations accounts for a serious portion of our overall discretionary funding responsibilities, and thanks to Senator COLLINS' leadership, the bills the Appropriations Committee cleared last summer secured important Republican priorities up front.

By all reasonable measures, the conference with our House colleagues has made the legislation we will take up this week even stronger.

The Senate has an opportunity to strengthen protections for America's farmland by tightening oversight over foreign agricultural transactions and expand support for farmers, ranchers, and rural communities. We have a chance to strengthen protections for U.S. intellectual property and surge resources to State and local law enforcement agencies on the frontlines of the fight to curb violent crime and to bring the fentanyl crisis under control.

We can increase support for VA rural health and opioid treatment, protect the Second Amendment rights of America's veterans, and improve housing and facilities for Active-Duty servicemembers and their families, including thousands of Kentuckians stationed in harm's way.

We can fund urgent transportation and water infrastructure projects, support domestic enrichment of critical minerals, and invest in the long-term safety, security, and superiority of our nuclear arsenal.

We can do it all this week.

I am grateful to our colleagues on the Appropriations Committee for pushing sensible annual funding legislation one step closer to the President's desk, and I would certainly urge all of our colleagues to support it.

NOMINATION OF ADEEL ABDULLAH MANGI

Mr. President, on another matter, I have spoken repeatedly about President Biden's attempt to give life tenure on the Federal bench to an activist tied to an extremist group that unabashedly celebrates terrorism. I have already made absolutely clear that the Senate should not—should not—confirm the nomination of Adeel Mangi to the Third Circuit Court of Appeals.

But Mr. Mangi's alarming record doesn't stop at ties to terrorist sympathizers; it turns out he also has a history of support for anti-police activism. In fact, he serves on the advisory board of a group of apologists for convicted cop killers. The so-called Alliance of Families for Justice, AFJ, was founded in part by a woman who actually pled guilty to the murder of a police officer and whose name has graced a fellowship they fund. With Mr. Mangi on their advisory board, the AFJ celebrated her and other cop killers as—listen to this—"freedom fighters." Take, for example, the executive director of AFJ. She was counsel of record on a brief to spring from prison a notorious cop killer whom she later compared favorably to Che Guevara.

Honoring criminals and punishing law enforcement is the exact opposite of justice. One county police association in New York highlighted this irony by pointing out that "Mr. Mangi's heroes executed our heroes who were protecting and serving the community."

Naturally, law enforcement associations across the country share this concern. They are concerned that a nominee who would be responsible for interpreting and upholding our laws is willing to make common cause with an

organization that excuses the most heinous form of lawbreaking. Overwhelmingly, the thin blue line is worried that Mr. Mangi's inability to distinguish between criminals and heroes renders him incapable of administering justice.

As the National Association of Police Organizations put it, "It is one thing to stand up for the rights of those shunned or mistreated by society. It is a far different thing to exalt unrepentant killers who were convicted following legal trials in courts of law. Mr. Mangi is smart enough to know the difference, and [he] has made his choice."

The National Sheriffs' Association said that Mangi's connection with AFJ "raises concerns about a potential bias against victims and law enforcement, which could impact his decision-making as a lifetime appointed judge."

A State law enforcement group in New Jersey put it this way:

We can respect a lawyer who represents criminal defendants to the best of their ability. But we can't respect, and can never support, a lawyer who so blatantly promotes the opinion that the police are criminals, and the cop-killers are the victims. He has disqualified himself as an impartial decider of facts where police are involved.

As far away as Arizona, the Phoenix Law Enforcement Association wrote:

Mr. Mangi's conscious work with [the AFJ] shows an anti-victim and anti-police bias that would certainly cloud his decision making as a judge.

Now, it is worth noting here who is not involved. Even as law enforcement officers nationwide organize to sound the alarm, the country's largest police union has yet to weigh in. Each day, police work gets more dangerous thanks to the work of anti-cop activists like AFJ, but a member of their advisory board gets nominated to a Federal appeals court, and so far, it is silence—silence—from the Fraternal Order of Police.

Well, I hope that changes soon. The last thing our country needs right now is another Federal judge who thinks criminals are the real victims—especially ones with the blood of police on their hands.

American communities have been suffering for years under a coordinated leftwing campaign to coddle criminals and neuter our criminal justice system. District attorneys in deep-blue cities have put politics over prosecution and turned repeat violent offenders loose in their streets, and the Biden administration continues to encourage this sort of bad behavior.

It is time to acknowledge who are the criminals and who are the heroes, and it is certainly time to refuse a lifetime appointment to the judiciary to anyone who cannot tell the difference.

The ACTING PRESIDENT pro tempore. The majority whip.

Mr. DURBIN. Mr. President, I have a statement I am going to make on the Voting Rights Act, which I think is apropos as we are considering Super Tuesday and the millions of Americans who will participate. But first I would

like to address the comments that were just made by the Republican Senate leader.

Mr. President, you are a member of the Senate Judiciary Committee, and you were there the day Adeel Mangi's nomination came before our committee. It is a unique nomination. It has never happened before—never in the history of the United States—because Mr. Mangi is a Muslim American, and he is being nominated to serve on the second highest court in the land.

When you read his biography—and I don't have it before me; I am going to come back when I do have all the information before me—you cannot help but believe that this is an extraordinary individual and an extraordinary lawyer who is seeking this spot.

The treatment he received in the Senate Judiciary Committee—you will remember it as well as I will—because he was a Muslim American was outrageous—outrageous. They believe that he must be a terrorist because he is Muslim, and it was suggested by a number of Senators questioning him that he has links with terrorism. In fact, one Republican Senator went so far as to ask him on the record: Do you celebrate 9/11 in your home? Do you celebrate 9/11 in your home?

He said: Of course not. It was a horrible thing. I condemn all forms of violence and terrorism, he said, and those people—many who died—were from the same community I was in in the States of New York and New Jersey.

Then there was a suggestion that because he was a Muslim American, he must be anti-Semitic. I can't tell you how many different times that was asked of him, and he condemned anti-Semitism on a wholesale basis, with no qualifications and no equivocation.

The questioning in that area was so outrageous against this individual, this Muslim American, so outrageous that the Anti-Defamation League, a national organization, highly respected, that stands up for Jewish Americans and their rights and speaks out without hesitation when people are being critical and prejudicial to Jewish Americans, sent us on the Senate Judiciary Committee—unsolicited—a response to the questioning he faced. I read it into the record at the committee meeting.

Mr. President, I want to tell you, politics is a beanbag, and I know that if you are seeking a lifetime appointment to the bench, you better be prepared to answer a lot of questions. Some of them will be fair, and some won't be fair, but be ready—it is going to happen. But what happened to Mr. Mangi in that committee was beyond anything acceptable by Senate standards, and it continues to this day.

To argue that he somehow is a cop killer—my God. What more are they going to throw at this man? I am going to come before the Senate on another day—maybe even tomorrow, if I can do it—and tell the whole story about his nomination, but to listen to what was

just said about this man is breathtaking.

He is an extraordinary individual. He is overqualified for the job, if there is such a thing. He has certainly served his country and wants to do more. The fact that he is a Muslim American should not subject him to this type of a beating in the committee or on the floor of the Senate, and I will return to address that issue specifically at a later date.

VOTING RIGHTS ACT

Mr. President, it is Super Tuesday. Millions of Americans will vote in primaries in 16 different States. It is a day for Americans from all walks of life to express their political opinion and vote for the candidate they deem best suited for the highest office in the land.

As Americans, our most fundamental right is the right to vote. My dear friend and colleague, the late Congressman John Lewis, called voting "the most powerful nonviolent tool we have to create a more perfect union."

At our last Presidential election, more than 158 million Americans cast a ballot—the largest voter turnout in the history of the United States. But that record doesn't tell the whole story. Over the weekend, the Brennan Center for Justice released a report on the growing racial disparities in voting in America. They found that "the racial turnout gap—or the difference in the turnout rate between white and nonwhite voters . . . has consistently grown since 2012 and is growing most quickly in parts of the country that were previously covered under Section 5 of the 1965 Voting Rights Act, which was suspended by the Supreme Court [of the United States] in its 2013 decision in *Shelby County v. Holder*."

So although record numbers of Americans are making their voices heard in elections, we are also witnessing an explosion of sinister efforts to discourage and silence many of these voices.

Unfortunately, efforts to suppress the right to vote in this country are nothing new. Congress took action in 1965 when the U.S. Senate voted 77 to 19 to pass the Voting Rights Act, finally outlawing State practices that had denied millions of Americans—especially Black Americans—the right to vote.

Over the next almost 50 years, the Voting Rights Act was reauthorized five times, always—always—by large, bipartisan majorities. Each new version expanded the promise and protection of the Voting Rights Act. The most recent was signed into law by Republican President George W. Bush in 2006.

That all changed in 2013. The Supreme Court struck a deadly blow on the Voting Rights Act in *Shelby County v. Holder*. Before the Court's ruling in *Shelby County*, the Voting Rights Act required localities with a track record of disenfranchising voters of color to seek Federal approval for any changes in their voting laws. This requirement is known as preclearance, and it could have blocked many of the

restrictive voting provisions we have seen since that Supreme Court decision in States like Georgia and Texas.

In 2021, the Supreme Court weakened another critical section of the Voting Rights Act with a decision in a case known as *Brnovich v. Democratic National Committee*, making it more difficult for plaintiffs to prevail in lawsuits against discriminatory voting laws, decisions, or procedures.

With these rulings, the Supreme Court has fueled State-led efforts to suppress voters, particularly voters of color.

Justice Elena Kagan wrote in her dissent to the *Brnovich* decision that “in the last decade, this Court has treated no statute worse” than the Voting Rights Act of 1965.

This year’s Presidential election will be the first general election since a wave of restrictive voting laws were passed in the aftermath of the 2020 election.

Mr. President, did you ever take a look at the videos and reporting of people standing in line and waiting to vote?

Did you ever notice, coincidentally, how many people standing in line are people of color? There always seems to be a lack of voting spaces for people of color when it comes to voting. Why is that? Well, I don’t think it is an accident. I think it is a conscious decision. And before the Holder decision—the *Shelby County v. Holder* decision—there was a requirement for preclearance for the practices that lead to that.

Voters in 27 States, more than half the country, will face restrictions on the right to vote they have never faced before because of the Supreme Court decision. Last year alone, State legislators in 14 States enacted 17 laws that made it harder for people—particularly people of color—to vote. As Members of Congress, we must defend our democracy from these coordinated attacks on the fundamental right we have as Americans.

Last week, a group of my colleagues and I reintroduced a bill bearing the name of John Lewis, whom I mentioned before, that would preserve and protect the rights of voters in America. This legislation will restore and strengthen the Voting Rights Act. This bill honors the legacy of John Lewis and countless other Americans who have fought and some have died for the right to vote.

Last Congress, we tried to bring this legislation to the floor for a debate and a vote, but our Republican colleagues blocked it with a filibuster. This bill should unite Senators across the aisle, not divide us. In 2006, 98 Senators, Republicans and Democrats alike, voted to reauthorize the Voting Rights Act, with no votes in opposition. In 2006—not that long ago—98 Senators voted to reauthorize this bill. At the time, Senator McCONNELL, who just spoke on the floor, said that “this is a good piece of legislation that has served an important purpose over many, many years.”

That was the bipartisan support that greeted that bill in 2006. Yet, today, Senate Republicans have no interest in reauthorizing the Voting Rights Act to protect voters from efforts to suppress the right to vote.

Next week, the Senate Judiciary Committee will hold a hearing to examine the continued need to restore and expand the protections of the Voting Rights Act. This hearing is an important step, but we desperately need legislation, not just a hearing. Every year that goes by without passing this critical law leaves voters vulnerable—particularly voters of color. That is why I am calling on my colleagues to join me in supporting the John Lewis Voting Rights Act.

Congress has the power to restore voting rights, and we should do it because as John Lewis reminded us, “Democracy is not a state. It is an act, and each generation must do its part to help build what we call the Beloved Community, a nation and world society at peace with itself.”

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Virginia.

TRIBUTE TO HAL MALCHOW

Mr. WARNER. Mr. President, I rise today to celebrate the incredible life of a dear friend and a great American, Hal Malchow, someone whom I think many of my colleagues on the Democratic side have known.

I first met Hal in 1985. I was visiting my dear friend from law school, Rob McDuff, in Oxford, MS. Hal and I were pretty young back in those days, both interested in politics, and the two of us really hit it off at a party that Rob hosted.

Now, Hal has long enjoyed a successful career as one of the country’s premier political consultants, but before that, he went to Millsaps College and then the McGeorge School of Law in California. He did practice law for a bit in Jackson, MS. But Hal’s real passion was never the law; it was always politics.

In fact, when young, aspiring lawyers would come to his office to get advice about following him into law, Hal was known to reach into his big, impressive wooden desk and pull out his latest rental car contract with Hertz.

“See that contract?” he would ask the enterprising, would-be attorney, slapping it face down on the table. “You go to law school, you are going to spend the rest of your career writing those kind of deals.”

So after a few years as a bond attorney in Mississippi, Hal turned his attention to politics. He took on three different candidates as a campaign manager and managed to lose all three races.

Undaunted, in 1984, Hal took on a new challenge. There was an up-and-coming young Congressman from Tennessee with a pretty good resume and a well-known family name who was thinking about running for the Senate. And despite his rather unimpressive

track record so far, Hal managed to get an interview.

“So,” Al Gore said to him, “I’ve got one question for you, Hal. If I hire you to be my campaign manager, how am I supposed to explain it to my supporters?”

The way Hal tells it, he looked Gore in the eye and said, “Everyone in Tennessee thinks you’re a lock for this seat. But you can tell them you’re taking nothing for granted because you hired the hungriest SOB in the country to run your race.”

Needless to say, Hal got the job, and Al Gore went on to the Senate that year. Soon, Hal moved to DC. Starting at his kitchen table in a small, one-room apartment, he managed to build the Nation’s largest voter contact firm, pioneering the use of advanced data analytics to revolutionize political targeting, launching experiments to measure and improve campaign tactics, and revolutionizing direct mail and fundraising.

He brought the notion of the “moneyball” approach to politics a decade before anybody else was doing it. That will be one of Hal’s greatest legacies to the Democratic Party and to American politics: the idea that spending decisions should actually be driven by data. He wanted to hold campaign consultants like himself accountable for being wise stewards of donor dollars. He measured success in effectiveness, hard proof that spending motivated voters one way or the other.

Hal worked on every one of my campaigns; and at one point or another, I suspect that Hal has worked with at least half of my colleagues on the Democratic side. But Hal was more than just a consultant; he is also my friend. I know him not only for his brilliant, strategic mind but as someone who is honest, loyal, and extraordinarily creative. My wife Lisa and I have looked forward to receiving his hilarious Christmas cards. He would create a different message and a different approach every holiday season.

In addition to writing a series of political books on moving and motivating voters, Hal is also an accomplished fiction writer. His writing career began when his then-8-year-old son approached him with an idea. Two years later, they completed the first draft of “The Sword of Darrow,” a highly acclaimed young-adult fantasy novel. In 2014, writing alone, he published a sequel, “The Dragon and the Firefly,” before penning two political thrillers, including “42 Million to One,” a finalist for a number of international and national book awards.

As that story illustrates, Hal is also a devoted father to his son, Alex. For many years, he served on the board of trustees at Alex’s alma mater, the Lab School. After his son was diagnosed with dyslexia, Hal dove into the challenges facing other children like Alex, eventually becoming the president of the International Dyslexia Association.

Hal is also the biggest Cheesehead I know. Hal was very proud of the fact—

even though he had grown up in Mississippi—that his grandfather was one of the original shareholders in the Green Bay Packers. And Hal has followed in his grandfather's and his father's footsteps as a Packers fan. For the last several decades, Hal has organized annual trips to Green Bay to watch the Packers play, and I was lucky enough to join him in November for what has turned out to be Hal's final football season.

Now struggling with the effects of Alzheimer's, Hal has approached his illness the same way he has approached life: with no bitterness. He said to me, the last time I saw him, "I'm the luckiest guy in the world, with the life I've lived." He tells me he has no regrets, so I can't have any either.

So Lisa and I will continue to keep Hal and his family—including Anne, Alex, and Astrid—in our thoughts and hold them close to our hearts during this difficult season.

I yield the floor.

The PRESIDING OFFICER (Mr. MARKEY). The Senator from Vermont.

ISRAEL

Mr. WELCH. Mr. President, every day we are reminded of the worsening humanitarian catastrophe in Gaza. Most of the infrastructure in the territory has been destroyed. Thousands of apartment buildings, schools, mosques, hospitals, shops, and markets have been reduced to piles of twisted metal and rubble, under which the bodies of an unknown number of people are buried.

Of the world's many humanitarian crises, the situation in Gaza is among the worst. This is due in large measure to the onerous impediments by the Netanyahu government to the delivery of sufficient food, water, medicines, shelter, and fuel.

Getting aid to those who are suffering and preventing starvation should be our most immediate and highest priority, along with obtaining the release of the hostages.

As I said when I spoke out for a cease-fire in November, an immediate and indefinite cease-fire is the only way to achieve these goals. I am very heartened by Vice President HARRIS's call for an immediate—if temporary—cease-fire to get aid in and hostages out, because the reality is, the supply of lifesaving aid has dwindled to a trickle.

Last week, the depth of the humanitarian emergency in Gaza exploded with the deaths of dozens of Palestinian civilians as they frantically tried to reach food supplies from aid trucks that were guarded by Israeli soldiers. People were trampled, people were run over by trucks, and they were shot.

It was a horrifying scene and a direct result of the Netanyahu government's failure to put in place workable procedures for the delivery of sufficient aid to starving people. As others have said, there is no legal or security justification for restricting humanitarian aid

to civilians who are caught in the middle of an armed conflict.

The more desperate people become, the more chaotic and precarious the security situation, the more likely there will be other senseless tragedies just like this.

I recently introduced a resolution, along with 15 of my colleagues, calling for the urgent delivery of sufficient humanitarian aid.

The Biden administration has repeatedly called for greater access for more aid trucks to Gaza, but the number getting through remains far below pre-war levels. And I am encouraged, nevertheless, that President Biden has directed the United States to begin airdropping aid in—a decision made with the understanding that, while not enough by any means, it could save lives.

Israel now occupies Gaza. It has an obligation under international law—not to mention the moral responsibility—to feed and shelter Palestinians under its occupation.

Beyond the moral imperative, the path to peace, security, and stability would be enhanced dramatically by facilitating the delivery of essentials for survival to the Palestinian people whose fate is imperiled. But as we saw last week, that is not happening.

The Netanyahu government's rejection of U.S. and international appeals to meet the basic needs of innocent Palestinians trapped in Gaza and the resulting loss of innocent lives, is really the latest in a pattern that we have seen for years.

The United States has long supported—and the United States will always support—Israel as a free and Jewish democratic state. But candor requires acknowledging that we have an ongoing, serious difference with Israeli leadership.

It is the longstanding U.S. policy that the Middle East conflict can only be solved through negotiations to create two independent states of Israel and Palestine. President Biden has reaffirmed this.

But Prime Minister Netanyahu has publicly rejected a two-state solution, and he has even credited himself for actively working to prevent the creation of a Palestinian state. I will use his words. He couldn't have been more clear. He said:

I will not compromise on full Israeli security control over the entire area in the west of Jordan—and this is contrary to a Palestinian state.

The United States opposes settlements and the destruction of Palestinian homes, orchards, schools, and other infrastructure in the West Bank. It violates international law and is a severe obstacle to peace. Secretary of State Blinken has reaffirmed this.

Yet Prime Minister Netanyahu embraced the settlements. In 2017, he said:

We will deepen our roots, build, strengthen and settle.

In 2019, he said:

With God's help we will extend Jewish sovereignty to all the settlements as part of the land of Israel, as part of the state of Israel.

Under his leadership, settlements have expanded exponentially. Settlements bring extremist settler violence, some of it with firearms financed by American taxpayers.

Shootings of West Bank Palestinians, threats laced with hateful messages that if they don't leave their homes, they will be killed, and the destruction of land and other property have surged—surged—in recent months, including, in some instances, with Israeli soldiers passively standing by and watching.

It is the longstanding U.S. policy, codified by the Leahy law, that units of foreign security forces that violate human rights are not eligible for U.S. training or equipment or other assistance.

And according to multiple reports, that law has not been applied to the Israeli Defense Forces, despite numerous cases of shootings of Palestinian civilians.

We must face the contradiction of what we are doing. We are airdropping food to famine-stricken Gaza today and supplying bombs for Israel to drop on devastated Gaza tomorrow.

We call for humanitarian relief, but how can that call be meaningful when aid workers are killed in their effort to deliver it and Palestinians are killed in their effort to retrieve it?

It is time for us to acknowledge—all of us to acknowledge—what the entire world knows: It is impossible to deliver humanitarian aid in a very active war zone.

Israel is a great country, Jewish and democratic. Israel has been—and remains—our closest ally in the Middle East. For decades, Israel has been under attack by those who have sought to destroy it.

President Biden—and so many of us—understand the history of Israel and the history of the Jewish people. October 7 was the worst attack on the Jewish people since the Holocaust. And we cannot ever let that happen again.

But both of our countries right now are on a wrong path. Israel must stop its indiscriminate attacks that are killing so many Palestinian civilians—women and children, the majority among them who perished.

And the United States must end its unconditional support when Israeli policies are wrong that are unjustified; that are causing so much suffering; and that, in the view of many of us, are doomed to fail in the goal of achieving lasting peace.

How many times do we have to be repudiated by Prime Minister Netanyahu on the use of indiscriminate force; on the recklessness of expanding West Bank settlements; on impeding the delivery of aid; on advocating an endless Israeli post-conflict occupation of Gaza? How long and how often will Prime Minister Netanyahu reject our policies but take our money before we say, "Enough"?

How many more than the 30,000 Palestinians already killed and the 70,000

wounded before we say to Prime Minister Netanyahu, “Enough”? How many more homes and shops and schools and childcare centers and hospitals must be destroyed before we say to Prime Minister Netanyahu, “Enough”?

Israel must—and Israel always will—make its own decisions as to who will be its political leaders. Israel must and Israel always will make its own decisions as to when and how to defend itself. It is their right.

But the United States, too, must make its own decisions consistent with our values, with our judgment, and with what we believe to be in our national interest. The Biden administration has taken important steps to bring accountability through diplomacy by issuing a national security memorandum that builds on the Leahy law, but it is time for us—and I include all of us in the U.S. Congress—to stop accommodating the Netanyahu government. It has consistently shown it does not share our goal of achieving peaceful coexistence between the Israeli and Palestinian people.

Our failure to act damages the authority, credibility, and reputation of the United States, not to mention our foreign policy and security interests. In my view, it undermines the security interests of Israel, which is increasingly isolated in the international community. Opposition to the disproportionate use of force in Gaza is widespread, including in our own country. So, too, regrettably, is the rise of anti-Semitism, which we must always condemn, and Islamophobia, likewise, which we must always condemn.

It has been said many times before: U.S. aid is not a blank check. When it comes to the Netanyahu government, it has, for many years, across Democratic and Republican administrations, been a blank check. It is long past time for the United States to stop supporting by commission and omission actions that are inconsistent with our principles and our policies, and which make peace between Israelis and Palestinians ever more elusive, ever more difficult to achieve.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

NOMINATION OF RONALD T. KEOHANE

Mr. REED. Mr. President, I rise in support of tonight’s vote to move forward the nomination of Mr. Ronald Keohane to be Assistant Secretary of Defense for Manpower and Reserve Affairs.

I need not remind my colleagues, with the instability throughout the world right now, how critical it is to ensure that strong civilian leadership is in place across the Department and the military services.

As the Commissioner of the National Defense Strategy concluded, “The implementation of the National Defense Strategy must feature empowered civilians fulfilling their statutory responsibilities, particularly regarding issues of forced management. Strong

civilian oversight is the central hallmark of U.S. civil-military relations, codified in the Constitution and embraced throughout the Nation’s history.”

Mr. Keohane was reported out of the committee not once but twice—the first time on March 23, 2023, and then again this conference on February 8, 2024. Both times, he was reported out by voice vote with no one asking to be recorded as a no. To my knowledge, no one has raised any objections to his qualifications. The Assistant Secretary of Defense for Manpower and Reserve Affairs is the principal adviser to the Secretary of Defense and the Under Secretary of Defense for Personnel and Readiness on all matters related to civilian and military personnel policies, reserve integration, military community and family policy, and total force planning and requirements. Additionally, the Assistant Secretary exercises day-to-day supervision of the Department of Defense Education Activity and the Defense Commissary Agency, and provides oversight of the Armed Forces Retirement Homes.

Confirming Mr. Keohane is critical. The military’s greatest asset is its people, and filling this void will help the Department navigate the myriad challenges associated with managing the total force—military and civil workforces—to field the most lethal military in the world, especially considering unprecedented recruiting challenges at the moment.

Mr. Keohane is being held not by reason of his qualifications, which are extensive, but because of the position for which he has been nominated has oversight of some matters that a few of my Republican colleagues find objectionable.

Mr. Keohane has previously served in the Department of Defense and other Federal Agencies, making him eminently qualified for this position. Notably, he previously served as the Department Assistant Secretary of Defense for Military Community and Family Policy in the Obama administration, where he was awarded the Defense Medal for Exceptional Public Service.

I urge my colleagues to vote yes to move this well-qualified individual with extensive experience—to move this nomination forward so we can do more to assist our men and women in the field by providing the kind of policy and direction that an experienced and already recognized talented individual can lend to the Department of Defense.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CRAPO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows: The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Ronald T. Keohane, of New York, to be an Assistant Secretary of Defense, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

MERGER FEES

Ms. KLOBUCHAR. Mr. President, I am here to talk about a provision in the appropriations bills that was unveiled just yesterday. I thank my colleagues for their work on these bills—it has been incredible—and the bipartisan effort in the Senate and the

House. I know how tough these negotiations can be. There are so many good things in it that I am sure I will be talking about myself over the next few weeks.

But I want to focus on one thing that I hope we can still clarify and change. I don't think it was the outcome that people thought when they voted on the floor a little over a year ago on something. This sort of seemingly technical language that was included in this appropriations bill on our Antitrust Division of the Department of Justice basically upends the work that Senator GRASSLEY and I have done—many others joining us—to update the merger fees after I think it is over 20 years. We worked very hard on this over a 5-year period and got buy-in from the Judiciary Committee. We worked with Senator LEE and had a combination amendment that got significant support in this body—well over 80 votes—that focused on Senator LEE's venue amendment that he and I had to make sure that cases in the tech arena stayed in the States, antitrust cases stayed in the States where they were brought; then, secondly, that we actually funded a division that has been underfunded by many measures with 300-plus less employees than they had in 1979. That is the Antitrust Division of the Justice Department.

It may not be the first thing on everyone's mind, but if you are someone wondering why does something cost so much or why don't I have a choice, you have got to look at the consolidation going on in this country. If you wonder why do I have to pay this much for a concert ticket, you might want to look at the fact that Ticketmaster has got a 90-percent monopoly on big events, an 80-percent monopoly on pro events—pro sports events—and a 70-percent monopoly on all events. So it is an issue that matters to people.

This Chamber, unfortunately—I see Senator KENNEDY here who has worked with me diligently on a bill about the news organizations and the monopoly tech companies. We have many good ideas here, some of which—including the bill I have with Senator KENNEDY—that have come through the Judiciary Committee, but we haven't been able to get the political support on both sides of the aisle to actually pass these bills. So that leaves us with one shiny light when it comes to consolidation, and that is the work that has been going on in bringing these cases.

For the tech cases, could I say, several of them were initiated during the Trump's Justice Department and have continued into the Biden administration's Justice Department. But to do that, to take on the biggest companies the world has ever known, to take on Google, with the 90 percent market share, you have to have resources. You can't have a Justice Department Antitrust Division that has, say, one-fourth or one-third of the staff of just one of these companies. That just isn't really going to work. And guess what. They know it.

That is why Senator GRASSLEY and I put together this merger fee bill. Today, he and I are sending a letter to the Appropriations Committee leaders asking them to take out some of this language that actually upends the bill that we not only worked on but we passed in this Chamber. It wasn't one of those things tucked in the bill. We actually had to have an amendment vote in this Chamber. Over 80 of our colleagues voted on it, and now it is being implemented.

There is less money that they have to pay for smaller mergers—which a lot of smaller companies like—and bigger fees for mergers over \$500 million. Let's just say for them it is a drop in the bucket; well, not for the Justice Department Antitrust Division. We have now seen about 46 million more dollars come in, and somehow, through the magical Appropriations Committee process, that money has now vanished.

I have faith that the people on the Appropriations Committee did not mean to upend an act of Congress and take the money away from the anti-trust enforcers. So this is what I came here to talk about today.

Monopoly companies are starting to reign over our economic and family lives, particularly in the tech area. And, of course, we have passed no updated competition laws since the invention of the internet, while other countries, of course, have, other countries, including—as I see Senator KENNEDY over there—in the area of news organizations.

Singapore just passed a law. Canada just passed a law. Australia has passed a law. Hundreds of millions of dollars are now being paid to actually pay for news content.

The provisions released this weekend are in direct contradiction to the work that was done in this Chamber. The bipartisan Merger Filing Fee Modernization Act passed less than 15 months ago. It passed in the Senate on an 88-to-8 vote, and then the bill passed the full Senate—the other provisions included, unrelated to this—on a vote of 68 to 29. It was signed into law December 29, 2022.

The Congressional Budget Office found that this would generate about \$1.4 billion in revenue over 5 years, split between the FTC and the Department of Justice. That is an average of a more than \$140 million increase in fee collections per year for each Agency.

For fiscal year 2024, the CBO estimated that the Department of Justice Antitrust Division would earn \$278 million under the bill—an increase of \$88 million from a year prior. Yet the budget released this week appropriated only \$233 million to the Antitrust Division. That is an estimated \$45 million in fees that were diverted away from antitrust enforcers.

But that is not all. The appropriation reverses decades of precedent—25 years it said the overage of fees would go to the Antitrust Division. So if they generate the fees, then they get to have

those fees to help hire the lawyers to take on the big companies. That is how it has always worked. One pen, and they changed it. We weren't able to see it ahead of time. We worked with them after some language came out in July. Unbeknownst to us, they just took the money and ran. They took the money, and they put it in other parts of the government budget. This appropriation, as I said, reverses how this has been done.

So let's just get this straight. Senator GRASSLEY and I changed the law with 88 votes to get more money into that Division. Instead, going forward, they are not going to get any of the money. So it almost makes it ridiculous that we tried to help by passing the law, because if we hadn't done anything, then maybe no one would have noticed it, and then the Appropriations Committee wouldn't have taken the money.

When Congress acts to increase merger fees or makes a policy decision, I think the Appropriations Committee's job is then to follow that policy decision.

The CBO predicts an \$88 million year-over-year increase in the fees, but enforcers at the DOJ only get to see \$13 million of that increase, with no opportunity to collect more fees if merger and acquisition activity exceeds what appropriators predict.

On top of this, unlike in previous years, the budget fails to fund the Antitrust Division's non-fee-generating work, like criminal price-fixing and monopolization cases. Last year, appropriators gave the Antitrust Division \$35 million to fund these efforts. This year, they gave zero. This may put the Antitrust Division in the untenable position of deciding whether to block an anti-competitive merger or sue an anti-competitive monopolist. They should have the resources to do both. They actually bring money into the government.

I understand the difficult choices that Appropriations Committee members face every year. There are always difficult tradeoffs in funding, especially when budgets are constrained. I have even been told that the reduction in the appropriations was driven by lower-than-expected fee collections in the first quarter, but this doesn't justify diverting fees away from the Antitrust Division if that purported shortfall is made up later in the year. As currently drafted, the Antitrust Division will not have the resources to do its job if merger activity increases later this year, as we have already observed during the second quarter.

This is not an appropriations decision; it is a policy against antitrust enforcement that undermines a bipartisan law. The clear intent of our legislation that received 88 votes out of 100 in the U.S. Senate—actual votes—was to provide antitrust enforcers with more resources. No one, when voting for this bill, believed the goal was to pay for anything but increased antitrust enforcement. It says it right in

the preamble to the bill. The act's purpose is "to promote antitrust enforcement and protect competition through adjusting premerger filing fees, and increasing enforcement resources."

The administration said the law would support its critical mission to "enforce the antitrust laws to combat the excessive concentration of industry, the abuses of market power, and the harmful effects of monopoly and monopsony."

Senator GRASSLEY said—and I am so pleased he joined me in an effort today—in a letter to say: Please, please clarify this. Maybe you didn't understand that it upended the law that we passed in this Chamber when you did it. You have a lot going on. You try to make compromises. I get it. You do all this stuff. But it is one thing to reduce someone's underlying budget, which happens from time to time; it is another to actually take the fees that we as a Chamber decided to go into a purpose and then decide that, well, we are just going to take away their merger fees that they have generated.

Grassley said this:

It's important that these government agencies have the resources needed to protect consumers and taxpayers. I'm proud to co-author this bipartisan bill, which will improve fairness in the fee schedules for proposed mergers and strengthen the ability of these agencies to challenge anticompetitive transactions.

Now is not the time to kneecap the ability to enforce our antitrust laws. Over 75 percent of U.S. industries have become more concentrated since the late 1990s. Since 2008, American firms have engaged in more than \$10 trillion in acquisitions—that is "trillion" with a "t"—and the 5 most powerful tech companies have completed more than 700 acquisitions, combined, since 1987.

Some of those are great. Some of that is good. But we all know now, when you have Google with a market share of 90 percent in the search market and you have anti-competitive behavior where these companies are putting their own products at the top of the search engines and pushing down small businesses—which is why the National Federation of Independent Business has made one of their top priorities passing another bill that Senator GRASSLEY and I have to put some rules of the road in place—you know we are seeing an issue. And we are not just seeing it in tech. We see it in everything from agriculture to ticketing, from cat food to caskets. This is why the administration put forward the Executive order. This is why we repeatedly see bipartisan support to do something about monopolies.

As ADAM SMITH, the godfather of capitalism, said—he didn't just talk about the "invisible hand," someone who influenced our Founding Fathers. As he said, beware the unbridled power of monopolies.

Today, antitrust enforcers—the cops on the beat—are being asked to do more with way too little. Between 2008

and 2020, the economy grew twice as fast as antitrust appropriations increased. For example, in 2010, the Antitrust Division received \$163 million. In 2020, the number had increased only \$3 million. At the same time, merger filings increased 80 percent, with 3,152 reportable mergers in 2022 alone. Yet, as of the fall of 2022, the Antitrust Division, as I noted, had 352 fewer employees than it did in 1979.

Think about the power we see out there with these companies. Do we not, as Americans, want some even playing field for small businesses and some rules of the road? That is why some of my most conservative colleagues have joined me—and some of our liberal colleagues and some people who are in the middle—in saying we need rules of the road. But if we are not going to do that, at least let our antitrust enforcers do their job.

It is no wonder we have this competition problem. Our competition enforcers don't have enough resources to effectively take on multibillion-dollar, much less multitrillion-dollar, companies.

Monopolies are spending millions to hold on to their power. Last Congress, I got to see up close how hard big tech companies are willing to fight to maintain their dominance.

I love these products. I have an iPhone. I have a Fitbit. I look at the platforms all the time. I get it. But I also believe in competition. You can still have these strong companies and make sure we have competition in these areas.

After an unprecedented lobbying effort by the dominant platforms, critical antitrust bills did not get a vote on the Senate floor, including ones that had come through the Judiciary Committee. It was reported that tech-funded groups spent more than \$120 million in advertising against these bills and \$90 million on lobbying over an 18-month period. That is more than \$200 million, really, on one bill, the bill that Senator GRASSLEY and I have—not the merger fee bill, which was nearly unanimously supported until it was upended mysteriously this week, but on our other bill about self-preferencing.

While that one sector spent that much—that is one sector of our economy, \$200 million on one bill—the appropriators just took \$45 million in potential fees and hid them under a rock somewhere in the Federal Government. And in just 1 week last May, a single industry group spent \$22 million on TV ads against the legislation I just mentioned—\$22 million against one bill in 1 week on TV ads all over the country. That is more than four times the amount allocated to the Antitrust Division per week.

I remember scrolling through the news and seeing internet popup ads that displayed in Washington, DC, from industry groups. They would say things like: Senator KLOBUCHAR could break Google Maps. The lawyers made them put in the "could," but you could hard-

ly read it. Senator KLOBUCHAR could destroy FaceTime. Senator KLOBUCHAR could break up Amazon Basics and take away Amazon Basics. They just put that "could" in the smallest font possible, but the lawyers made them do it because they knew it wasn't true. That is what we are up against.

Now, I know it is hard to get these bills done now, but I thought, well, at least the Antitrust Division has brought very significant actions involving Google's dominance with ads and other platforms. Those are big-deal things. And the FTC has brought a case that started during the Trump administration against Facebook. These cases are big deals if we want to do something about it because it doesn't look like we are going to get anything done here.

It takes time, it takes talent, and it takes money to even the playing field. For example, the DOJ's case seeking to break up Google's search monopoly started in 2020, and closing arguments won't be heard until May of this year. And that case only confronts one of the monopolies.

The Antitrust Division is trying these cases while simultaneously reviewing and challenging anti-competitive mergers.

Just Monday, JetBlue abandoned its merger with Spirit after the DOJ prevailed at trial. Anyone who travels knows you want to have choices. You want to be able to look at different air fees. I am looking at the pages. They know what I mean. You look, and you try to find the cheapest airfare you can find. Well, you are not going to be able to do that if there are no low-cost carriers and you aren't able to choose.

In the last 3 years, the Antitrust Division has also successfully protected consumers by investigating and challenging mergers between Penguin and Random House, Adobe and Figma, and Visa and Plaid, among many others. Recent reports indicate that the DOJ is wrapping up investigations that could lead to monopolization cases involving Apple, involving Live Nation and Ticketmaster.

While public information about these potential cases is obviously not out there—it shouldn't be—one thing we absolutely know is that litigating against these companies will take significant resources. That is what this is about. Will I agree with every case they bring? No. But I believe in the principle of competition, and I just believe also in the principle that when the Senate takes a vote on something and decides that we are going to actually put more resources into an Agency generated by merger fees that we have designated to go to that Agency, we mean it. A little group in a committee behind closed doors can't change that decision. They shouldn't be allowed to change that decision even if they don't like some of the cases that are brought.

The next time someone complains to you about a Taylor Swift ticket and

how much it costs or a Bad Bunny ticket and wondering why things got screwed up and why it never got investigated the way they thought it should, I guess we will have to say: Well, there was this little group of a committee that made a decision, even though the whole Senate voted to put the funding into a Division of the Justice Department to be able to do its job. Then, over a few months, a group of us just decided: We don't really want to do that. We want to actually take that money and maybe help someone else.

I am sure it may be a good cause. We don't know where the money went.

But it is against and upends the intent of the U.S. Senate to do something that was woefully underfunded for years and decades. And Senator GRASSLEY knows this. That is why he did the bill with me. That is why today we joined together in a letter to the appropriators asking them—this just can't abandon your intent. I just don't believe it was their intent to—when we actually passed a law to add funding through these merger fees, their intent can't have been to say: We are actually going to take away any upside for you; if you do more work and get more fees in, we are going to take away the upside that you always had for 25 years.

Yes, did they increase the budget by 8, 10 million, whatever it was? Yes. Yes, is it a hard budget year to make decisions? It is. But the point is, sometimes—like we did with semiconductor chips or we do with other things—that Congress makes a decision through the committee process—a long, tenuous process—that we are going to take one area of the government and actually not just put bandaids on, not just increase the budget a little bit, that we are going to do a game-changing thing.

That is what we did with the merger fee change. That is why Senator GRASSLEY and I worked on it for so long and got it through the Judiciary Committee. We were tired of the 3 million, 4 million that would hire the lawyers and still be one-fourth the size of the legal department. We were tired of having 350 less employees in that division than they had in 1979.

We made a decision as a Senate to vote for that and do that. And I just don't think we should be upending that decision through an appropriations process.

I got involved in this a long time ago when I was in the private sector. I represented MCI. I did a lot of work in telecom. And I saw firsthand what happened when you actually got competition, when you actually took a part of monopoly. What happened? Long distance rates went way down. What happened? We had burgeoning cell phone industry.

But before that, it was like the cell phones were the size of a Gordon Gekko's phone in that movie "Wall Street." They were like a brick.

Competition brought us that. Capitalism brought us that. But capitalism in America has always had the guard-

rails put around it, which is antitrust enforcement, as unsexy as it may sound.

It has made a difference in this country, and it is one of the reasons why we have this economy that can thrive, because we say at some point: Whoa, that is a monopoly, so we have to make sure there is some competition.

We can't do that here anymore. The Senate is not going to sit there and start deciding to break up this and break up that. Our antitrust enforcers do it. Our antitrust enforcers—maybe they don't break it up, but they say: Hey, you have to divest these areas of the country where you two companies that want to merge will become one and you will be the only game in town. That is not going to work for competition. It is incredibly complex.

So it isn't always a sympathetic case to make for having lawyers so they can take on the case against these companies, but it is a sympathetic case to make that we have too much consolidation, that we have to bring prices down, that you shouldn't have to pay all this money for concert tickets and all these hidden fees, that you shouldn't have to pay this much when there is so much consolidation in the grocery area and the like or in agriculture and things like that. That is what the antitrust division does.

I am hopeful. I see Senator MURRAY, who is such an incredible leader, here on the floor and hope we will be able to do something—a technical change to this bill—either this week, or we have another bill next week. So we can, at least, just bring back this part of the bill to the original intent of Congress.

I yield the floor.

The PRESIDING OFFICER (Mr. KELLY). The Senator from Washington.

SEC. 217. Payment of attorney fees in program-related litigation shall be paid from the individual program office and Office of General Counsel salaries and expenses appropriations.

SEC. 218. The Secretary is authorized to transfer up to 10 percent or \$5,000,000, whichever is less, of funds appropriated for any office under the headings "Administrative Support Offices" or "Program Offices" to any other such office under such headings: *Provided*, That no appropriation for any such office under such headings shall be increased or decreased by more than 10 percent or \$5,000,000, whichever is less, without prior written approval of the House and Senate Committees on Appropriations: *Provided further*, That the Secretary shall provide notification to such Committees 3 business days in advance of any such transfers under this section up to 10 percent or \$5,000,000, whichever is less.

Such requirements shall apply to insured and noninsured projects with assistance attached to the units under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f), but shall not apply to such units assisted under section 8(o)(13) of such Act (42 U.S.C. 1437f(o)(13)) or to public housing units assisted with capital or operating funds under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g).

(c)(1) Within 15 days of the issuance of the Real Estate Assessment Center ("REAC") in-

spection, the Secretary shall provide the owner with a Notice of Default with a specified timetable, determined by the Secretary, for correcting all deficiencies. The Secretary shall provide a copy of the Notice of Default to the tenants, the local government, any mortgagees, and any contract administrator. If the owner's appeal results in a passing score, the Secretary may withdraw the Notice of Default.

(I) take any other regulatory or contractual remedies available as deemed necessary and appropriate by the Secretary.

(d) The Secretary shall take appropriate steps to ensure that project-based contracts remain in effect, subject to the exercise of contractual abatement remedies to assist relocation of tenants for major threats to health and safety after written notice to the affected tenants. To the extent the Secretary determines, in consultation with the tenants and the local government, that the property is not feasible for continued rental assistance payments under such section 8 or other programs, based on consideration of—

(1) the costs of rehabilitating and operating the property and all available Federal, State, and local resources, including rent adjustments under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 ("MAHRAA"); and

(2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may contract for project-based rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance.

TITLE I

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION OVERVIEW

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted.

The reprogramming criteria that apply to military construction projects, as well as new housing construction projects and improvements, is \$6,000,000 or 25 percent of the funded amount, whichever is less. To provide the Services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed.

Furthermore, in instances where prior approval of a reprogramming request for a project or account has been received from the Committees, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the Services are directed to adhere to the guidance for military construction reprogramming actions and notifications, including the pertinent statutory authorities contained in Department of Defense (DOD) Financial Management Regulation 7000.14-R and relevant updates and policy memoranda.

Facilities Sustainment, Restoration and Modernization (FSRM).—The Department of Defense is directed to continue describing on form 1390 the backlog of FSRM requirements at installations with future construction projects. For troop housing requests, form 1391 should describe any FSRM conducted in the past two years. Likewise, future requirements for unaccompanied housing at the corresponding installation should be included. Additionally, the forms should include English equivalent measurements for projects presented in metric measurement. Rules for funding repairs of facilities under the Operation and Maintenance accounts are described below:

- (1) components of the facility may be repaired by replacement. Such replacement can be up to current standards or codes;
- (2) interior arrangements and restorations may be included as repair;
- (3) additions and new facilities may be done concurrently with repair projects, as long as the final conjunctively funded project is a complete and usable facility; and
- (4) the appropriate Service Secretary shall notify the appropriate committees prior to carrying out any repair project with an estimated cost in excess of \$7,500,000.

This language replaces the language under the heading “FSRM” in House Report 118-122 and the language under the heading “Real Property Maintenance” in Senate Report 118-43.

Military Construction Funding.—The agreement includes \$18,675,000,000, which is

\$2,000,056,000 above the budget request, in a continued effort to support current and future force readiness through critical infrastructure investments. This funds unfunded requirements and addresses other priorities that have been historically neglected in budget requests, such as resiliency and quality of life projects. While Congress continues to provide funding above the budget request for military construction, the Committees again encourage the Department to adequately resource these accounts.

Strategic Construction in the Indo-Pacific Region.—Since fiscal year 2020 the Committees have provided more than \$128,000,000 above the budget request to assist Indo-Pacific Command (INDOPACOM) in developing and executing military construction projects that enhance U.S. posture and partnerships in the region. The Committees are encouraged by the Department’s proposed INDOPACOM construction investments and continue to fund additive efforts to effectively and efficiently address infrastructure requirements. The agreement provides \$69,000,000 in planning and design and \$62,000,000 in unspecified minor construction as identified on INDOPACOM’s unfunded priorities list. Lastly, the Committees note that the additional unspecified minor construction funds provided are not limited to the Exercise Related Construction program but are available for any unspecified minor construction undertaken by INDOPACOM.

Military Installation Resilience.—Since fiscal year 2020 the Committees have provided dedicated planning and design and unspecified minor construction funding to support installation resilience. The primary intent of this funding has been to develop and carry out projects that mitigate climate change risks to military installations. The Committees believe that such investments are critical to installation readiness and therefore provide \$30,000,000 for planning and design and unspecified minor construction in section 128 to continue to develop projects, conduct studies and analyses, and update Unified Facility Criteria that will directly enhance military installation resilience.

Child Development Centers (CDCs).—The Committees continue to recognize the importance of access to childcare in improving both readiness and quality of life for service members and their families. The agreement includes \$336,320,000 for CDCs, which provides \$276,820,000 for construction of six new CDCs and \$59,500,000 in planning and design funding to help develop future construction projects. The Committees encourage the Services to continue to focus on improving and replacing aging facilities, especially at underserved installations.

Laboratory Infrastructure.—The Committees are concerned that aging laboratory infrastructure threatens the ability of Services to maintain the advanced technology necessary to keep ahead of U.S. adversaries across all domains. Accordingly, the agreement includes an additional \$30,000,000 in section 129 for planning and design and unspecified minor construction for laboratory infrastructure projects.

Condition of DOD Barracks.—The Committees recognize ensuring the quality of DOD unaccompanied housing as a priority and provide resources throughout this bill for the planning and design and construction of barracks totaling \$662,375,000. In addition, the Committees are concerned about the findings identified in the Government Accountability Office (GAO) report entitled, “Military Barracks: Poor Living Conditions Undermine Quality of Life and Readiness” (GAO-23-105797), and urge DOD to expeditiously address the recommendations. The Committees believe that changes to DOD policies and practices, such as establishing consistent habitability standards, and consistently identifying and addressing health and safety issues across the Services are necessary to ensure quality unaccompanied housing for servicemembers. As such, the agreement directs a report from each of the Services on how they are addressing GAO’s recommendations, including a timeline for implementation, and how they are making systemic changes to the quality of barracks not later than 90 days after enactment of this Act.

Demolition of Excess Infrastructure.—The agreement includes \$45,000,000 for unspecified minor military construction for demolition to address excess and obsolete infrastructure found on installations. While the Committees understand the need to balance demolition with other infrastructure needs, excess infrastructure can be costly to maintain and diverts resources away from current requirements.

Incremental Funding.—The Committees recognize that providing full funding for military construction projects if they are executable is ideal. However, it continues to be the practice of the Committees to provide incremental funding for certain large projects to enable the Services to more efficiently allocate military construction dollars among projects that can be executed in the year of appropriation. Therefore, the agreement includes eleven projects that have been incrementally funded.

Military Construction Funding Initiatives.—The agreement includes funding to address important unfunded priorities and cost to completes included in DOD’s unfunded priority lists provided to Congress. This includes an additional \$8,214,000 for the Army, \$182,150,000 for the Navy and Marine Corps, \$166,300,000 for the Air Force, \$62,400,000 for Defense-Wide, \$66,815,000 for the Army National Guard, \$5,200,000 for the Air National Guard, and \$23,000,000 for the Army Reserve.

The agreement provides \$2,022,775,000 for “Military Construction, Army”, which is \$552,220,000 above the budget request. Within this amount, the agreement includes \$398,145,000 for study, planning, design, architecture, and engineering services, and host nation support. MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$5,531,369,000 for "Military Construction, Navy and Marine

Corps", which is \$490,818,000 below the budget request. Within this amount, the agreement includes \$711,505,000 for study, planning, design, architecture, and engineering services.

Within the total for Military Construction, Navy and Marine Corps, \$335,563,000 is for the following projects in the following amounts:

State	Location	Project	Amount

Joint Base Pearl Harbor-Hickam Infrastructure Investments.—Reflecting concerns noted in House Report 118-122, the agreement directs the Assistant Secretary of the Navy for Energy, Installations, and Environment, in consultation with the Assistant Secretary of the Air Force for Energy, Installations, and Environment to submit the report requested in House Report 118-122.

Shipyards Infrastructure Optimization Plan (SIOP).—The Committees continue to recognize the importance of SIOP and the need to adequately resource investments in dry docks and shore infrastructure as well as the development of future projects. Therefore, in addition to fully funding the budget request of \$2,285,000,000, the agreement further provides \$164,080,000 above the request to advance design efforts and address additional construction costs.

The agreement reaffirms the Committees' belief that the management and oversight of SIOP is key to the program's success. As such, in lieu of the direction in House Report 118-122, the agreement directs the Comptroller General to submit a report or reports, as necessary, on options for improving the management and oversight of SIOP. The Comptroller General should assess, at a minimum, the following: (1) the Navy's acquisition strategy for procuring services and managing projects for SIOP across the shipyards; (2) the Navy's support to the public shipyards and local shipyard construction agents; and (3) how the Navy's policies and procedures for large facility improvements greater than \$500,000,000 compare to those of other Federal agencies. The agreement further directs the Comptroller General to brief

the Committees on Appropriations of both Houses of Congress on its preliminary findings not later than 180 days after enactment of this Act, and to provide a full report on the findings of each review to the Committees at a date agreed upon at the preliminary briefing.

Ground Based Strategic Deterrent (GBSD) Infrastructure.—The Committees support the Sentinel program and believe effective plan-

ning and deliberate budgeting for military construction are critical to the program's success, but are concerned about potential

cost growth and schedule delays. The agreement includes \$140,000,000, as requested, for

three projects to construct integrated command and training centers, as well as a missile handling complex. Recognizing the significant future investments needed and complex military construction environment moving forward, the Committees direct the Secretary of the Air Force to continue providing quarterly briefings on the infrastructure needs related to the Sentinel program.

U.S. Space Command.—The Committees recognize Section 2889 of the 2024 National Defense Authorization Act addresses the selection of the location for the United States Space Command Headquarters and restricts

authorization for facilities related to the Headquarters until June 30, 2024. The Committees look forward to the completion of the reviews of the site selection process being conducted by the Inspector General of the Department of Defense and the Comptroller General of the United States, and in addition to the report on obligations and expenditures requested in House Report 118–122 and in Senate Report 118–43, the Department shall report to the congressional defense committees on the permanent location of the United States Space Command and a plan to fully address all recommendations of

Recognizing the active costs associated with ordnance disposal and other environmental cleanup requirements, the agreement also provides additional funding for the Services to remediate hazardous environmental sites at installations closed under previous Base Closure and Realignment rounds. Further, the agreement recognizes the Navy’s efforts towards the demolition and removal of non-historically designated buildings and structures under Navy control where the sampling or remediation of radiologically contaminated materials have been the subject of substantiated allegations of fraud. The Services are directed to submit a spend plan for all additional funding to the Committees no later than 60 days after enactment of this Act.

FAMILY HOUSING ITEM OF INTEREST

Housing Oversight.—The Committees continue to be concerned about poor housing conditions, inadequate maintenance response times, and other issues affecting the wellbeing of servicemembers and their families. The Committees believe that robust oversight over Military Housing Privatization Initiative (MHPI) management companies is necessary to ensure that servicemembers and their families can live in quality housing that is properly maintained. The agreement provides \$30,000,000 above the budget request for oversight of DOD’s housing portfolio, including government-owned and controlled family housing, privatized family, and unaccompanied housing. The Committees expect this funding to be utilized by the Services to improve their oversight of their housing portfolios, including housing inspections and improved training for individuals conducting those inspections. The Committees are concerned that current practices, such as inspections during tenant changes, are not being carried out consistently in all cases. The Committees recognize that changes in culture and procedures are necessary, in addition to funding,

to achieve sufficient oversight of all DOD housing. The Committees direct the Services to continue to review their training and inspection processes, among other methods for ensuring quality housing and holding privatized housing partners accountable, to ensure they are providing proper management of their housing portfolios, and request a briefing on such efforts no later than 120 days after enactment of this Act.

The agreement provides \$182,310,515,000 for Compensation and Pensions in advance for

fiscal year 2025. Of the amount provided, not more than \$22,109,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration (VBA) and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38. The agreement provides an additional \$15,072,388,000 above the fiscal year 2024 advance appropriation for the Compensation and Pensions account.

READJUSTMENT BENEFITS

The agreement provides \$13,399,805,000 for Readjustment Benefits in advance for fiscal year 2025. The agreement provides an additional \$374,852,000 above the fiscal year 2024 advance appropriation for the Readjustment Benefits account.

Veteran Employment Through Technology Education Courses.—The Committees expect the Department to fully fund the program consistent with current law, and encourage VA to take steps to expand the program to address increased demand, by including additional providers, particularly in areas of the country where the initiative is not currently available, as well as to help train and employ women veterans and veterans with disabilities.

Veteran Transitional Assistance Grant Program (VTAG).—The Committees continue to support VTAG and include an additional \$5,000,000 above the fiscal year 2023 level, as requested.

VETERANS INSURANCE AND INDEMNITIES

The agreement provides \$135,119,422 for Veterans Insurance and Indemnities in advance for fiscal year 2025. The agreement provides an additional \$12,701,000 above the fiscal year 2024 advance appropriation for the Veterans Insurance and Indemnities account.

VETERANS HOUSING BENEFIT PROGRAM FUND

The agreement provides such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund. The agreement limits obligations for direct loans to not more than \$500,000 and provides \$316,742,419 to be available for administrative expenses.

Home Loan Guaranty Program.—The agreement notes the Committees are concerned about the impact that the expiration of emergency authorities is having on veterans who were seeking loan forbearance during the COVID-19 pandemic for VA-guaranteed loans. While understanding that VA lacks legal authority to require servicers to pause foreclosures, VA must do everything in its power to quickly institute regulations for a new program to assist veterans facing foreclosure. The Department is directed to provide a briefing to the Committees on Appropriations of both Houses of Congress, no later than 90 days after enactment of this Act, with information including the number of VA-guaranteed loans for which servicers will not pause foreclosures, and efforts undertaken to assist the nearly 4,000 veterans whose VA-guaranteed loans were foreclosed, as well as those who avoided foreclosure by accepting new loans with highly unfavorable terms.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

The agreement provides \$78,337 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus \$460,698 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration. The agreement provides for a direct loan limitation of \$2,026,000.

The agreement provides for loans of up to \$1,447 (based on the indexed chapter 31 subsistence allowance rate) to service-connected disabled veterans enrolled in vocational rehabilitation programs, as provided under 38 U.S.C. chapter 31.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

The agreement provides \$2,718,546 for administrative expenses of the Native American Veteran Housing Loan Program Account. This is an increase of \$1,318,546 over the fiscal year 2023 level.

GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The agreement provides \$3,899,000,000 for General Operating Expenses, Veterans Benefits Administration and, of the amount provided, up to 10 percent is available for obligation until September 30, 2025. In addition, VA estimates to use \$1,769,000,000 from the Toxic Exposures Fund to support GOE, VBA activities related to toxic exposures in fiscal year 2024.

Compensation and Pension (C&P) Claims and Medical Exams.—The Committees are reassured that the expected increase in disability claim applications by veterans because of new eligibilities in the Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics (PACT) Act of 2022 (Public Law 117-168) is being realized. However, the Committees are concerned about a growing disability claims backlog and limited oversight of contracted providers for medical exams. As described in House Report 118-122 and Senate Report 118-43, the agreement continues to strongly encourage the implementation of special training protocols and oversight of C&P medical exams, especially for claims related to military sexual trauma.

In addition to the reporting requirements in Senate Report 118-43 on “Contract Providers for Exams”, the agreement directs the Department to submit a report to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act on the use of third-party contractors to conduct medical disability examinations of veterans for purposes of obtaining disability compensation. The report should include the number of contractors used in each state to conduct disability compensation exams; contract performance and quality measures; the average miles a veteran is required to travel to attend a contract medical disability examination disaggregated by state; the average wait time for an individual to receive an exam; and a description of the process at the Department for handling complaints of veterans about their experience with a contracted medical disability examiner.

VETERANS HEALTH ADMINISTRATION

For fiscal year 2024, the agreement provides a total of \$121,011,303,000 for VA’s medical care, equal to the budget request, and in accordance with agreements related to the Fiscal Responsibility Act of 2023 (Public Law 118-5). In addition, VA estimates to use \$17,116,000,000 from the Toxic Exposures Fund to support medical care, for a total of \$138,127,303,000 in medical care funding in fiscal year 2024.

ITEMS OF INTEREST

American Indian/Alaska Native, Native Hawaiian, Pacific Islander and U.S.-Affiliated Pacific Islander Veterans.—The agreement reaffirms the Committees’ appreciation for American Indian/Alaska Native, Native Hawaiian, Pacific Islander and U.S.-Affiliated Pacific Islander military service and recognizes the challenges they have in securing the benefits they have earned. As described in House Report 118-122 and Senate Report 118-43, the agreement continues to require reporting on efforts to improve and expand access to benefits, mental health, preventative and wellness programs, telehealth, among other programs, and reduce homelessness, among these veteran populations. The

agreement continues to support the establishment of the Center for Native Hawaiians, Pacific Islanders, and U.S.-Affiliated Pacific Islanders Health.

Child Care Assistance Expansion.—The Committees are disappointed in the Department's slower than anticipated progress to expand child care assistance to veterans receiving healthcare at all VA medical facilities by January 5, 2026, as required by the Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020 (Public Law 116-315). The agreement directs the Department to brief the Committees on Appropriations of both Houses of Congress no later than 30 days after enactment of this Act on the status of the regulatory process, the new timeline for expansion to the planned number of sites, and progress on completing the information technology systems necessary for this expansion. Further, the agreement directs the Department to include cost estimates, timelines, and actions taken by the Department in the justifications accompanying the fiscal year 2025 budget submission. The Committees encourage the Department to reevaluate under which program office the child care program should reside.

Special Modes of Transportation.—The Committees acknowledge the Department's actions to postpone the final effective date for reimbursement rates for ground and air ambulance services. Before modifying these rates in accordance with the new timeline, the Department is directed to communicate directly with service providers to fully understand the impact of the proposed rule change on veterans. Further, the Department should identify staff dedicated to facilitating contracting with providers of these services at fair and appropriate reimbursement rates, to include providing technical assistance on the contracting process, and to provide support for entities who are beginning the contracting process for the first time. The agreement directs the Department to report back to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act on the feedback received from industry stakeholders and its plan for ensuring zero harm to veterans.

Congressional Oversight.—The agreement does not include the direction regarding congressional oversight in the overview to Title II of House Report 118-122.

MEDICAL SERVICES

(INCLUDING RESCISSION OF FUNDS)

The agreement provides \$71,000,000,000 in advance for fiscal year 2025 for Medical Services, with \$2,000,000,000 available through fiscal year 2026. The Committees provided an advance appropriation of \$74,004,000,000 for fiscal year 2024 for the Medical Services account in Public Law 117-328. The agreement includes a negative adjustment to the fiscal year 2024 advance of \$3,034,205,000, which provides the Department with total budget authority of \$70,969,795,000, consistent with the revised request.

In addition, VA estimates to use \$9,525,428,000 from the Toxic Exposures Fund to support medical services in fiscal year 2024. VA also has the authority to retain co-payments and third-party collections.

Caregiver Support Program

The agreement includes \$2,422,410,000 for VA's Caregivers Program, and continues the requirement for quarterly reporting on obligations.

Program of Comprehensive Assistance for Family Caregivers (PCAFC) Program.—The Committees support the Department's decision to suspend reassessments and discharges for legacy PCAFC participants, and again

urges the Secretary to permit recently disqualified and denied applicants with a history in the program to have their applications automatically reconsidered under current requirements, rather than go through the appeals process.

Centers of Excellence

Neurology Centers of Excellence.—The Committees recognize the increasing number of veterans affected by neurologic conditions, including epilepsy, headache, multiple sclerosis, and Parkinson's disease. The Neurology Centers of Excellence provide essential innovative clinical care, education, and research efforts focused on these conditions. Further investment and collaboration of the Centers across disciplines is encouraged, and the agreement includes \$70,000,000 for Neurology Centers of Excellence, \$10,460,000 over the budget request and \$20,460,000 over the fiscal year 2023 enacted level. This includes \$25,000,000 for epilepsy; \$24,000,000 for headache; \$14,500,000 for Parkinson's; and \$6,500,000 for multiple sclerosis.

National Center for Post-traumatic Stress Disorder (PTSD).—Recognizing the importance of VA's National Center for PTSD in promoting better prevention, diagnoses and treatment of PTSD, the agreement provides \$42,000,000 for the Center, as requested.

Airborne Hazards and Burn Pits Center of Excellence.—The agreement provides \$15,000,000 and continues to support the Airborne Hazards and Burn Pits Center of Excellence on diagnoses, mitigation, and treatment of conditions related to airborne hazards and burn pits.

Homeless Assistance Programs

The agreement supports \$3,113,530,000 for programs to prevent veteran homelessness, including \$774,744,000 for Supportive Services for Veterans Families (SSVF), \$620,000,000 for the Department of Housing and Urban Development-Veterans Affairs Supportive Housing (HUD-VASH), \$306,161,000 for Grant and Per Diem (GPD) programs, and \$109,721,000 for the Veterans Justice Outreach program and Legal Services for Veterans grants.

HUD-VASH Case Management.—As included in House Report 118-122 and Senate Report 118-43, the agreement directs VA to increase funding for case managers commensurate with increases in the Department of Housing and Urban Development's budget for new HUD-VASH vouchers. The Committees are frustrated by the lack of progress in publishing joint VA-HUD guidance regarding approval of a Public Housing Authority to be a designated service provider. The Committees expect to see the necessary guidance published not later than 90 days after enactment of this Act, and direct the Department to coordinate with the Department of Housing and Urban Development and brief the Committees on Appropriations of both Houses of Congress no later than 30 days after enactment of this Act with an update on the progress and timeline for publishing its guidance.

Mental Health and Suicide Prevention Programs

The agreement provides \$16,243,469,000 in discretionary funds for mental health programs, of which \$558,794,000 is for suicide prevention outreach, including \$300,500,000 for the Veterans Crisis Line (VCL), fully supporting the request. In addition to reporting requirements outlined in House Report 118-122 and Senate Report 118-43, VA is directed to ensure appropriate staffing for call centers and back-up centers, provide training necessary for the VCL staff to assist veterans in crisis, and ensure staff are able to respond to the needs of veterans appropriately and effectively. Additionally, the Committees direct VA to enable the VCL to

utilize geolocation capabilities to facilitate accurate emergency dispatch to persons at risk of imminent harm to self or others. The Committees direct VA to focus on efforts to address parking lot suicides and to connect veterans to care. The Committees recognize the importance of suicide prevention coordinators and direct VA to fully staff these positions and improve veterans' access to these coordinators.

Opioid Safety Initiatives and Substance Use Disorder Care

The Committees recognize the importance of intervention and support programs for at-risk veterans and their families. The agreement includes \$715,365,000 for Opioid Prevention and Treatment programs, which is \$52,560,000 above the fiscal year 2023 enacted level. Of this total, \$254,487,000 is to continue implementation of the Jason Simcakoski Memorial and Promise Act, as part of the Comprehensive Addiction and Recovery Act of 2016 (Public Law 114-198) and \$230,947,000 for Substance Use Disorder programs.

Rural Health

The agreement provides \$342,455,000 for the Office of Rural Health and the Rural Health Initiative, which is \$5,000,000 above both the fiscal year 2023 enacted level and budget request. The Committees recognize the challenges and barriers to care for more than 3,000,000 enrolled rural and remote veterans and directs the Office of Rural Health to expand and improve transportation access to and from facilities that serve rural veterans.

Rural Access Network for Growth Enhancement (RANGE).—The RANGE Program provides case management and treatment services to mentally ill veterans in rural areas. The agreement includes sufficient funding to maintain the three new centers of the RANGE Program, as authorized by the Sgt. Ketchum Rural Veterans Mental Health Act of 2021 (Public Law 117-21).

Telehealth and Connected Care

The agreement provides \$5,170,336,000 for Telehealth and Connected Care services, which is \$5,000,000 above the budget request. The Committees direct VA to continue to expand telehealth availability, including mental health, primary care, and rehabilitation services as a means to deliver care, including in rural and underserved communities. In addition to fully funding costs associated with telehealth treatment, the agreement directs \$5,000,000 for the purpose of expanding veteran access to telehealth technologies, including through new and innovative measures. The Department is directed to provide an expenditure plan for these funds no later than 180 days after enactment of this Act.

Whole Health

The agreement provides \$107,848,000 for Whole Health, as requested, which is \$21,997,000 above the fiscal year 2023 enacted level. The Committees support the Whole Health model of care and the expansion of Whole Health to all VA facilities.

than 90 days after enactment of this Act. In addition, the Department is directed to provide quarterly briefings to the Committees on the expenditure of the funds. The Department is further directed to continue upgrading medical facilities for women veterans.

Mobile Mammography.—The Committees direct the Department to develop a plan to expand access to mammography for veterans, including through the use of a mobile mammography unit, by the end of fiscal year 2025. The plan should include data related to the cost of expansion, including for mobile mammography units, and be provided to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act. As noted in House Report 118-122, the Committees commend VA's decision to offer breast cancer screening and mammography to eligible women veterans and urge the Department to include younger veterans, as appropriate.

Workforce and Staffing Issues

VHA Staffing.—The Committees recognize the challenge VA has in recruiting and retaining physicians, physician assistants, nurses, mental health providers, other healthcare professionals, and related support staff, and encourage VA to explore all potential options to enhance recruitment and retention. Also, the Committees remind the Department to submit its annual staffing report to address critical workforce issues, as required by the Joint Explanatory Statement accompanying Public Law 117-103.

Long-Term Care

The agreement provides \$12,940,784,000 for institutional and non-institutional care, equal to the budget request. The Committees are aware of the aging veteran population and support long-term care that focuses on facilitating veteran independence, enhancing quality of life, and supporting the family members of veterans. As such, the Committees support the Department's efforts to broaden veterans' options regarding non-institutional long-term care support and services, and to accommodate veterans' preferences in how and where they receive care and other services.

Data Sharing with State Cancer Registries.—The Committees direct the Secretary of Veterans Affairs to provide a plan no later than 90 days after enactment of this Act on how the Department will begin to share qualifying cancer related data with the State cancer registry of each state before the end of the fiscal year.

The Committees provided an advance appropriation of \$33,000,000,000 for fiscal year 2024 for the Medical Community Care account in Public Law 117-328. The agreement includes a negative adjustment to the fiscal year 2024 advance of \$2,657,977,000, which provides the Department with total budget authority of \$30,342,023,000, consistent with the revised request.

In addition, VA estimates to use \$6,740,264,000 from the Toxic Exposures Fund to support medical community care in fiscal year 2024.

State Veterans Homes Per Diem.—The Committees understand the Department intends to revise the formula used for determining per diem rates at state veterans homes, and support this effort.

MEDICAL SUPPORT AND COMPLIANCE (INCLUDING RESCISSION OF FUNDS)

The agreement provides \$11,800,000,000 in advance for fiscal year 2025 for Medical Sup-

port and Compliance, with \$350,000,000 available through fiscal year 2026. The Committees provided an advance appropriation of \$12,300,000,000 for fiscal year 2024 for the Medical Support and Compliance account in Public Law 117-328. The agreement includes a negative adjustment to the fiscal year 2024 advance of \$1,550,000,000, which provides the Department with total budget authority of \$10,750,000,000 consistent with the revised request.

In addition, VA estimates to use \$850,000,000 from the Toxic Exposures Fund for medical support and compliance activities in fiscal year 2024.

MEDICAL FACILITIES

The agreement provides \$9,400,000,000 in advance for fiscal year 2025 for Medical Facilities, with \$500,000,000 made available through fiscal year 2026. The agreement provides an additional \$149,485,000 above the fiscal year 2024 advance appropriation for this account, bringing the Department's total budget authority for fiscal year 2024 to \$8,949,485,000, consistent with the revised request.

The Committees expect VA to provide, no later than 30 days after enactment of this Act, an expenditure plan detailing the planned use of the funds provided, and further, the Committees request a quarterly update of the plan if the funding for any single project changes by more than \$3,000,000 during that time period.

The Department is directed to continue upgrading medical facilities to meet the needs of women veterans and is reminded of the annual reporting requirement included in the Joint Explanatory Statement accompanying Public Law 116-94 related to women's healthcare facilities.

Community-Based Outpatient Clinic in Bakersfield, California.—The Committees remain concerned that a new Bakersfield CBOC remains unbuilt more than a decade after Congress authorized this facility in Public Law 111-82. Recognizing the constraints due to ongoing litigation, the Committees direct the Secretary to expeditiously execute Lease No. 36C10F20L0008 and commence construction of the CBOC as soon as possible. The Committees direct the Secretary to provide monthly reports on the CBOC's progress until completion and activation.

MEDICAL AND PROSTHETIC RESEARCH

The agreement provides \$943,000,000 for Medical and Prosthetic Research, available until September 30, 2025, which is \$5,000,000 above the request. Bill language is included to ensure that the Secretary allocates adequate funding for prosthetic research specifically for female veterans. In addition, VA estimates to use \$46,000,000 from the Toxic Exposures Fund to support medical and prosthetic research activities related to toxic exposures in fiscal year 2024.

Access to Clinical Oncology Trials.—The Committees continue to support the ongoing collaborative efforts between VA medical centers and National Cancer Institute (NCI)-designated comprehensive cancer centers, but notes the lack of infrastructure for clinical trials in other areas of the country. Expanding access to clinical oncology trials remains a priority and as such the Committees direct that not less than \$10,000,000 be allocated to support partnerships between VA medical centers and NCI-designated comprehensive cancer centers.

Due to the lack of capacity to enhance and increase current clinical cancer trials into additional areas of the country, the Committees direct that up to an additional \$5,000,000 be allocated to expand the Precision Oncology Program for Cancer of the Prostate (POPCaP) program to new sites in order to facilitate additional partnerships between VA medical centers and university cancer centers.

Animal Research.—As included in House Report 118-122, the agreement directs the Department to include in any report to Congress describing animal research details on the specific alternatives to animals that were considered, why those alternatives were not chosen, and an explanation for why these animal subjects were the only viable option for this research. The Committees remind the Department of the requirement to eliminate research conducted using canines, felines, or non-human primates by March 2026, and request a briefing on a plan to do so within 90 days of enactment of this Act.

Women Veterans Research.—The Committees continue to encourage VA to expand its research on the effects of toxic exposure and ensure women are appropriately represented in these efforts. The agreement directs VA to provide a briefing to the Committees on Appropriations on both Houses of Congress on how the Department is continuing to pursue efforts to be more inclusive of women in its research within 90 days of enactment of this Act.

Toxic Exposures Research.—As included in House Report 118-122 and Senate Report 118-43, the Committees encourage the Department to continue research on the effects of and treatments for veterans exposed to toxins, such as Agent Orange, burn pits, Per- and polyfluoroalkyl substances (PFAS), radiation, asbestos, and aqueous Film Forming Foam (AFFF), and looks forward to the requested report. The Committees continue to direct VA to collaborate with the Department of Defense PFAS Task Force, academia, and other health institutions and agencies to monitor research activities, results, and publications on the health effects from PFAS.

MEDICAL CARE COLLECTIONS FUND

The agreement includes the authority for the Medical Care Collections Fund to retain co-payments and third-party collections, estimated to total \$3,991,000,000 in fiscal year 2024.

NATIONAL CEMETERY ADMINISTRATION

The agreement provides \$480,000,000 for the National Cemetery Administration (NCA). Of the amount provided, up to 10 percent is available until September 30, 2025.

Rural Initiative National Cemetery Facilities.—The Committees support the National Cemetery Administration's efforts to construct additional infrastructure at its Rural Initiative national cemeteries. In order to ensure that these infrastructure projects are meeting the needs of veterans, volunteers, and visitors, the Department should conduct an assessment at each Rural Initiative National Cemetery site, with feedback from community stakeholders—to include veterans, veterans service organizations, volunteers, local leadership, adjacent landowners, and visitors, to determine if it is advisable to construct permanent support infrastructure. The Committees strongly encourage the Department to work with State and local entities, and non-profit organizations interested in constructing and donating facilities or donating funding for VA-built facilities, to include funds for construction and future operations and maintenance costs, to help meet location-specific needs, as appropriate.

DEPARTMENTAL ADMINISTRATION

GENERAL ADMINISTRATION (INCLUDING TRANSFER OF FUNDS)

The agreement provides \$475,000,000 for General Administration. Of the amount provided, up to 10 percent is available for obligation until September 30, 2025. The agreement continues to include bill language permitting the transfer

of funds from this account to General Operating Expenses, Veterans Benefits Administration.

The Committees direct the Secretary to provide a spend plan on how the Department allocates the General Administration funding by office to the Committees within 30 days of enactment of this Act. The Secretary may alter these allocations if the Committees have been notified and written approval is provided.

Lobbying Congress.—In lieu of language included in House Report 118-122, the Department is reminded of the statutory anti-lobbying restrictions in place in 18 U.S.C. 1913, which prohibits lobbying by federal agencies. The Secretary is directed to ensure compliance with these laws on all public statements, and to make all central office based employees of the Office of Public Affairs receive training on the Hatch Act and its application to ensure official Department resources are being used in a nonpartisan manner.

Office of Resolution Management, Diversity, and Inclusion (ORMDI).—In lieu of the direction in House Report 118-122, the agreement includes an additional \$58,927,000 above the fiscal year enacted 2023 level to support compliance with Section 402 of Division U of the Consolidated Appropriations Act, 2023. The agreement does not include additional funds above the fiscal year 2023 level for diversity and inclusion programming for ORMDI. The agreement does not include the additional direction under this heading in House Report 118-122.

Predatory Representational Services to Veterans.—The Committees remain concerned about individuals and organizations aggressively marketing representational services to veterans using predatory tactics, often resulting in veterans having to pay exorbitant fees for representation for disability compensation claims, appeals, and Camp Lejeune related lawsuits. The VA Office of General Counsel is strongly encouraged to increase efforts to properly oversee claims representative accreditation, as well as ensure veterans are fully aware of their due process rights, VA’s duty to assist, and the free representational services offered by accredited veterans service organizations.

BOARD OF VETERANS APPEALS

The agreement provides \$287,000,000 for the Board of Veterans Appeals (BVA), of which up to 10 percent shall remain available until September 30, 2025. In addition, VA estimates to use \$4,000,000 from the Toxic Exposures Fund to support BVA activities related to toxic exposures in fiscal year 2024.

INFORMATION TECHNOLOGY SYSTEMS
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$6,401,000,000 for the Information Technology (IT) Systems account. The agreement includes \$1,606,977,000 for staff salaries and expenses, \$4,668,373,000 for operation and maintenance of existing programs, of which \$75,288,000 is available through fiscal year 2028 for facility activations related projects, and \$125,650,000 for program development. In addition, VA estimates to use \$1,243,000,000 from the Toxic Exposures Fund to support information technology systems activities related to toxic exposures in fiscal year 2024.

The agreement makes no more than 3 percent of pay and associated costs funding available through fiscal year 2025, no more than 5 percent of operations and maintenance funding available through fiscal year 2025, and all IT systems development funding available through fiscal year 2025.

The agreement continues to include language permitting funding to be transferred among the three IT subaccounts, subject to approval from the Committees, and allowing funding to be transferred among development projects or to new projects subject to the Committees’ approval. Further, the agreement prohibits increasing or decreasing a development project by more than \$3,000,000 prior to receiving approval of the Committees or after a period of 30 days has elapsed.

This table is intended to serve as the approved list of development projects; as noted above, any requested changes exceeding \$3,000,000 to a project are subject to reprogramming requirements.

The agreement makes 25 percent of funds contingent upon the Secretary providing certain information to the Committees.

The agreement continues quarterly reporting of obligations, expenditures, and deployment schedule by facility. The Committees expect the Department to continue quarterly briefings on program implementation, including updates on progress resolving outstanding issues, and to provide quarterly updates to review timelines, performance milestones, implementation, and change management progress. The agreement further directs the Secretary to submit a report containing an

earned value analysis of the Veterans Electronic Health Record system, including a graphic performance report, a schedule and cost performance indexes, an estimate of completion and a budget at completion, and a variance analysis for cost and schedule.

Contractor Accountability.—The Committees expect VA will hold Oracle Cerner accountable and work with them to improve usability of the system and training. Additionally, the Committees support the modifications to the Department’s updated contract with Oracle Cerner and request semi-annual reports on any financial penalties the contractor has incurred.

Support for Operations at Sites Utilizing the New EHR.—For each site using the new EHR, the Committees direct the Department to ensure that implementation of the new EHR has not had negative impacts on the relevant facilities, especially with respect to any formulaic funding or staffing models. The Department is directed to periodically report to the Committees on Appropriations of both Houses of Congress on changes to staffing levels, productivity compared to pre-implementation levels, and wait times for access to VA care and care in the community. The Committees also discourage the Department from retaliation against employees who raise patient safety concerns related to the EHR Modernization activities.

Enterprise Integration and Standardization.—In addition to the direction included in House Report 118-122, the Department is directed to provide a report within 45 days of enactment of this Act on its plans to ensure modifications and system customization at individual facilities is extremely limited. The report should provide an understanding of what the base standardized system entails, and report quarterly on deviations from this standard, and the reasons such deviations are necessary.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$296,000,000 for the Office of Inspector General. Of the amount provided, up to 10 percent is available for obligation until September 30, 2025.

EXPLANATORY STATEMENT SUBMITTED BY MRS. MURRAY, CHAIR OF THE SENATE COMMITTEE ON APPROPRIATIONS, REGARDING H.R. 4366, CONSOLIDATED APPROPRIATIONS ACT, 2024

The following is an explanation of the Consolidated Appropriations Act, 2024.

DIVISION B—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2024

CONGRESSIONAL DIRECTIVES

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118-124 and Senate Report 118-44 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate or this explanatory statement has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in this Division of this statement, the term ‘the Committees’ refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO-04-261SP Appropriations Law—Vol. I and GAO-05-734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2024, accompanying Committee reports, explanatory statements, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, within 60 days of enactment of this Act. The agreement also directs the Food and Drug Administration (FDA) the Farm Credit Administration (FCA), and the Commodity Futures Trading Commission (CFTC) to provide an organizational chart of each agency, respectively, to the division and subdivision level, as appropriate, within 60 days of enactment of this Act.

Further, USDA, FDA, and CFTC should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2025. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2025 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a monthly basis.

This agreement provides funding for Community Project Funding/Congressionally Directed Spending. The bill includes language in each account with such spending that the funding ‘‘shall be for the purposes, and in the amounts, specified for [the relevant account] in the table titled ‘Community Project Funding/Congressionally Directed Spending’ in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act).’’

The agreement provides \$58,292,000 for the Office of the Secretary.

The agreement directs the Secretary within 60 days of enactment of this Act to provide an IT modernization plan that accelerates the continued implementation and expansion of the Farmers.gov system using the Enterprise Data Analytics Platform and Toolset (EDAPT) to enable USDA customers to: (1) view their information, complete transactions, quickly review the status, and update tabular customer information; (2) submit applications for Farm Production and Conservation (FPAC) programs and receive program payments for all USDA farm programs; (3) to complete their own applications, including electronic signatures and submissions, for all farm programs that require direct application; (4) enable electronic income reporting between USDA and the Internal Revenue Service; and (5) access and manage acreage reporting, farm records mapping, and farm records information within Farmers.gov. For these purposes, the agreement provides a \$2,500,000 increase in the Office of Homeland Security for CFIUS reviews and a \$1,000,000 increase in the Farm Production and Conservation Business Center to improve AFIDA reporting.

The agreement also provides \$6,000,000, to be divided equally, to continue the Institute for Rural Partnerships at established land-grant universities, which were originally funded in fiscal year 2022.

tion for inclusion in the 2025 Dietary Guidelines for Americans (DGA), and that such findings and recommendations shall be solely based on the preponderance of scientific and medical knowledge. The agreement therefore directs the Secretary of Agriculture and the Secretary of Health and Human Services to ensure that any recommendations related to alcohol consumption in the 2025 DGA that deviate from the 2020 DGA must be based upon peer reviewed, scientific, and medical knowledge and that such review was the result of a transparent process by any federal entity that may have been involved.

The agreement directs the Department to submit a report to the Committees no later than 90 days after enactment of this Act, describing a plan for improving staffing at the Farm Service Agency, the Natural Resources Conservation Service, and the Rural Development mission area at the county and area levels, including recommendations for actions that Congress may take. The agreement further directs the Secretary to prioritize hiring of these positions outside the National Capital Region.

TITLE II

FARM PRODUCTION AND CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FARM PRODUCTION AND CONSERVATION

The agreement provides \$1,527,000 for the Office of the Under Secretary for Farm Production and Conservation.

USDA requires producers and landowners to obtain a farm and tract number to participate in certain USDA programs. This requirement creates a barrier for some landowners, particularly those with heirs' property issues, who cannot enroll in these programs because they do not have—and have not been able to get—a farm and tract number. USDA is directed to submit a proposal to the Committees immediately that will allow these landowners to participate, while still maintaining a record that uniquely identifies participating landowners that will serve as an alternative means to achieve the purposes of the farm and tract number process.

The agreement is concerned with the Department's implementation of the Emergency Relief Program, 2022. The agreement expects the Department to carry out programs in a manner consistent with Congressional intent and in consultation with the Committees.

The agreement directs the Secretary to explore all options to assist aquaculture producers impacted by severe weather, including exercising the authority under Section 1501(d) of the Agricultural Act of 2014 to include drought as adverse weather for Farm-Raised Fish under the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP).

FARM PRODUCTION AND CONSERVATION BUSINESS CENTER

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$244,183,000 for the Farm Production and Conservation Business Center. In addition, \$60,228,000 is transferred from the CCC.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,209,307,000 for Farm Service Agency, Salaries and Expenses.

The agreement notes that recent droughts have contributed to a dramatic increase in southern pine beetle infestations. The agreement is concerned about the severity of observed tree mortality, as well as the economic and ecological challenges posed to private forest landowners. The agreement emphasizes that the Emergency Forest Restoration Program (EFRP) was established to assist landowners impacted by natural disasters (including drought and insect infestations), and that previously appropriated funds are currently available to operate the program in fiscal year 2024. Of the unobligated balances available for EFRP, FSA is encouraged to address assistance to landowners impacted by southern pine beetle outbreaks in counties designated by USDA as primary natural disaster areas due to drought in the fourth quarter of fiscal year 2023 or first quarter of fiscal year 2024. The agreement urges the FSA National Office to work in coordination with the U.S. Forest Service and state forestry agencies to expedite the delivery of program assistance to landowners in areas impacted by drought and insect infestation.

In including, under the Further Continuing Appropriations and Other Extensions Act, 2024 (P.L. 118-22), the same formula used for supplemental dairy margin coverage (DMC) in Title I of the Agricultural Act of 2014 as an adjustment to production history for dairy margin coverage. Congress intended for the Secretary to administer without interruption such supplemental or adjusted coverage and to fulfill any contractual obligation of the Department to a dairy that paid a premium based on a full calendar year of coverage. Therefore, the agreement asserts that the Secretary had uninterrupted authority to make payments to participating dairies with which the Department was under a contract during any month of calendar year 2023 and to continue to address errors, omissions, and appeals from dairy operations arising out of the Supplemental DMC program.

The agreement notes that, since fiscal year 2014, Congress has increased FDA budget authority by \$1,065,023,000 to meet operational needs so that the agency can respond to issues such as the infant formula crisis, as well as invest in new technologies to advance drug and device safety. In addition to this funding, the FDA has also received an additional \$1,060,000,000 in emergency spending for public health emergencies to address COVID, Zika, and Ebola. In the current fiscal climate, funding decisions need to be re-evaluated, therefore FDA is directed to submit to the Committees a table, totaling at

least \$50,000,000 of funds that can be repurposed to meet the following items identified in the budget: ALS, Drug and Device Shortages, and Information Technology, and at least \$8,500,000, of which \$7,000,000 is for Cosmetics Regulation Implementation and \$1,500,000 is to be used to Reduce Animal Testing through Alternative Methods. In addition, the agreement directs the FDA to maintain fiscal year 2023 funding levels for the Neurology Drug Program and the Emerging Chemical and Toxicology Issues Program. The agreement provides specific amounts by FDA activity as reflected in the following table:

The agreement applauds FDA's efforts to advance precision oncology, which is improving patients' access to new targeted therapies and immunotherapies, and notes that FDA has a voluntary pilot program intended to evaluate the risks when targeted cancer treatments are approved without a companion diagnostic. The agreement directs FDA to provide a report lining its goals and metrics for success (including how the pilot program is consistent with a risk-based approach designed to protect patients from inaccurate test results) prior to expanding the initial phase of the pilot program, initiating a reclassification, or proposing modifications to existing companion diagnostic guidance.

The agreement recognizes FDA has completed its first pre-market consultation for a human food made from cultured animal cells. The agreement requests a report to the Committees within 90 days of enactment of this Act outlining the pre-market consultation process for cell-cultured protein products and any agency plans to coordinate with its counterparts at USDA on further action regarding the same products.

The agreement recognizes that FDA has the authority, when necessary, to ban a device for one or more intended uses when it finds the device demonstrates substantial deception or unreasonable risk.

Prior to dedicating resources on front of package labeling activities, the agreement requests that FDA submit an explanation of FDA's statutory authority to impose such mandatory labeling requirements.

The agreement notes that there is some controversy regarding the use of enriched en-

rollment, randomized withdrawal (EERW) clinical trial designs. The agreement thus directs FDA to continue to review the value of EERW methodology for its use in evaluating new marketing applications for prescription opioid analgesics and to review EERW's use in approving opioid analgesics currently on the market.

In 2022, Congress passed legislation to update the Family Smoking Prevention and Tobacco Control Act to close a loophole that certain manufacturers were exploiting to circumvent regulation. The legislation stated that to remain in the market, manufacturers must receive an authorization from the FDA Center for Tobacco Products by July 14, 2022. To date, FDA has not granted any authorizations for synthetic products. The agreement understands that products containing synthetic nicotine continue to remain in the market. The agreement strongly urges the Center for Tobacco Products to immediately remove any product containing synthetic nicotine from the market whether or not such product is the subject of a pending Premarket Tobacco Product Application (PMTA) application filed in 2022, until such applications for synthetic products are authorized.

The agreement notes that the Tropical Disease Priority Review Voucher (PRV) Program was authorized in 2007 to provide an important incentive for the development of a drug or biological product for the prevention or treatment of a tropical disease from an established list of "qualifying" tropical diseases, and this list has not been updated since July 2020. Given that PRV programs are a critical pathway for the development of medical products to treat or prevent rare tropical diseases, FDA is directed to maintain the necessary resources to evaluate PRV candidates in a timely manner.

The agreement commends the strong and consistent leadership of the Center for Biologics and continues to closely monitor the promise of cell and gene therapy for patients, particularly children. The agreement expresses support for FDA leadership's commitment to remain the gold standard in understanding novel treatments and reviewing them based on current science and with all due urgency where unmet medical need exists.

The agreement notes that the Office of Congressional Appropriations has been operating without a permanent director since June of 2022 and directs the Commissioner to prioritize filling this position.

The agreement directs FDA to brief the Committee within 120 days of enactment of this Act regarding the agency's existing tools to comprehensively track prescription drugs imported into the U.S. through section 804 importation programs as well as enforcement resources available to ensure that FDA can ensure safe and effective imports.

The agreement is concerned by reports of both drug and device companies knowingly withholding research that showed their products had adverse health outcomes. The agreement requests a briefing within 90 days of enactment of this Act regarding the agency's surveillance and enforcement efforts to ensure accountability for companies that withhold material information concerning unsafe drug products.
